Effective Strategies For Protecting Human Rights:

Effective Strategies for Protecting Human Rights David Barnhizer, 2017-11-01 This title was first published in 2001 This book brings together the experiences of a diverse range of leading human rights advocates and activists to demonstrate strategies for protecting human rights The volume identifies strategic problems and approaches and offers a range of strategies that hold promise for sanctioning human rights offenders and for inhibiting the behaviour of those who might otherwise engage in such activities The contributors include inter alia Noam Chomsky Justice Richard Goldstone of the Constitutional Court of South Africa who served as Chief Prosecutor of the UN War Crimes Tribunals for the former Yugoslavia and Rwanda and David Rawson United States Ambassador to Rwanda during the tragic genocide Those who work in the disparate field of human rights increasingly understand the need to see the system strategically rather than piecemeal This volume captures their insights and looks at both private and public actors including the uses and limitations of international fora to prosecute violations The focus is expanded to include private actions because political issues too often interfere with enforcement of human rights laws allowing violators to hide behind the unwillingness of national governments to take action *IBSS: Political Science: 2002 Vol.51* Compiled by the British Library of Political and Economic Science, 2004-03-01 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world's most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2002 234x156 0 415 32634 6 u195 00 Economics 2002 Vol 51 December 2002 234x156 0 415 32635 4 u195 0 0 Political Science 2002 Vol 51 December 2002 234x156 0 415 32636 2 u195 00 Sociology 2002 Vol 52 December 2002 234x156 0 415 32637 0 u195 00

The Oxford Handbook of Law and Anthropology Marie-Claire Foblets, Mark Goodale, Maria Sapiñoli, Olaf Zenker, 2022-04-01 The Oxford Handbook of Law and Anthropology is a ground breaking collection of essays that provides an original and internationally framed conception of the historical theoretical and ethnographic interconnections of law and anthropology Each of the chapters in the Handbook provides a survey of the current state of scholarly debate and an argument about the future direction of research in this dynamic and interdisciplinary field The structure of the Handbook is animated by an overarching collective narrative about how law and anthropology have and should relate to each other as intersecting domains of inquiry that address such fundamental questions as dispute resolution normative ordering social organization and legal political and social identity The need for such a comprehensive project has become even more pressing as lawyers and anthropologists work together in an ever increasing number of areas including immigration and asylum processes international justice forums cultural heritage certification and monitoring and the writing of new national constitutions among many others The Handbook takes critical stock of these various points of intersection in order to identify and conceptualize the most promising areas of innovation and sociolegal relevance as well as to acknowledge the points of tension open questions and areas for future development

Philosophical Foundations of Fiduciary Law Andrew S. Gold, Paul B. Miller, 2014-08-15 Fiduciary law is a critically important body of law Fiduciary duties ensure the integrity of a remarkable variety of relationships institutions and organizations They apply to relationships of great personal significance including in some jurisdictions the relationship between parents and children They structure a wide variety of commercial relationships and they are essential to the regulation of relationships between professional service providers and their clients including relationships between lawyer and client doctor and patient and investment manager and client Fiduciary duties perhaps uniquely in private law challenge traditional ways of marking the boundaries between private and public law inasmuch as they figure prominently in public

governance Indeed there is even a storied tradition of thinking of the authority of the state in fiduciary terms Notwithstanding its importance fiduciary law has been woefully under analysed by legal theorists Filling this gap with a series of chapters by leading theorists this book includes chapters on the nature of fiduciary relationships the connection between fiduciary duties and morality the content and significance of fiduciary loyalty the economic significance of fiduciary law the application of fiduciary principles to public law and international law the import of fiduciary relationships to theories of authority and various other fundamental topics in the field In many cases new and important questions are raised by the book s chapters Indeed this book not only offers a much needed theoretical assessment of fiduciary topics it defines the field going forward setting an agenda for future philosophical study of fiduciary law

book stimulates creative consideration of the extent to which the international trading system's prohibition on the use of trade measures may stifle progress on legal norms that would foster an international community. Krista Nadakavukaren Schefer suggests using the law of equity to fully take into account both the trade and the social issues at stake in any particular case. With its thorough analysis of WTO trade and decisions, this path-breaking book will be a stimulating read for scholars and students of international law, international economic law, and international relations.

Responding to Mass Atrocities in Africa Raymond Kwun-Sun Lau, 2021-12-14 This book explores the relationship between the Responsibility to Protect (R2P) and the International Criminal Court (ICC), challenging the assumption that they are always mutually reinforcing or complementary and examining instead the many tensions which arise between the immediate imperative of saving lives and the more long-term prospect of punishing perpetrators and preventing future conflicts through deterrence. Around the world, audiences in the mid-1990s watched the mass atrocities unfolding in Rwanda and Srebrenica in horror and disbelief. Emerging from these disasters came an international commitment to safeguard and protect vulnerable communities as laid out in the R2P principle and an international responsibility to punish perpetrators with the establishment of the ICC. The book provides context-independent proposals for resolving contradictions between the two principles, suggesting that focusing on timing and sequencing in invoking international R2P and ICC actions could facilitate the easing of tensions. Drawing on examples from Uganda, Kenya, and Darfur, the book applies International Relations concepts and theories in order to deepen our understanding of international responses to mass atrocities. Ultimately, the book concludes that a Protection First Justice Later sequence approach is necessary for managing the tension and facilitating more effective and consistent international responses. This book makes an important contribution to discussions and debates surrounding international responses to genocide and mass atrocities. It will be of special interest to scholars, students, and policymakers in International Relations, Global Governance, African Studies, International Development, Human Rights, and International Criminal Law.
