no accident but rather the result of a long history of Europeans systematically retelling the religion of ancient Egypt to fit the framework of Christianity The idea of ancient Egyptians believing in postmortem judgment with rewards and punishments in the afterlife was developed during the early modern period through biased interpretations that were construed without any detailed knowledge of ancient Egyptian religion hieroglyphs and sources As a growing number of Egyptian images and texts became available through the nineteenth century these materials tended to be incorporated into existing narratives rather than being used to question them Against this historical background Nyord argues that we need to return to the indigenous sources and shake off the Christian expectations that continue to shape scholarly and popular thinking about the ancient Egyptian afterlife

Samuel Sharpe,1896 *Egyptian Mythology and Egyptian Christianity* Samuel Sharpe,2018-01-19 Excerpt from Egyptian Mythology and Egyptian Christianity With Their Influence on the Opinions of Modern Christendom The study Of error is Often only a little less important than the study of truth The history of the human mind in its progress from ignorance towards knowledge Should tell us the mistakes into which it has sometimes wandered as well as its steps in the right path We turn indeed with more pleasure to review the sources from which the world has gained any Of its valuable truths in the hope of there finding some further knowledge which may be equally valuable while for our errors so long as we are unwilling to acknowledge them to be errors we too Often shut our eyes and refuse to be shewn their origin The Emperor Marcus Antoninus in his philosophical work mentions the several tutors and friends from whom he gained his good habits and those views of life which he chie y valued but though we must suppose that he was aware Of some failings in his character he does not tell us to which of his companions he owed them And so it is with the benefits of civilization arts and religion and also with the evils Of superstition Modern Europe readily acknowledges how many benefits it received from Rome from Greece and from J udea but has been willing to forget how much Of its superstition came from Egypt About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
