Egypt's Agricultural Development 1800-1980 Technical And Social Change A Westview Replica Edition:

Egypt's Agricultural Development, 1800-1980 Alan Richards, 2019-04-18 This book uses both microeconomic theory and social and political analysis to show how the interaction of social classes technical change government policy and the international and state systems have shaped Egypt's agricultural development

The Autocratic Parliament Irene Weipert-Fenner, 2020-03-23 When protests erupted in response to the 2010 Egyptian parliament elections that were widely viewed as fraudulent many wondered Why now Voters had never witnessed free and fair elections in the past so why did these elicit such an outcry To answer this question Weipert Fenner conducted the first study of politics in modern Egypt from a parliamentary perspective Contrary to the prevailing opinion that autocratic parliaments are meaningless token institutions Weipert Fenner's long term analysis shows that parliament can be an indicator catalyst and agent of change in an authoritarian regime Comparing parliamentary dynamics over decades Weipert Fenner demonstrates that autocratic parliaments can grow stronger within a given political system They can also become contentious when norms regarding policies political actors and institutions are violated on a large scale and or at a fast pace Most importantly a parliament can even turn against the executive when parliamentary rights are withdrawn or when widely shared norms are violated These and other recurrent patterns of institutional relations identified in *The Autocratic Parliament* help explain long spans of stable yet never stagnant authoritarian rule in colonial and postcolonial periods alike as well as the different types of regime change that Egypt has witnessed those brought about by external intervention by revolution or by military coup
