Egypt Leading The Way Institution Building And Stability In The Financial:

Egypt Leading the Way Mark Huband, 1999 **Governance Structures in African Securities Exchanges** Samuel O. Onyuma, 2023-10-09 Demutualization is the transformation of a securities exchange governance structure from a mutual association of stockbrokers operating as not for profit entity into a for profit company accountable to its shareholders. It has become a widespread phenomenon one with increasing appeal in developed markets. It challenges the traditional approach to regulation of securities exchanges and raises issues regarding their role in capital markets regulation. In spite of its popularity as a strategy for catalysing securities exchange development in emerging economies its pace in Africa has been excruciatingly very slow. African securities exchanges therefore remain underdeveloped compared to their peers in other emerging markets. So how can African securities exchanges facing the challenge of integration and better technical and institutional development address the problem of underdevelopment through demutualization? This book explains how demutualization can enable greater and swifter securities market development in Africa the role government regulators should play in demutualization of exchanges in African countries the right self regulatory model applicable to African exchanges effective management of conflicts of interest and other barriers to separation of ownership from management and trading rights types of investments needed to enhance the effectiveness of African's capital market and how securities exchange demutualization can facilitate African countries' destiny to become leading capital markets globally. [Annals of Cases on Information Technology](#) Mehdi Khosrowpour, 2002-07-01 [Annals of Cases on Information Technology](#) provides 37 case studies authored by over 50 world renowned academicians and practitioners in information technology each offering insight into how to succeed in IT projects and how to avoid costly failures. These case studies describe private and public organizations including educational institutions electronic businesses and governmental organizations ranging in size from small businesses to large organizations. Additionally they focus on a variety of technology projects including electronic commerce and electronic business initiatives enterprise resource planning and reengineering efforts data mining projects and the human factors relating to IT projects. [Trading Secrets](#) Mark Huband, 2012-12-14 Today's intelligence community faces challenges that would have been inconceivable only a dozen years ago. Just as al Qaeda's destruction of the Twin Towers heralded a revolution in global diplomacy the events of 9/11 also threw two centuries of spy craft into turmoil because this new enemy could not be bought. Gone were the sleepers and moles whose trade in secrets had sustained intelligence agencies in both peacetime and war. A new method of intelligence had been born. The award winning former Financial Times security correspondent Mark Huband here takes us deep inside this new unseen world of spies and intelligence. With privileged access to intelligence officers from Rome to Kabul and from Khartoum to Guantanamo Bay he reveals how spies created secret channels to the IRA deceived Iran's terrorist allies frequently attempted to infiltrate al Qaeda and forced Libya to abandon its nuclear weapons. Using accounts from ex KGB officers Huband vividly describes the

devastation caused by the West's misreading of Soviet intentions in Africa and explains how ill prepared western intelligence agencies were when the Cold War was replaced by the perception of a new terrorist threat Benefiting from privileged access to intelligence sources across the world *Trading Secrets* provides a unique and controversial assessment of the catastrophic failure of spies to grasp the realities of the Taliban's grip on Afghanistan and draws upon exclusive interviews with serving officers in assessing the ability of the major intelligence agencies to combat the threat of twenty first century terrorism

Monetary Fund. Middle East and Central Asia Dept., 2015-02-10 **KEY ISSUES** The 2014 Article IV consultation takes place when the authorities have started to address longstanding economic challenges For a number of years Egypt has suffered from low and non inclusive growth and from high unemployment Since 2011 these problems have been compounded by large fiscal deficits and rising public debt and by external fragility evidenced by loss of foreign exchange reserves In 2014 Egypt adopted a new constitution and elected a new president who was candid with the electorate on the need to reform the economy The government has developed a plan centered on structural reform and investment promotion to raise growth and create jobs and fiscal adjustment to bring the budget deficit and public debt under control Crucially the authorities have already begun to implement fuel subsidy reform raising prices by 40-80 percent in July 2014 They have also begun the reforms needed to raise tax revenue and to make Egypt a more attractive destination for investment There was agreement

