Jaredites The Missing Civilization X Jim Hendleman This book covers the origin and archaeological development of selected categories of civilized elements identified as being Jaredite in origin It is an attempt to elevate the Jaredite civilization into the light of day from the heretofore dark mists of history where science has forced it for the last 2 500 years The Jaredite Civilization spanned a possible 2 530 years in length and their known achievements alone have far exceeded those of modern man s successes in many regards In c 2500 BC the Jaredites built a pair of concrete super highways over 2 700 miles complete with paved exits and a secondary road network nearly the entire length of the South American continent Their civilization could answer the riddles of the Sphinx the questions of who built the pyramids and why the mystery and likely origin of UFO s prove whether or not George Lucas had the only ET detail what Noah brought aboard the Ark besides three of his sons and their families and provide an answer to the question posed to Dr J Robert Oppenheimer by a student as to whether Alamogordo s nuclear bomb in July 1945 was the first ever atomic bomb explosion in history Many other possible but likely Jaredite achievements are incredibly fascinating and await only an honest archaeological effort to prove them The historical facts exist they are real and three dimensional but to date standard classical science has relegated them to the dustbin of history s forgotten basement closet Satan has made a tremendous effort since mankind s beginning to keep man blinded to the true historical facts of our heritage causing the deliberate destruction of millions of artifacts scrolls books and their libraries throughout the world to do so This book is but a small effort to expose and make known a portion of mankind s previously hidden but rightful heritage Dawn of Egyptian Art Diana Craig Patch,Marianne Eaton-Krauss,Susan J.
