Edward Everett Orator And Statesman:

Edward Everett, Orator and Statesman Paul Revere Frothingham, 1925 *Edward Everett* Paul Revere Frothingham, 2013-10 This is a new release of the original 1925 edition *Edward Everett, Orator and Statesman* /by Paul Revere Frothingham ; with Illustrations Paul Revere Frothingham, 1971 **Gettysburg Oration** Edward Everett, 2021-04-11 Edward Everett's Gettysburg Oration serves as a poignant reflection on the human cost of the American Civil War delivered on November 19 1863 This eloquent speech marked by its rhetorical grandeur engages with themes of sacrifice unity and national identity Everett's literary style blends classical allusions with passionate appeals expertly contextualizing the significance of the Battle of Gettysburg within the broader narrative of American democracy His oration often overshadowed by Lincoln's brief yet profound Gettysburg Address employs a structured argument encouraging listeners to contemplate the future implications of the sacrifices borne on the battlefield As a prominent politician historian and orator of his time Edward Everett was deeply entrenched in the intellectual and cultural currents of 19th century America His experiences including serving as a U S senator and governor of Massachusetts informed his understanding of the national landscape Moreover his background in classic studies and public speaking cultivated a unique voice that resonated with his audience allowing him to articulate the gravity of the moment and the enduring ideals of liberty and nationalism I highly recommend Gettysburg Oration to those interested in the complexities of American history and rhetoric Everett's eloquence not only illuminates the values of his era but also beckons contemporary readers to reflect on the lessons of sacrifice and unity that remain relevant today This text is essential for anyone wishing to explore the enduring power of oratory in shaping history *Edward Everett!!* W. E. Demill, 1859 *Dissenting Voices in America's Rise to Power* David Mayers, 2007-02-15 This book offers a major rereading of US foreign policy from Thomas Jefferson's purchase of Louisiana expanse to the Korean War This period of one hundred and fifty years saw the expansion of the United States from fragile republic to transcontinental giant David Mayers explores the dissenting voices which accompanied this dramatic ascent focusing on dissenters within the political and military establishment and on the recurrent patterns of dissent that have transcended particular policies and crises The most stubborn of these sprang from anxiety over the material and political costs of empire while other strands of dissent have been rooted in ideas of exigent justice realpolitik and moral duties existing beyond borders Such dissent is evident again in the contemporary world when the US occupies the position of preeminent global power Professor Mayers's study reminds us that America's path to power was not as straightforward as it might now seem *A Critical Study of the Oratory of Edward Everett* Ronald Forrest Reid, 1954 **American and Muslim Worlds before 1900** John Ghazvinian, Arthur Mitchell Fraas, 2020-02-06 American and Muslim Worlds before 1900 challenges the prevailing assumption that when we talk about American and Muslim worlds we are talking about two conflicting entities that came into contact with each other in the 20th century Instead this book shows there is a long and deep seam of history between the two which provides an important

context for contemporary events and is also important in its own right Some of the earliest American Muslims were the African slaves working in the plantations of the Carolinas and Latin America Thomas Jefferson a slaveholder himself was frequently called an infidel and suspected of hidden Muslim sympathies by his opponents Whether it was the sale of American commodities in Central Asia Ottoman consuls in Washington orientalist themes in American fiction the uprisings of enslaved Muslims in Brazil or the travels of American missionaries in the Middle East there was no shortage of opportunities for Muslims and inhabitants of the Americas to meet interact and shape one another from an early period

