Russell, 2005-12-15 A judicial revolution occurred in 1992 when Australia s highest court discarded a doctrine that had stood for two hundred years that the country was a terra nullius a land of no one when the white man arrived The proceedings were known as the Mabo Case named for Eddie Koiki Mabo the Torres Strait Islander who fought the notion that the Australian Aboriginal people did not have a system of land ownership before European colonization The case had international repercussions especially on the four countries in which English settlers are the dominant population Australia Canada New Zealand and the United States In *Recognizing Aboriginal Title* Peter H Russell offers a comprehensive study of the Mabo case its background and its consequences contextualizing it within the international struggle of Indigenous peoples to overcome their colonized status Russell weaves together an historical narrative of Mabo s life with an account of the legal and ideological premises of European imperialism and their eventual challenge by the global forces of decolonization He traces the development of Australian law and policy in relation to Aborigines and provides a detailed examination of the decade of litigation that led to the Mabo case Mabo died at the age of fifty six just five months before the case was settled Although he had been exiled from his land over a dispute when he was a teenager he was buried there as a hero *Recognizing Aboriginal Title* is a work of enormous importance by a legal and constitutional scholar of international renown written with a passion worthy of its subject a man who fought hard for his people and won *Guide to the Papers of Edward Koiki Mabo in the National Library of Australia* National Library of Australia, Eddie Mabo, 1995-01-01 Australia 1901 - 2001 Andrew Tink, 2014-11-01 Andrew Tink s superb book tells the story of Australia in the twentieth century from Federation to the

Sydney 2000 Olympics A century marked by the trauma of war and the despair of the depression balanced by extraordinary achievements in sport science and the arts A country underpinned by a political system that worked most of the time and the emergence of a mainly harmonious society Australians at the start of the century could hardly have imagined the prosperity enjoyed by their diverse countrymen and women one hundred years later Tink's story is driven by people whether they be prime ministers soldiers shop keepers singers footballers or farmers a mix of men or women Australian born immigrants and Aborigines He brings the decades to life writing with empathy humour and insight to create a narrative that is as entertaining as it is illuminating

Being Australian

Catriona Elder, 2020-07-24 After a century of speculation by writers filmmakers travelers and scholars being Australian has become a recognisable shorthand for a group of national characteristics Now in an era of international terrorism being seen as un-Australian has become a potent rhetorical weapon for some and a badge of honour for others Catriona Elder explores the origins meaning and effects of the many stories we tell about ourselves and how they have changed over time She outlines some of the traditional stories and their role in Australian nationalism and she shows how concepts of egalitarianism peaceful settlement and sporting prowess have been used to create a national identity Elder also investigates the cultural and social perspectives that have been used to critique dominant accounts of Australian identity including ideas of class gender sexuality ethnicity and race She shows how these critiques have been in turn queried in recent years Being Australian is an ideal introduction to studying Australia for anyone interested in understanding Australian society culture and history A clever work incisive and original At a time when Australian identities have never been more debated Elder finds an open way through the closed doors which often restrict cultural representations of Australian-ness Professor Adam Shoemaker Dean of Arts ANU This is a timely and significant new analysis essential reading on issues of identity and our own anxieties about national belonging and what it means to be Australian in a globalising world Kate Darian Smith Professor of Australian Studies and History University of Melbourne *Historical Dictionary of Australian Aborigines* Mitchell Rolls, Murray Johnson, 2019-11-05 The Aboriginal Australians first arrived on the continent at least 60 000 years ago occupying and adapting to a range of environmental conditions from tropical estuarine habitats densely forested regions open plains and arid desert country to cold mountainous and often wet and snowy high country Cultures adapted according to the different
