## **Thoughts on Economic Development in China**

Ma Ying, Hans-Michael Trautwein, 2013-03-05 This book is about mutual influences of thinking about economic development in China and in the West from the 18th century until the present. Its chapters are contributed by development economists and historians of thought from China and other parts of the world. The book describes important stages in the evolution, cross fertilization and contextual modification of ideas about economic order, development and institutional change. It illustrates how Western concepts and theories have been adopted and adapted to Chinese conditions in different waves of modernization from the late 19th century until the present and that this was and is no one way traffic. The book examines to what extent pre-classical thinking in the West, in particular French Physiocracy in mid 18th century, was influenced by China as an ideal and a source of ideas at a time when China was the largest and most advanced economy in the world. It discusses to what extent different approaches of modern Western style economics, in particular in the fields of development economics and institutional economics, can be used to understand the rapid transitions and developments of the Chinese economy in recent decades and to what extent they need to be modified in the light of new experiences and insights. Against this background, several contributions to the volume provide assessments of the current state of economic science and teaching in China, in particular with regard to Chinese views on Western economics. The book should be of interest to those who are interested in the economic history of China.

## **The Science of Economic Development and Growth: The Theory of Factor Proportions**

C.C. Onyemelukwe, 2016-07-08 A theoretical framework aiming to facilitate study of development economics. The author presents his theory in three sections: how advanced nations developed, a proposed third dimension in addition to labour and capital, and why capital accumulation is unnecessary even potentially harmful.

The New Horizon of China's Economic Law Theory Shouwen Zhang, 2020-10-26 This book presents the development and reformation of economic law in China and explores the three relationships between the government and market, between reform and rule of law, and between the constitution and economic law. On this basis, it subsequently focuses on development theory, distribution theory, risk theory, and crisis theory. Further, it addresses effective development, fair distribution, and prevention and resolution of related risks and crises, which are important functions of economic law. In order to achieve the above functions and objectives, the book argues we must vigorously promote the integration of rule of law in economic law and constantly refine the theory of economic rule of law employed in China. The book demonstrates that no matter how the three major relationships are adjusted or the relevant systems are reformed, i.e. regarding the implementation of the concept of coordinated development or the optimization of economic structures, the solution of distribution problems or the improvement of distribution systems, the prevention of risks or the response to crises, any such changes depend on economic rule of law. The above mentioned theoretical discussion presents a new horizon of contemporary Chinese economic law theory, which will be of great value to

the future development of economic law theory      **Economic Development and Global Crisis** José Luís Cardoso, Maria Cristina Marcuzzo, María Eugenia Romero Sotelo, 2014-02-05 This edited collection uses a history of economic thought perspective to explore the evolving role of Latin America within the context of globalization In particular it examines the region's resilience in the face of the global financial crisis Economic Development and Global Crisis explains that Latin America is a region with distinct characteristics and peculiarities which have been shaped from the colonial era up to the present day The contributions suggest that several features which were perceived as economic backwardness have turned out to be advantageous and this may explain why Latin America is withstanding the crisis much better than Europe Japan and the USA This book will be of interest to scholars working in the areas of economic development economic history the history of economic thought and Latin American studies      **Ideas in the History of Economic Development** Estrella Trincado, Andrés Lazzarini, Denis Melnik, 2019-08-05 This edited volume examines the relationship between economic ideas economic policies and development institutions analysing the cases of 11 peripheral countries in Europe Latin America and Asia across the nineteenth and twentieth centuries It sheds light on the obstacles that have prevented the sustained economic growth of these countries and examines the origins of national and regional approaches to development The chapters present a fascinating insight into the ideas and visions in the different locations with the overarching categories of economic nationalism and economic liberalism and how they have influenced development outcomes This book will be valuable reading for advanced students and researchers of development economics the history of economic thought and economic history      *Research in the History of Economic Thought and Methodology* Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, 2023-10-02 Research in the History of Economic Thought and Methodology Volume 41B features a selection of papers presented at the First History of Economics Diversity Caucus Conference      **The Blackwell Companion to Contemporary Islamic Thought** Ibrahim Abu-Rabi', 2008-04-15 The Blackwell Companion to Contemporary Islamic Thought reflects the variety of trends voices and opinions in the contemporary Muslim intellectual scene Challenges Western misconceptions about the modern Muslim world in general and the Arab world in particular Consists of 36 important essays written by contemporary Muslim thinkers and scholars Covers issues such as Islamic tradition modernity globalization feminism the West the USA reform and secularism Helps readers to situate Islamic intellectual history in the context of Western intellectual trends      **Rethinking Economic Development, Growth, and Institutions** Jaime Ros, 2013-09 Presents the contributions that early development theory can make to growth economics in answering why some countries are richer than others and why some economies grow faster than others      *Employment, Income Distribution and Development Strategy: Problems of the Developing Countries* NA NA, 2015-12-25      Ubuntu Philosophy and Decolonising Social Work Fields of Practice in Africa Janestic Mwende Twikirize, Charlotte Tusasiirwe, Rugare Mugumbate, 2023-10-24 This book addresses a recurrent gap in social work literature by examining Ubuntu as an Indigenous African philosophy that

informs social work beyond the largely residual and individualistic conceptualisation of social work that currently prevails in many contexts Owing to the lack of social work theories models and generally literature that is locally and contextually relevant most social work lecturers based in African context struggle to access learning materials and texts that centre local indigenous voices and worldviews It is within this context that the ubuntu philosophy has gained traction There is increasing consensus that Ubuntu as an African philosophy and way of life has the potential to be used as a decolonising framework for social work education and practice Theorising from Ubuntu can influence and be the foundation for African social work theory and knowledge social work values and ethics social work research and policy and Ubuntu informing different fields of social work practice like social work with older people children and young people ubuntu and poverty alleviation ubuntu and the environment among others Drawing together social workers engaged in education research policy practice to theorise Ubuntu and its tenets philosophies and values this book shows how it can be a foundation for a decolonised more relevant social work education and practice in African contexts

