Ein Historisches Lesebuch:

1914-1945 Werner Pöls,1985 **Deutschland** ,1990 *Deutschland* ,1990 *Thicker Than Water* Leonore

Davidoff,2012 A pioneering new study of nineteenth century kinship and family relations focusing on the British middle class and highlighting both the similarities and the differences in relations between brothers and sisters in the past and in the present Next Year in Marienbad Mirjam Zadoff,2012-10-29 From the last decades of the nineteenth century through the

late 1930s the West Bohemian spa towns of Carlsbad Franzensbad and Marienbad were fashionable destinations for visitors wishing to take a cure to drink the waters bathe in the mud be treated by the latest X ray light or gas therapies or simply enjoy the respite afforded by elegant parks and comfortable lodgings These were sociable and urbane places settings for celebrity sightings match making and stylish promenading Originally the haunt of aristocrats the spa towns came to be the favored summer resorts for the emerging bourgeoisie Among the many who traveled there a very high proportion were

Jewish In Next Year in Marienbad Mirjam Zadoff writes the social and cultural history of Carlsbad Franzensbad and Marienbad as Jewish spaces Secular and religious Jews from diverse national cultural and social backgrounds mingled in idyllic and often apolitical seeming surroundings During the season shops sold Yiddish and Hebrew newspapers kosher kitchens were opened and theatrical presentations concerts and public readings catered to the Jewish clientele Yet these same resorts were situated in a region of growing hostile nationalisms and they were towns that might turn virulently anti Semitic in the off season Next Year in Marienbad draws from memoirs and letters newspapers and maps novels and postcards to create a compelling and engaging portrait of Jewish presence and cultural production in the years between the fin de si cle and the Second World War **Hitler, 1889-1936** Ian Kershaw,1999 This first book of a two volume account of

Hitler s domination of the German people brings readers closer than ever before to the character of the bizarre misfit Photos

"The Words of a Wise Man's Mouth are Gracious" (Qoh 10,12) Mauro Perani,2012-03-20 In this volume of collected papers acknowledged authorities in Jewish Studies mark the milestones in the development of the Jewish religion from ancient times up to the present They also take full account of the interactions between Judaism and its ancient and Christian environment The renowned Viennese scholar G nter Stemberger is honoured with this festschrift on the occasion of his 65th birthday **Captivity in War during the Twentieth Century** Marcel Berni,Tamara Cubito,2021-08-27 This book offers

new international perspectives on captivity in wartime during the twentieth century It explores how global institutions and practices with regard to captives mattered how they evolved and most importantly how they influenced the treatment of captives From the beginning of the twentieth century international organisations neutral nations and other actors with no direct involvement in the respective wars often had to fill in to support civilian as well as military captives and to supervise their treatment This edited volume puts these actors rather than the captives themselves at the centre in order to assess comparatively their contributions to wartime captivity Taking a global approach it shows that transnational bodies whether

non governmental organisations neutral states or individuals played an essential role in dealing with captives in wartime Chapters cover both the largest wars such as the two World Wars but also lesser known conflicts to highlight how captives were placed at the centre of transnational negotiations **The Making of Modern Woman** Lynn Abrams,2016-04-08

Modern woman was made between the French Revolution and the end of the First World War In this time the women of Europe crafted new ideas about their sexuality motherhood the home the politics of femininity and their working roles They faced challenges about what a woman should be and how she should act From domestic ideology to women s suffrage this book charts the contests for woman s identity in the epoch shaping nineteenth century **Gendered Practices of**