that the authorities objectives are ambitious but are broadly within reach with steady policy implementation The authorities aim to raise growth to 6 percent per annum reduce annual inflation to 7 percent bring down the fiscal deficit to 8 percent of GDP and debt to 80 85 percent of GDP and increase foreign exchange reserves to 31 2 months of imports all within the next five years Staff considers these objectives appropriately ambitious although targeting a higher level of reserves would be prudent It believes that the authorities policies if followed steadfastly are broadly consistent with these objectives but noted that a number of policies including the details of some fiscal measures and structural measures to improve the business environment are still being formulated The authorities and the staff differed somewhat on the extent of vulnerabilities and risks The authorities are confident that they will be able to follow through on their policies and that improved confidence will lead to a surge in foreign investment a pickup in tourism and strong economic growth Staff emphasized that the authorities policies would still leave significant vulnerabilities namely high public debt and large financing gaps which would need to be covered by greater adjustment or financing or a combination of the two Staff also pointed to the difficulty of maintaining tight fiscal and monetary policies over a long period the risks of dilution of structural reform efforts and the uncertain regional security environment To contain these vulnerabilities and risks staff recommended developing contingency measures in the budget taking steps to build up reserves buffers and greater exchange rate flexibility to restore competitiveness However staff also agreed that with steadfast commitment to reform Egypt s prospects could be stronger than assumed in staff s projections In particular the recovery in investment could exceed expectations

The Egyptians Jack Shenker, 2016-01-21 From award winning journalist Jack Shenker The Egyptians is the essential book about Egypt and radical politics In early 2011 Cairo s Tahrir Square briefly commanded the attention of the world Half a decade later the international media has largely moved on from Egypt s explosive cycles of revolution and counter revolution but the Arab World s most populous nation remains as volatile as ever its turmoil intimately bound up with forms of authoritarian power and grassroots resistance that stretch right across the globe In The Egyptians A Radical Story Jack Shenker uncovers the roots of the uprising that succeeded in toppling Hosni Mubarak one of the Middle East s most entrenched dictators and explores a country now divided between two irreconcilable political orders Challenging conventional analyses that depict contemporary Egypt as a battle between Islamists and secular forces The Egyptians illuminates other far more important fault lines the far flung communities waging war against transnational corporations the men and women fighting to subvert long established gender norms the workers dramatically seizing control of their own factories and the cultural producers novelists graffiti artists and illicit bedroom DJs appropriating

public space in defiance of their repressive and increasingly violent western backed regime Situating the Egyptian revolution in its proper context not as an isolated event but as an ongoing popular struggle against a certain model of state authority and economic exclusion that is replicated in different forms around the world The Egyptians explains why the events of the past five years have proved so threatening to elites both inside Egypt and abroad As Egypt's rulers seek to eliminate all forms of dissent seeded within the rebellious politics of Egypt's young generation are big ideas about democracy sovereignty social justice and resistance that could yet change the world

Egypt's Long Revolution Maha Abdelrahman, 2014-08-07 The millions of Egyptians who returned to the heart of Cairo and Egypt's other major cities for 18 days until the eventual toppling of the Mubarak regime were orderly without an organisation inspired without a leader and single minded without one guiding political ideology This book examines the decade long of protest movements which created the context for the January 2011 mass uprising It tells the story of Egypt's long revolutionary process by exploring its genealogy in the decade before 25 January 2011 and tracing its development in the three years that have followed The book analyses new forms of political mobilisation that arose in response to ever increasing grievances against authoritarian politics deteriorating living conditions for the majority of Egyptians as a consequence of neo liberal policies and the machinery of crony capitalism and an almost total abandoning by the state of its responsibilities to society at large It argues that the increasing societal pressures from different quarters such as labour groups pro democracy movements and ordinary citizens during this period culminated in an intensifying culture of protest and activism that was vital in the lead up to the dramatic overthrow of Mubarak It also argues that the features of these new forms of activism and political mobilisation have contributed to shaping the political process since the downfall of Mubarak Based on research undertaken since 2002 Egypt's Long Revolution is an essential resource for scholars and researchers with an interest in social movements comparative politics and Middle East Politics in general