**Challenges in Human Rights** Elisabeth Reichert, 2007 By using human rights as a guidepost social workers can help create social welfare policies that better serve societal needs However in applying human rights to contemporary situations social workers often encounter challenges that require thinking outside the box Bringing together provocative essays from a diverse range of authors Elisabeth Reichert demonstrates how approaching social work from a human rights perspective can profoundly affect legislation resource management and enforcement of policies Topics include the reconciliation of cultural relativism with universal human rights the debate over whether human rights truly promote economic and social development or simply allow economically developed societies to exploit underdeveloped countries the role of gender in the practice of human rights the tendency to promote political and civil rights over economic and social rights and the surprising connection between the social work and legal professions

*The Theory of Economic Development* Joseph Alois Schumpeter, 1983 Schumpeter proclaims in this classical analysis of capitalist society first published in 1911 that economics is a natural self regulating mechanism when undisturbed by social and other meddlers In his preface he argues that despite weaknesses theories are based on logic and provide structure for understanding fact Of those who argue against him Schumpeter asks a fundamental question Is it really artificial to keep separate the phenomena incidental to running a firm and the phenomena incidental to creating a new one In his answers Schumpeter offers guidance to Third World politicians no less than First World businessman In his substantial new introduction John E Elliott discusses the salient ideas of *The Theory of Economic Development* against the historical background of three great periods of economic thought in the last two decades

[The Economics of the Business Firm](#) Harold Demsetz, 1997 The essays in this volume discuss the theory of the business firm and its applications in economics

*Development Theory* David Lehmann, 2010-11-26 The studies in this book first published in 1979 offer an all encompassing contemporary critique of the sociology politics and economics of development as they are conventionally

taught and disseminated They also seek to outline the beginnings of a new approach while not sparing from criticism the simplistic of contemporary radical theories The reissue will prove of significant interest to the teaching of development studies at both undergraduate and post graduate levels

**Finding Problems to Fit the Solutions Twenty Years of Aid to the Sahel** Naudet Jean-David,2000-08-07 After ten years of aid fatigue here is a lucid constructive book that sheds new light on the problems and makes proposals for reform that are both thoughtful and innovative

*A Theory of Forced Labour Migration* Ali Kadri,2020-06-02 This book focuses on labour dislocation and migration of Palestinians between 1967 and 1992 In particular it highlights the social transformations in the occupied Palestinian territory where Palestinian labour was permitted to work in Israel from 1968 onwards Elaborating on the results of the policy which saw a gradual increase in the number of Palestinian workers commuting daily from a negligible proportion of the actively participating labour force to 35 percent of all employed persons and 60 percent of all wage paid workers the book studies this unique case which embodies characteristics from permanent migration situations not only in the de jure but also the de facto sense insofar as it embeds higher risks and reallocates resources as if it was a permanent relocation scenario Illustrated with tables and econometric results the book identifies the determinants and implications of migrant labour from the West Bank using two broad methodologies the neoclassical and the historical structural method Each of these methods is divided into two branches the classical divided into price determined and a choice theoretic framework and the historical structural divided into dependency and Marxist theory In order to gain a comprehensive understanding of the situation all four perspectives are employed in the investigation In doing so what emerges is a structure for the book which takes shape along the different lines of migration literature The book provides new insights into the making of wage labour and labour migration theory

**China's Economic Development Strategies: Transformation And Innovation** Rui Liu,2020-04-28 China is a powerful engine of the global economy and the country's rise is undoubtedly the outcome of its protracted campaign of designing and implementing national development strategies since the founding of the People's Republic of China in 1949 This book reviews the transformation and innovation of China's economic development strategies especially Deng Xiaoping's Three Step strategy and Xi Jinping's internal and external strategies By introducing the concept of strategic paradigm it analyzes the theoretical basis of myriads of economic development strategies and predicts China's choice With the evolutionary process and the outstanding problems in national development planning as the main thread it discusses the improvement of the national planning system specifically of the national overall planning system the regional planning system the interplay and conflict between regional planning It also studies the reform of city county planning system major function oriented zones MFOZs and planning legislation and institutionalization It also attempts to put forward proposals to coordinate the interests of planning departments and make different types of planning at different administrative levels compatible

**UN Contributions to Development Thinking and Practice** Richard Jolly,Louis Emmerij,Dharam

Ghai, Frédéric Lapeyre, 2004-06-18 UN Contributions to Development Thinking and Practice is at once a history of the ideas and realities of international development from the classical economists to the recent emphasis on human rights and a history of the UN's role in shaping and implementing development paradigms over the last half century. The authors all prominent in the field of development studies argue that the UN's founding document the UN Charter is infused with the human values and human concerns that are at the center of the UN's thinking on economic and human development today. In the intervening period the authors show how the UN's approach to development evolved from mainstream areas of economic development to include issues of employment poverty reduction fairer distribution of the benefits of growth equality of men and women child development social justice and environmental sustainability. Levels of Socio-economic Development Theory David Jaffee, 1998-07-30 Advanced undergraduates graduate students and social scientists interested in a wide ranging but concise review of contemporary theories of social and economic development will find this second edition invaluable. The coverage spans the disciplines of sociology psychology economics political science political economy geography and management. The theories are organized by level of analysis individual organizational societal and international to provide the reader with a larger organizational scheme in which to understand the theoretical explanations and arguments and to emphasize the importance of developing linkages among the different levels. Some of the new topics discussed include globalization transnational organizational structures debt the transition from socialism to capitalism and human development.
