Eight Bads Eight Goods The American Contradictions:

Eight bads-eight goods Alfred De Grazia, **Donald Trump and the Prospect for American Democracy** Arthur Paulson, 2020-07-06 This book goes beyond examining Donald Trump as a unique and controversial President to place his election in a historical and systematic perspective It offers an analysis of the 2016 presidential nominations and election the economic and demographic foundations of the election of Mr Trump the realignment of the party system ideological polarization in American politics the realities of a postindustrial society locked in a global economy and the outlook for American democracy in the twenty first century **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1976 **Ideologies and Institutions** Richard J. Piper, 1997-05-08 In this important and original book J Richard Piper provides the most comprehensive examination to date of the profound impact of ideological prescriptions on twentieth century American politics Piper analyzes the institutional and constitutional developments associated with the American conservative liberal paradigm from the New Deal to the present focusing on constitutional jurisprudence presidential congressional relations the role of the judiciary federalism and the administrative state Concluding that America's competing constitutional philosophies frequently serve not as ends in themselves but as instruments for attaining power and policy goals Piper raises significant questions about the future of the conservative liberal dichotomy that has characterized American politics since the New Deal Ideologies and Institutions is unique in its focus on institutional prescriptions and its integration and synthesis of extensive history political science and sociology literature Anyone interested in constitutional issues political history and the distinctions between the liberal and conservative philosophies will find Ideologies and Institutions valuable The Uses of Diversity David Ellerman, 2020-05-28 The author argues for the virtues of diversity in cities organizations strategies for development and human discourse in general The opening chapter develops the vision of Jane Jacobs the diva of diversity for the development of city regions Many of the later chapters are based on the author's ten years in the World Bank and Senior Advisor and speechwriter for Joseph Stiglitz Many of the problems in the World Bank's policies were based on a narrow ideological vision that did not tolerate a diversity of pragmatic approaches to the complex questions of economic and social development Finally the narrow social engineering criterion for evaluating social projects is cost benefit analysis and the penultimate chapter develops a logical fallacy in the Kaldor Hicks Principle that is the theoretical basis for cost benefit analysis Making Development Work Nagy Hanna, Robert Picciotto, Worldwide the number of poor people increased during the past decade despite technological improvements more open trade and improved policy frameworks in developing countries Regional conflicts adverse shifts in terms of trade and marginalization of poor countries in the new global economy explain this outcome This highlights the need to reform development assistance and improve its effectiveness Making Development Work examines the four key principles of the Comprehensive Development Framework a World Bank initiative currently being piloted in twelve developing countries The

initiative promotes a holistic long term vision of development domestic ownership of development programs and focus on results and stronger partnership between government the private sector and the civil society The first section of the volume describes the evolution in development thinking that culminated in this new consensus The second focuses on country ownership of development policies and programs Based on empirical evidence it proposes a new view of the aid relationship as a mutual learning process The third section focuses on results and on the ways aid agencies might enhance development impact of their operations It concludes with a preliminary assessment of strategies for scaling up from specific projects to sector and programmatic approaches and suggests ways to adapt them to counter conditions The experience of a bilateral aid agency U S Agency for International Development USAID is examined in this context The fourth section focuses on partnership emphasizing that aid agencies must be explicit about the kinds of partnerships they seek with countries and the kinds of strategic selectivity they will exercise The final chapter pulls together the lessons of development experience at various levels of operation It outlines key tensions between comprehensiveness and selectivity ownership and conditionality speed and broad based ownership focus on results and poor local evaluation capacity and enhanced country focus and globalization Promising approaches to manage these tensions are put forward to replace one size fits all prescriptions with client empowerment and social learning Making Development Work offers rich lessons on improving the effectiveness of aid It will be of particular interest to development practitioners students and professors of development economics studies Nagy Hanna is a lead corporate strategist and evaluation officer at the World Bank He has published extensively on development management and knowledge Robert Picciotto is director general of Operations Evaluation at the World Bank

Rethinking Fiction after the 2007/8 Financial Crisis Mirosław Aleksander

Miernik,2021-03-31 This book provides insight into the impact the 2007-8 financial crisis and subsequent Great Recession had on American fiction. Employing an interdisciplinary approach which combines literary studies with anthropology, economics, sociology, and psychology, the author attempts to gauge the changes that the crisis facilitated in the American novel. Focusing on four books: Elizabeth Strout's *My Name Is Lucy Barton*, Philipp Meyer's *American Rust*, Sophie McManus's *The Unfortunates*, and William Gibson's *The Peripheral*, the study traces how they present such issues as poverty, wealth, equality, distinction, opportunity, and how they relate both to traditional criticisms of consumer culture and the US economy, particularly those issues that have received more attention as a result of the crisis. It also tackles the issue of genre and interpretation in this period, as well as what methods the analyzed novels employ in order to highlight the decreasing social mobility of Americans.
