Effi Briest Frau Jenny Treibel:

Frau Jenny Treibel. English Theodor Fontane, 1976 In his satirically humorous society novel Frau Jenny Treibel which was published in 1892 Fontane unmasked the main characters in their selfish intrigues clearly enough as sentimental conceited or downright pragmatic Nevertheless one can smile with sympathy towards the characters who come to such refreshing conclusions as Money is nonsense Goodreads Irrungen Wrrungen, Frau Jenny Treibel, Effi Briest Edelgard Katharine Reyes, 1974 **A New History of German Literature** David E. Wellbery, Judith Ryan, Hans Ulrich Gumbrecht, 2004 A New History of German Literature offers some 200 essays on events in German literary history

Fontane's Development of the New Woman in the Novel Frau Jenny Treibel and Effi Briest Heide K. Dorsett, 1990 *The Changing Image of Theodor Fontane* Helen Chambers, 1997 Wide ranging survey of the criticism devoted to Theodor Fontane with particular emphasis on more recent theoretical trends This study of the literary scholarship on Fontane's narrative works is the first to present a systematic review of the ever growing body of criticism on Germany's major realist novelist Significant developments in Fontane criticism are traced in historical context from their beginnings in contemporary commentary to the present day The author places special emphasis on scholarship since 1980 analysing the influence of new literary critical trends in this period she also considers the effect upon traditional literary criticism of feminism psychoanalysis and comparatist approaches and the fresh developments in reception history translation and media studies *Effi Briest* Theodor Fontane, 1983 A Social History of Germany, 1648-1914 Eda Sagarra, 2017-07-12 This volume is a pioneering effort to examine the social demographic and economic changes that befell the Jewish communities of Central Europe after the dissolution of the Habsburg Empire It consists of studies researched and written especially for this volume by historians sociologists and economists all specialists in modern Central European Jewish affairs The era of national rivalry economic crises and political confusion between the two World Wars has been preceded by a pre World War I epoch of Jewish emancipation and assimilation During that period Jewish minorities had been harbored from violent anti-Semitism by the Empire and they became torchbearers of industrialization and modernization This common destiny encouraged certain common characteristics in the three major components of the Empire Austria Hungary and the Czech territories despite the very different origins of the well over one million Jews in those three lands The disintegration of the Habsburg Empire created three small economically marginal national states inimical to each other and at liberty to create their own policies toward Jews in accord with the preferences of their respective ruling classes Active and openly discriminatory anti-Semitic measures resulted in Austria and Hungary The only liberal heir country of the Empire was Czechoslovakia although simmering anti-Semitism and below surface discrimination were widespread in Slovakia While one might have expected Jewish communities to return to their pre World War I tendencies to go their independent ways after the introduction of these policies social and economic patterns which had evolved in the Habsburg era persisted until the Anschluss in Austria

German occupation in Czechoslovakia and World War II in Hungary Studies in this volume attest to continuing similarities among the three Jewish communities testifying to the depth of the Empire's long lasting impact on the behavior of Jews in Central Europe

Historical Dictionary of Berlin Ulrike Zitzlsperger, 2021-01-21 After World War II Berlin became one of the playgrounds of the Cold War the Berlin Wall made the division between East and West between capitalism and communism in 1961 highly visible though it did remove Berlin from front line politics East and West Berlin had turned into shop windows of ideologies West Berlin representing the lure of a market economy East Berlin the promise of socialism It is then fitting that the fall of the Wall in 1989 awarded Berlin such a prominent role It was here that the development after Reunification of East and West became a closely observed event and well beyond Germany Berlin appeared to represent fundamental developments throughout Europe at the time Today Berlin is the capital of reunified Germany and therefore one of the key political players in the European Union EU and it's now a desirable destination for young entrepreneurs The Historical Dictionary of Berlin contains a chronology an introduction and an extensive bibliography The dictionary section has more than 300 cross referenced entries on important personalities places institutions and events This book is an excellent resource for students researchers and anyone wanting to know more about Berlin

