most detailed and comprehensive examinations ever devoted to a critical transformation in the material substance of the printed page it carries out this exploration in the history of the book moreover by embedding these typographical changes in the context of other cultural phenomena in eighteenth century Britain The gradual abandonment of pervasive capitalization italics and caps and small caps in books printed in London Dublin and the American colonies between 1740 and 1780 is mapped in five year increments which reveal that the appearance of the modern page in English began to emerge around 1765 This descriptive and analytical account focuses on poetry classical texts Shakespeare contemporary plays the novel the Bible the Book of Common Prayer sermons and religious writings newspapers magazines anthologies government publications and private correspondence it also examines the reading public canon formation editorial theory and practice and the role of typography in textual interpretation These changes in printing conventions are then compared to other aspects of cultural change the adoption of the Gregorian calendar in 1752 the publication of Johnson's Dictionary in 1755 the transformation of shop signs and the imposition of house numbers in London beginning in 1762 and the evolution of the English language and of English prose style This study concludes that this fundamental shift in printing conventions was closely tied to a pervasive interest in refinement regularity and standardization in the second half of the century and that it was therefore an important component in the self-conscious process of modernizing British culture publisher's website

The Art of Discrimination Ralph Cohen, 2021-12-29 First published in 1964 The Art of Discrimination is a study in the relation between critical theory and practice taking as its test case James Thomson's The Seasons the poem which was according to Johnson of a new kind Professor Cohen explores the different applications of criticism from 1750 to 1950 analysing specific interpretations of the poem that altered contradicted or supported poetic theory In doing so he introduces new techniques to supplement traditional critical commentary illustrations are treated as interpretations and critical language is related to non-literary as well as literary information In treating the history of critical interpretation the reprinting of editions and past interpretations are considered along with contemporary statements as necessary to define a literary period The book offers alternatives to theories of organicism and to those of the arbitrariness of literary history by defining the kinds of continuities that exist in criticism As analysis of criticism it studies how men think about literature the extent to which such thinking resists systematization and those elements in it which can be controlled and organized and transmitted The book will appeal to students of literature and critical theory
