The God in Us Hlumelo Biko, 2024-06-07 This book traces the unitary source of all of the world's major religions. The book underscores the fact that there are many ways in which humanity has sought revelation of God yet there is a common inspiration behind humanity's God concept. The author's analysis of world religions or faiths adopts a multi interdisciplinary approach taking the reader through historical anthropological archaeological and theological viewpoints to make juxtapositions. *God in us* is a rich resource that helps the readers understand the origins of human civilisation and how humans began to worship God domesticate animals like sheep invent astrology and create languages. L'ancien et le Nouveau Paulin Hountondji, 2024-11-29 Comment s'articulent en Afrique dans le domaine du savoir et du savoir faire 1 ancien et le nouveau. Que savions nous hier et que savons nous aujourd'hui. Quelle tait hier quelle est aujourd'hui la part du mythe dans ce que nous croyons savoir. Et comment d finir dans chaque cas le noyau dur des connaissances solides et universellement valables. Quels droits et quels devoirs nous reconnaissons nous en tant qu tres humains en tant que femmes en tant qu enfants en tant que peuples ou nations et quelle conscience avons nous aujourd'hui de ces droits et devoirs. Quel est l impact de ce qu on appelle aujourd'hui la mondialisation sur l evolution du savoir du savoir faire et de cette conscience des droits et devoirs. A ces questions et a d autres qui y sont liees le present ouvrage apporte quelques l ments de r ponse. C est le r sultat d un colloque tenu Cotonou en octobre 2006 sur le th me Savoirs traditionnels et science moderne. Il est d di la m moire de Georg Elwert africaniste allemand disparu en 2005 dont les travaux sur le Benin l Afrique et le Tiers Monde restent une source d inspiration pour beaucoup. How are the old and the new expressed in the field of knowledge and know how. What did we know yesterday and what do we know today. What was yesterday and what is today the mythical part in what we believe we know. And how do we define in each case the core of concrete and universally valid knowledges. What rights and duties do we acclaim as human beings as women as children as peoples or nations and what understanding do we today have of these rights and duties. What is the impact of what we today

call globalisation on the evolution of knowledge know how and the awareness of such rights and duties To these questions and to other related ones this book provides some answers It is the result of a conference held in Cotonou in October 2006 on the theme Traditional knowledges and modern science It is dedicated to the memory of Georg Elwert a German Africanist who passed away in 2005 and whose work on Benin Africa and the Third World remains a source of inspiration for many

Vodou in the Haitian Experience Celucien L. Joseph,Nixon S. Cleophas,2016-05-05 One glaring lacuna in studies of Haitian Vodou is the scarcity of works exploring the connection between the religion and its main roots traditional Yoruba religion Discussions of Vodou very often seem to present the religion in vacuo as a sui generis phenomenon that arose in Saint Domingue and evolved in Haiti with no antecedents What is

sorely needed then is more comparative studies of Haitian Vodou that would examine its connections to traditional Yoruba religion and thus illuminate certain aspects of its mythology belief system practices and rituals This book seeks to bridge these gaps Vodou in the Haitian Experience studies comparatively the connections and relationships between Vodou and African traditional religions such as Yoruba religion and Egyptian religion Such studies might enhance our understanding of the religion and the connections between Africa and its Diaspora through shared religious patterns and practices The general reader should be mindful of the transnational and transcultural perspectives of Vodou as well as the cultural socio economic and political context which gave birth to different visions and ideas of Vodou The chapters in this collection tell a story about the dynamics of the Vodou faith and the rich ways Vodou has molded the Haitian narrative and psyche The contributors of this book examine this constructed narrative from a multicultural voice that engages critically the discipline of ethnomusicology drama performance art anthropology ethnography economics literature intellectual history philosophy psychology sociology religion and theology Vodou is also studied from multiple theoretical approaches including queer feminist theory critical race theory Marxism postcolonial criticism postmodernism and psychoanalysis