How Our Love of Dogs Creates Social Conflict James K. Beggan, 2022-09-07 For the last twenty thousand years dogs and people have shared a unique bond in the animal kingdom In How Our Love of Dogs Creates Social Conflict James K Beggan uses symbolic interaction to examine the meaning that dogs have for people as friends and family members Although many animal rights advocates express dismay over the subordinate status ownership implies the author argues that ownership creates a powerful psychological connection that makes it easier for people to imbue dogs with humanlike characteristics Beggan outlines how dogs sensitivity to inequity in combination with a high degree of cognitive capacity makes it possible for dogs to be active agents in creating conflict between people The author's analysis of social conflict between people over their dogs connects to profound philosophical concepts about the nature of mind the relationship between humans and animals and the moral responsibility human beings have to dogs and other animals

Women, Emancipation and the German Novel 1871-1910 Charlotte Woodford, 2017-12-02 In novels written at the end of the long nineteenth century women in Germany and Austria engaged with some of the most pressing social questions of the modern age Charlotte Woodford analyses a wide range of such works many of them largely forgotten in the context of the contemporary cultural discourses that informed their creation such as writings on pacifism and socialism prostitution birth control and sexually transmitted diseases Women's experience of contemporary medicine as patients and doctors is a fascinating theme treated here by several authors Through a close reading of works by Marie von Ebner Eschenbach Minna Kautsky Gabriele Reuter Helene Bohlau Ilse Frapan Hedwig Dohm Lou Andreas Salome and others this study shows how writers determination to validate women's experience of the problems of modernity informed the aesthetic development of the novel by women

Annual List of New and Important

Books Added to the Public Library of the City of Boston Boston Public Library, 1898 *Family Constellations in Contemporary Ibero-American and Slavic Literatures* Anna Artwińska, Ángela Calderón, Jobst Welge, 2024-10-07 This volume examines Ibero American as well as Slavic literatures of the 21st century and studies how historical imaginaries in family narratives are functionalized for both individual and collective and post national identities The analysis proceeds along three conceptual axes What these narratives have in common is that they construct specific constellations of the historical imagination and of family whereby family is here conceived not so much as an organic micro unity but rather as changing multiple relations between individual members godparents first and second degree relatives non blood related family members present and absent members adopted children etc Furthermore these novels are often grounded in trans generational memories They are written by members of a generation that as a rule did not directly experience these historical events It is also significant that these narratives are no longer conceived as representing national identities but paradigmatically speak for a collective that defines itself in regional ethnic religious or ideological terms It seems therefore that these narratives of family constellations are in need of more flexible typological rubrics and interpretive frameworks Intended as a sustained comparative study of these family narratives this volume is a contribution in understanding how historical caesura experiences and their literary representation work on the self understanding of the present *Ennobling Love* C. Stephen Jaeger, 2010-08-03 Richard Duke of Aquitaine son of the King of England remained with Philip the King of France who so honored him for so long that they ate every day at the same table and from the same dish and at night their beds did not separate them And the King of France loved him as his own soul and they loved each other so much that the King of England was absolutely astonished at the vehement love between them and marveled at what it could mean Public avowals of love between men were common from antiquity through the Middle Ages What do these expressions leave to interpretation An extraordinary amount as Stephen Jaeger demonstrates Unlike current efforts to read medieval culture through modern mores Stephen Jaeger contends that love and sex in the Middle Ages relate to each other very differently than in the postmedieval period Love was not only a mode of feeling and desiring or an exclusively private sentiment but a way of behaving and a social ideal It was a form of aristocratic self representation its social function to show forth virtue in lovers to raise their inner worth to increase their honor and enhance their reputation To judge from the number of royal love relationships documented it seems normal rather than exceptional that a king loved his favorites and the courtiers and advisors clerical and lay loved their superiors and each other Jaeger makes an elaborate accessible and certain to be controversial case for the centrality of friendship and love as aristocratic lay clerical and monastic ideals *Ennobling Love* is a magisterial work a book that charts the social constructions of passion and sexuality in our own times no less than in the Middle Ages **The Cultivation of Hatred** Peter Gay, 1993 Gay's search through middle class Victorian culture illuminated by lively portraits of such daunting figures as Bismarck Darwin and his acolytes George Eliot and the great satirists Daumier

