serious attempt to review the religious history of ancient Egypt in the light of the science of modern mythology Instead of regarding Egyptian mythology and legend as unique classic and inviolate as did many Egyptologists Spence saw Egyptian religious thought as part of world mythology rooted in primitive conceptions common to mankind as a whole and related to those of many other cultures

Egyptian Myths and Mysteries and Their Connection with the Active Spiritual Forces of To-day Rudolf Steiner,1933

The Egyptian Myths: A Guide to the Ancient Gods and Legends (Myths) Garry J. Shaw,2014-04-22 An authoritative guide to the Egyptian myths that sheds new light on an ancient way of understanding the world This survey of Egyptian mythology explores how the ancient Nile dwellers explained the world around them It delves into the creation and evolution of the world and the reigns of the gods on earth before introducing us to the manifestations of Egypt s deities in the natural environment the inventive ways in which the Egyptians dealt with the invisible forces all around them and their beliefs about life after death Through his engaging narrative Garry Shaw guides us through the mythic adventures of such famous deities as Osiris the god murdered by his jealous brother Seth the magical and sometimes devious Isis who plotted to gain the power of the sun god Re and Horus who defeated his uncle Seth to become king of Egypt He also introduces us to lesser known myths such as the rebellions against Re Geb s quest for Re s magical wig and the flaying of the unfortunate god Nemty From stars and heavenly bodies sailing on boats to the wind as manifestation of the god Shu to gods goddesses ghosts and demons beings that could be aggressive helpful wise or dangerous Shaw goes on to explain how the Egyptians encountered the mythological in their everyday lives

Egyptian Myth and Legend Donald Alexander Mackenzie,2020-09-28 In this volume the myths and legends of ancient Egypt are embraced in a historical narrative which begins with the rise of the great Nilotic civilization and ends with the Graeco Roman Age The principal deities are dealt with chiefly at the various periods in which they came into prominence while the legends are so arranged as to throw light on the beliefs and manners and customs of the ancient people Metrical renderings are given of such of the representative folk songs and poems as can be appreciated at the present day Egyptian mythology is of highly complex character and cannot be considered apart from its racial and historical aspects The Egyptians were as a Hebrew prophet has declared a mingled people and this view has been confirmed by recent ethnological research the process of racial fusion begun in the Delta at the dawn of history says Professor Elliot Smith spread through the whole land of Egypt In localities the early Nilotic inhabitants accepted the religious beliefs of settlers and fused these with their own They also clung tenaciously to the crude and primitive tribal beliefs of their remote ancestors and never abandoned an archaic conception even when they acquired new and more enlightened ideas they accepted myths literally and regarded with great sanctity ancient ceremonies and usages They even showed a tendency to multiply rather than to reduce the number of their gods and goddesses by symbolizing their attributes As a result we find it necessary to deal with a bewildering number of deities and a confused mass of beliefs many of which are obscure and contradictory But the average Egyptian was never dismayed by inconsistencies in

religious matters he seemed rather to be fascinated by them There was strictly speaking no orthodox creed in Egypt each provincial centre had its own distinctive theological system and the religion of an individual appears to have depended mainly on his habits of life The Egyptian as Professor Wiedemann has said never attempted to systematize his conceptions of the different divinities into a homogeneous religion It is open to us to speak of the religious ideas of the Egyptians but not of an Egyptian religion