Rulership at the Court of Württemberg, 1568-1634 Regine Maritz,2025-08-05 Gender history has alerted us to the fact that it is misleading to assume transhistorical features when it comes to issues such as childbearing mother and fatherhood and gendered systems of labour division Instead all of these are culturally inflected and thus variable across time Gendered Practices of Rulership at the Court of W rttemberg 1568 1634 explores the ways in which socially constructed differences between men and women supported the dynastic practice of power in the early modern duchy of W rttemberg The book investigates three generations of the W rttemberg ducal family from the late sixteenth to the first half of the seventeenth century In five chapters five gendered practices are examined They include the gendering of courtly space of high ceremonial events and of dynastic marriage and concubinage as well as the gendering of kinship practices The history of the W rttemberg dynasty in this period allows for the observation of a range of approaches to the practice of power It is documented by rich archival sources many of which are analysed here for the first time and thus provides opportunities for comparison between different ruling couples Duke Friedrich I rarely saw eye to eye with his wife Duchess Sibylla von Anhalt r 1593 1608 and he engaged in numerous extramarital affairs even seeking to institutionalise concubinage This couple s son Duke Johann Friedrich enjoyed a much more harmonious relationship with his wife Duchess Barbara Sophia von Brandenburg r 1608 1628 with the couple amicably sharing many tasks of rulership The book however does not merely seek to show how individual men women and couples engaged in dynastic rulership through gendered relationships Instead it also seeks to identify the types of gendered work the dynastic system relied on in order to remain functional over a long period of time To do so examples of failed relationships are at least as useful as those of marriages built on common understanding As a result of this methodological shift aspects of life at court emerge that have previously escaped in depth discussion for instance the emotionally cohesive effects of gendered court topography as well as the crucial emotion work dynastic women were expected to perform in their marital relationships and which had wide reaching political consequences Liberalism and the Habsburg Monarchy, 1861-1895 J. Kwan,2013-11-19 Often the liberal movement has been viewed through the lens of its later German nationalism This presents only one facet of a wide ranging all encompassing project to regenerate the Habsburg Monarchy By analysing its various nuances this volume provides a new more positive interpretation of Austro

German liberalism **Hitler and Czechoslovakia in World War II** Patrick Crowhurst,2013-10-24 The invasion of Czechoslovakia by Nazi Germany in March 1939 helped to precipitate Europe's descent into World War II six months later. The move supposedly to protect the Sudeten Germans shocked many in Europe who saw it as a clear statement of intent by Hitler. Here Patrick Crowhurst argues that occupation of the Sudetenland and the Czech lands was also crucial to the Nazi war machine. The armaments factories and raw materials that Hitler seized accelerated Germany's capabilities. Czech tanks would prove crucial in the Ardennes and as the Wehrmacht fought at Stalingrad. Armaments Minister Albert Speer was corraling Czech industrial machinery to produce engines, aircraft and equipment in support. In addition, new Slovakian and Czech primary material are used to give a new in-depth account of the German reaction to the assassination of Reinhardt Heydrich on the streets of Prague in June 1942. The recriminations were brutal and dovetailed with Hitler's plans for the genocide of Czech Jewry. This is a new side of the History of Nazi Europe and argues for the centrality of the Czech occupation in the overall narrative of World War II.

Yugoslavia Without Yugoslavs Božidar Jezernik,2023-07-14 The term Yugoslavia first appeared in an article in the newspaper Slovenija in Ljubljana on Friday October 19 1849. The author of the article declared that he was not interested in politics but only in the literary unification of Yugoslavs within the Austro-Hungary Empire. With ongoing conflicts and disparate forms of nationalism in and around historical Yugoslavia as its backdrop *Yugoslavia without Yugoslavs* for the first time addresses the history and idea of a united Yugoslavia in and during which a true Yugoslav identity never really came into being. Following a series of wars and uprisings from 1875 onwards the first nation state of Southern Slavs established after World War I became the Kingdom of Serbs, Croats and Slovenes, a competing nationalistic blender that would go through failure, revival and transformation of the concept of Yugoslavia.

The German Melting Pot W. Zank,1998-08-10 From medieval times until today Germany has been a cocktail of very different peoples and cultural groups. The components of the cocktail have changed but not Germany's character as such. The many cultural divides have often led to conflict, once even to genocide but surprisingly often cooperation or at least peaceful coexistence has been the characteristic feature. Against the background of a graphic historical survey the author analyzes the factors which have made cooperation possible or conversely have produced conflicts.