and Wilhelm Busch covers a vast terrain the relations between men and women wit demagoguery and much more We discover the multiple ways in which the nineteenth century at once restrained aggressive behavior and licensed it Aggression split the social universe into insiders and outsiders By gathering up communities of insiders Professor Gay writes the Victorians discovered only too often invented a world of strangers beyond the pale of individuals and classes races and nations it was perfectly proper to debate patronize ridicule bully exploit or exterminate The aggressions so channeled or bottled could not be contained forever Ultimately they exploded in the First World War

Fundamental Concepts of Children's Literature Research Hans-Heino Ewers,2009-06-15 In this book Ewers provides students and professors with a new system of categorization for a differentiated description of children s literature In the early 1970s Swedish children s literature scholar G te Kingberg worked to establish a system of scientific terminology for international use but these terms are now somewhat antiquated This book offers a much needed update systematically analyzing the field and articulating its key definitions terms and concepts International in scope this study touches on subjects including the distribution of primers and textbooks the means by which children s books are evaluated and classified and the ways in which children s literature can find an adult audience Also discussed are the system of symbols norms concepts and discourses that have evolved during the past two centuries leading to an investigation of how authors and publishers have endeavored to make literature appropriate for children and of what it means to accommodate children s needs wishes and values Throughout Ewers provides concrete examples and clear definitions of terms so that any scholar interested in children s literature will find this book approachable insightful and one that crosses cultural boundaries

PHILOLOGY, CONCEPTS OF EUROPEAN LITERATURE Andreas Sofroniou,2013-07-17 **The German Mind as Reflected in Their Literature from 1870 to 1914** Fanny Johnson,1922 **Fontaine and Cultural Mediation** Robertson Ritchie,2017-07-05 In the mid 1880s the Realist author and Anglophile Theodor Fontane observed nowhere is so much translation done as in Germany Characterizing Germany as a special locus of literary translation and reception Fontane contests a prejudice which has since become a significant problem for nineteenth century German studies namely the frequent assessment of the epoch as narrowly national The present collection of essays by thirteen eminent literary scholars and historians is intended to correct this prejudice it demonstrates that literary life and production in the nineteenth century

were governed by complex networks of intercultural exchange influence and translation and it does justice to this complexity through its range of complementary critical approaches focussing on Fontane Anglo German relations translation and European reception In so doing this book not only offers a nuanced appreciation of literary production and reception in the nineteenth century but also demonstrates the continued relevance of that period for Germanists today

The Cultivation of Hatred: The Bourgeois Experience: Victoria to Freud Peter Gay, 1993-09-17 With the same sweep authority and originality that marked his best selling *Freud A Life for Our Time* Peter Gay here takes us on a remarkable journey through middle class Victorian culture Gay's search through middle class Victorian culture illuminated by lively portraits of such daunting figures as Bismarck Darwin and his acolytes George Eliot and the great satirists Daumier and Wilhelm Busch covers a vast terrain the relations between men and women wit demagoguery and much more We discover the multiple ways in which the nineteenth century at once restrained aggressive behavior and licensed it Aggression split the social universe into insiders and outsiders By gathering up communities of insiders Professor Gay writes the Victorians discovered only too often invented a world of strangers beyond the pale of individuals and classes races and nations it was perfectly proper to debate patronize ridicule bully exploit or exterminate The aggressions so channeled or bottled could not be contained forever Ultimately they exploded in the First World War