The Gettysburg Gospel Gabor Boritt, 2008-02-05 Describes the events surrounding Abraham Lincoln's historic speech following the Battle of Gettysburg in July 1863 how he responded to the politics of the time and the importance of that speech *Mind and Hand* Julius Adams Stratton, Loretta H. Mannix, 2005 The intellectual heritage of MIT an account of the flow of ideas about science and education that shaped the Institute as it emerged and that inspires it today The motto on the seal of the Massachusetts Institute of Technology *Mens et Manus* mind and hand signals the Institute's dedication to what MIT founder William Barton Rogers called the most earnest cooperation of intelligent culture with industrial pursuits *Mind and Hand* traces the ideas about science and education that have shaped MIT and defined its mission from the new science of the Enlightenment era and the ideals of representative democracy spurred by the Industrial Revolution to new theories on the nature and role of higher education in nineteenth century America MIT emerged in mid century as an experiment in scientific and technical education with its origins in the tension between these old and new ideas *Mind and Hand* was undertaken by Julius Stratton after his retirement from the presidency of MIT and continued by Loretta Mannix after his death Philip N Alexander of the MIT Program in Writing and Humanistic Studies stepped in to complete the project The combined efforts of these three authors have given us what Julius Stratton envisioned a coherent account of the flow of ideas from which MIT emerged *The Unitarian Register*, 1925 [The American Normal School](#) Vernon Lamar Mangun, 1928 **Mastering America** Robert E. Bonner, 2009-04-27 *Mastering America* recounts efforts of proslavery nationalists to navigate the nineteenth century geopolitics of imperialism federalism and nationalism and to articulate themes of American mission in overtly proslavery terms At the heart of this study are spokesmen of the Southern Master Class who crafted a vision of American destiny that put chattel slavery at its center Looking beyond previous studies of the links between these proslavery nationalists and secession the book sheds new light on the relationship between the conservative Unionism of the 1850s and the key formulations of Confederate nationalism that arose during war in the 1860s Bonner's innovative research charts the crucial role these men and women played in the development of American imperialism constitutionalism evangelicalism and popular patriotism **Christian Register and Boston Observer**, 1925 [The Early Republic and Antebellum America: An Encyclopedia of Social, Political, Cultural, and Economic History](#) Christopher G. Bates, 2015-04-08 First Published in 2015 This text holds four volumes of essays and entries on the early Republic and Antebellum era in America spanning the end of

the American Revolution in 1781 to the outbreak of Civil War in 1861 The Americans forged a new government in theory and then in practice with the beginnings of industrialisation and the effects of urbanisation widespread poverty labour strife debates around slavery and sectional discord By the end of the nineteenth century American had a powerhouse economy new technologies and the emergence of major social reform movements creation of uniquely American art and literature and the conquest of the West This encyclopaedia offers a historic reference

Ballot Battles Edward B. Foley,2024-05-10 Perhaps the truest test of a nation s ability to govern itself democratically is its ability to count ballots fairly and accurately in competitive high stakes elections Yet from the founding on America s adherence to this ideal has been distinctly uneven Edward Foley s *Ballot Battles* is a sweeping synthesis of the subject tracing how election controversies evolved over time from the 1780s to the present

Sealed with Blood Sarah J. Purcell,2010-08-03 The first martyr to the cause of American liberty was Major General Joseph Warren a well known political orator physician and president of the Provincial Congress of Massachusetts Shot in the face at close range at Bunker Hill Warren was at once transformed into a national hero with his story appearing throughout the colonies in newspapers songs pamphlets sermons and even theater productions His death though shockingly violent was not unlike tens of thousands of others but his sacrifice came to mean something much more significant to the American public *Sealed with Blood* reveals how public memories and commemorations of Revolutionary War heroes such as those for Warren helped Americans form a common bond and create a new national identity Drawing from extensive research on civic celebrations and commemorative literature in the half century that followed the War for Independence Sarah Purcell shows how people invoked memories of their participation in and sacrifices during the war when they wanted to shore up their political interests make money argue for racial equality solidify their class status or protect their personal reputations Images were also used especially those of martyred officers as examples of glory and sacrifice for the sake of American political principles By the midnineteenth

century African Americans women and especially poor white veterans used memories of the Revolutionary War to articulate their own more inclusive visions of the American nation and to try to enhance their social and political status Black slaves made explicit the connection between military service and claims to freedom from bondage Between 1775 and 1825 the very idea of the American nation itself was also democratized as the role of the people in keeping the sacred memory of the Revolutionary War broadened
