BURKE,2025-05-22 Present Discontents is a seminal work by Edmund Burke a towering figure in British political thought Written during a period of intense political turmoil in both Britain and France this essay offers a profound analysis of the nature of political representation the dangers of factionalism and the importance of maintaining a stable and balanced constitution Burke s insights into the complexities of governance and the potential pitfalls of radical change remain remarkably relevant today This edition allows a new generation of readers to engage with Burke s enduring wisdom and to consider its implications for contemporary political challenges This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Thoughts on the Present Discontents* Edmund Burke,2020-04-22 It is an undertaking of some degree of

delicacy to examine into the cause of public disorders If a man happens not to succeed in such an inquiry he will be thought weak and visionary if he touches the true grievance there is a danger that he may come near to persons of weight and consequence who will rather be exasperated at the discovery of their errors than thankful for the occasion of correcting them If he should be obliged to blame the favourites of the people he will be considered as the tool of power if he censures those in power he will be looked on as an instrument of faction But in all exertions of duty something is to be hazarded In cases of tumult and disorder our law has invested every man in some sort with the authority of a magistrate When the affairs of the nation are distracted private people are by the spirit of that law justified in stepping a little out of their ordinary sphere They enjoy a privilege of somewhat more dignity and effect than that of idle lamentation over the calamities of their country They may look into them narrowly they may reason upon them liberally and if they should be so fortunate as to discover the true source of the mischief and to suggest any probable method of removing it though they may displease the rulers for the day they are certainly of service to the cause of Government Government is deeply interested in everything which even through the medium of some temporary uneasiness may tend finally to compose the minds of the subjects and to conciliate their affections I have nothing to do here with the abstract value of the voice of the people But as long as reputation the most precious possession of every individual and as long as opinion the great support of the State depend entirely upon that voice it can never be considered as a thing of little consequence either to individuals or to Government Nations are not primarily ruled by laws less by violence Whatever original energy may be supposed either in force or regulation the operation of both is in truth merely instrumental Nations are governed by the same methods and on the same principles by which an individual without authority is often able to govern those who are his equals or his superiors by a knowledge of their temper and by a judicious management of it I mean when public affairs are steadily and quietly conducted not when Government is nothing but a continued scuffle between the magistrate and the multitude in which sometimes the one and sometimes the other is uppermost in which they alternately yield and prevail in a series of contemptible victories and scandalous submissions The temper of the people amongst whom he presides ought therefore to be the first study of a statesman And the knowledge of this temper it is by no means impossible for him to attain if he has not an interest in being ignorant of what it is his duty to learn