Czechs, Germans, Jews? Kateřina Čapková,2012-05-01 The phenomenon of national identities always a key issue in the modern history of Bohemian Jewry was particularly complex because of the marginal differences that existed between the available choices. Considerable overlap was evident in the programs of the various national movements and it was possible to change one's national identity or even to opt for more than one such identity without necessarily experiencing any far-reaching consequences in everyday life. Based on many hitherto unknown archival sources from the Czech Republic, Israel and Austria the author's research reveals the inner dynamic of each of the national movements and maps out the three most important constructions of national identity within Bohemian Jewry: the German Jewish, the Czech Jewish and the Zionist. This book provides a needed framework for

understanding the rich history of German and Czech Jewish politics and culture in Bohemia and is a notable contribution to the historiography of Bohemian Czechoslovak and central European Jewry *Critical Theory and the Novel* David Bruce Suchoff, 1994 A study of the historical origins of cultural criticism in the novel since the mid 19th century using the critical theory of the Frankfurt School to declare the critical force of mass culture as crucial to the making of the modern novel Discusses how mass audiences and politics presented problems to major novelists and how they responded in their writings and lives Paper edition unseen 19 95 Annotation copyright by Book News Inc Portland OR **Logic's Lost Genius** Eckart Menzler-Trott, 2016-05-05 Gerhard Gentzen 1909 1945 is the founder of modern structural proof theory His lasting methods rules and structures resulted not only in the technical mathematical discipline called proof theory but also in verification programs that are essential in computer science The appearance clarity and elegance of Gentzen s work on natural deduction the sequent calculus and ordinal proof theory continue to be impressive even today The present book gives the first comprehensive detailed accurate scientific biography expounding the life and work of Gerhard Gentzen one of our greatest logicians until his arrest and death in Prague in 1945 Particular emphasis in the book is put on the conditions of scientific research in this case mathematical logic in National Socialist Germany the ideological fight for German logic and their mutual protagonists Numerous hitherto unpublished sources family documents archival material interviews and letters as well as Gentzen s lectures for the mathematical public make this book an indispensable source of information on this important mathematician his work and his time The volume is completed by two deep substantial essays by Jan von Plato and Craig Smory ski on Gentzen s proof theory its relation to the ideas of Hilbert Brouwer Weyl and G del and its development up to the present day Smory ski explains the Hilbert program in more than the usual slogan form and shows why consistency is important Von Plato shows in detail the benefits of Gentzen s program This important book is a self contained starting point for any work on Gentzen and his logic The book is accessible to a wide audience with different backgrounds and is suitable for general readers researchers students and teachers **A Companion to Nazi Germany** Shelley Baranowski, Armin Nolzen, Claus-Christian W. Szejnmann, 2018-06-18 A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich s rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical insight from the Nazi Party s emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era s lasting legacy this book offers an in depth

examination of modern history's most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research and home life amidst the Third Reich's ideological imperatives Describes how the Third Reich affected business the economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today's political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world

A History of Public Law in Germany, 1914-1945 Michael Stolleis, 2004 This history of the discipline of public law in Germany covers three dramatic decades of the Twentieth century It opens with the First World War analyses the highly creative years of the Weimar Republic and recounts the decline of German public law that began in 1933 and extended to the downfall of the Third Reich Stolleis examines the dialectic of scholarship and politics against the background of long term developments in industrial societies the rise of the interventionist state the shift of state law and administrative law theory and the emergence of new disciplines tax law social law labour law business administration law Almost all of the issues and questions that preoccupy state law and administrative law theory at the dawn of the twenty first century were first pondered and debated during this period Readership Academics and post graduate advanced students of German history or German law and public law scholars and Links to web resources and related information More in the same subject area Legal history Laws of other jurisdictions and European history First World War European history Second World War European history from c 1900 Germany The specification in this catalogue including without limitation price format extent number of illustrations and month of publication was as accurate as possible at the time the catalogue was compiled Occasionally due to the nature of some contractual restrictions we are unable to ship a specific product to a particular territory Jacket images are provisional and liable to change before publication

When people should go to the books stores, search instigation by shop, shelf by shelf, it is in fact problematic. This is why we give the ebook compilations in this website. It will extremely ease you to see guide **Ein Historisches Lesebuch** as you such as.

By searching the title, publisher, or authors of guide you essentially want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best place within net connections. If you want to download and install the Ein Historisches Lesebuch, it is completely simple then, since currently we extend the colleague to buy and create bargains to download and install Ein Historisches Lesebuch correspondingly simple!
