The Early Career Framework: Origins, outcomes and opportunities Tanya Ovenden-Hope,2022-02-28 Teacher quality is widely reputed to be the key determinant of educational success for students

Teachers at the beginning of their career need support and guidance in providing a sustained high quality experience for their learners. The role of continuing professional development (CPD) is crucial in honing and refining the knowledge, understanding and skills of teachers. Effective CPD can also provide teachers with the self-efficacy needed, particularly when they start teaching, to stay in the profession. With teacher shortages reported across the globe and up to one third of teachers in England leaving the profession by their fifth year in teaching, CPD is an attractive solution to retain teachers. The Department for Education have established a mandatory CPD framework for all early career teachers (ECTs) teaching in schools in England. The Early Career Framework (ECF). Tanya Ovenden Hope, Editor, brings together insights from those most closely connected to the ECF: the training providers, school leaders and academics involved in understanding the efficacy of professional development and learning in schools. Ovenden Hope offers an historical record of the ECF, showing where it came from, what it offers now for schools and early career teachers (ECTs), and the challenges and opportunities for development in the future.
