Contemporary Art and the Display of Ancient Egypt Alice Stevenson, 2025-01-16 Artistic interventions are now a popular means of delivering fresh perspectives on museum displays including in galleries devoted to ancient Egypt Installations are commonly said to put the past and present into dialogue with each other offering external critical voices on the work of decolonisation Contemporary Art and the Display of Ancient Egypt argues that the contemporary and the ancient do not necessarily inform each other Instead they are mediated by and mediations of the museum that produces them Rather than explore how contemporary artists have been inspired by Egypt this book examines how they have shaped the language and discourse around study of the Egyptian past by looking at the wider field of public display in which both have been historically situated Building on this critical history of practice the book draws from experiments in bringing contemporary artistic sculptures conceptual pieces multimedia films sounds smells and performances into galleries at the British Museum in London the Egyptian Museum in Turin and the State Museum of Egyptian Art in Munich These are used to explore what contemporary art does in these spaces the motivations for inviting artists in and the legacies of those interventions It ends with a reflection on how academics and curators can be involved in the creative process and how artists contribute to academic research Praise for Contemporary Art and the Display of Ancient Egypt This is an important and innovative study on the recent history of incorporating art installations in galleries of Egyptian antiquities Offering a thoughtful critical analysis of the ways in which contemporary art and ancient artefacts are juxtaposed in museum settings the book calls for a more nuanced and politically engaged practice of collaboration between artists and Egyptologists Stephanie Moser University of Southampton Archaeologist Alice Stevenson provides a thoughtful consideration of the goals and intent behind contemporary art interventions in exhibitions of ancient Egyptian art She challenges the curators scholars and museum professionals who design these exhibitions to move beyond the simplistic ancient art contemporary art juxtaposition and instead use contemporary art interventions to create spaces for both artistic and academic insight and inspiration I look forward to such dialogue Kara Cooney UCLA *Egyptian Art* Jean Capart, 1923 *Egyptian Art* Vagn Poulsen, 1968

Proportion and Style in Ancient Egyptian Art Gay Robins, 2010-07-05 This study of ancient Egyptian art reveals the evolution of aesthetic approaches to proportion and style through the ages The painted and relief cut walls of ancient Egyptian tombs and temples record an amazing continuity of customs and beliefs over nearly 3 000 years Even the artistic style of the scenes seems unchanging but this appearance is deceptive In this work Gay Robins offers convincing evidence based on a study of Egyptian usage of grid systems and proportions that innovation and stylistic variation played a significant role in ancient Egyptian art Robins thoroughly explores the squared grid systems used by the ancient artists to proportion standing sitting and kneeling human figures This investigation yields the first chronological account of proportional variations in male and female figures from the Early Dynastic to the Ptolemaic periods Robins discusses the proportional changes underlying the revolutionary style instituted during the Amarna Period She also considers how the grid system

When the Pyramids Were Built: Egyptian Art of the Old Kingdom , Modern Perspectives in Western Art History W. Eugene Kleinbauer,Medieval Academy of America,1989-01-01 A collection of essays that reflect the breadth of twentieth century scholarship in art history Kleinbauer has sought to illustrate the variety of methods scholars have developed for conveying the unfolding of the arts in the Western world Originally published by Holt Rinehart and Winston 1971 *The Akhenaten Colossi of Karnak* Lise Manniche,2010-05-01 Some of the most fascinating sculptures to have survived from ancient Egypt are the colossal statues of Akhenaten erected at the beginning of his reign in his new temple to the Aten at Karnak Fragments of more than thirty statues are now known showing the paradoxical features combining male and female young and aged characteristic of representations of this king Did he look like this in real life Or was his iconography skilfully devised to mirror his concept of his role in the universe The author presents the history of the discovery of the statue fragments from 1925 to the present day the profusion of opinions on the appearance of the king and
