*International Research, Policy and Practice in Teacher Education* Jean Murray, Anja Swennen, Clare Kosnik, 2018-12-17 This unique book is an important source of information for all of those who educate future teachers and those who participate in teacher education as students researchers educators and policymakers The volume also contributes to the international development of higher quality and research led teacher education provision by providing clear evidence of policy impact It draws on original research studies conducted across eight countries in North America Europe and Australia to analyse the impact of teacher education policy initiatives on insiders in the fields including education students teacher educators and mentors in schools In achieving this the various chapters in the book analyse the commonalities and differentiations in the many policy reforms in teacher education currently being implemented by national governments The book reveals some of the hidden consequences of these recent reform efforts It is also of use for leaders and policy makers in teacher education providing them with insider perspectives from both theory and practice and making it possible for them to develop research informed decisions that take into account the voices of insiders Few texts have considered international policy trends alongside the impact they have had on significant stakeholder groups inside teacher education In redressing this omission the book contributes to a better understanding of and improved practice of work in teacher education both pre and in service

*Education Policy, Practice and the Professional* Jane Bates, Sue Lewis, Andy Pickard, 2019-03-21 In this introduction to educational policy practice and professionalism the authors focus first on providing an historical overview of English policy from the state s first interventions in education through to Thatcherism and the election of the Blair government Chapters then explore the key contemporary policies of recent times and offer a critique on how they have worked in practice with reference the hysteria that often surrounds education policy An important theme is media representation of educational matters and the effects this has on the teaching profession Commentaries and case studies are presented throughout providing an accessible link to what it was really like to learn teach and live at the time the policy was in place This new

edition now includes an account of the measures taken by the Coalition Government of 2010 15 examining the Coalition's continuities with the previous administration whilst also exploring departures from previous thinking and practices updated references and case studies throughout to represent new research and legislation since the first edition an extended discussion of globalization and global policy borrowing further coverage of social justice theory including a perspective on identity theory and the role of education in the development of identity and the marginalisation of individuals and groups a new historical chapter covering the period 1945 to 1997 a summary of the development of the curriculum and a critique of the 2014 National curriculum as pioneered by Michael Gove and a new conclusion setting out the trajectory of current policies and how this may affect educational practitioners This is essential reading for all undergraduate students studying education policy and practice

**School Effectiveness and Improvement Research, Policy and Practice** Christopher Chapman, Paul Armstrong, Alma Harris, Daniel Muijs, David Reynolds, Pam Sammons, 2012-03-12 This book provides a contemporary overview of school effectiveness and improvement It charts the development theory and research in this area and looks at the contribution made to policy and practice It also challenges some assumptions that have become ingrained into the theoretical and methodological traditions of the field By challenging these orthodoxies it provides a framework that sets a new agenda and repositions the field to meet the emerging challenges of the twenty first century It argues that traditional measures of school effectiveness are challenged as systems have attempted to adapt to a complex range of emerging agendas New theoretical perspectives are required which consider education and a broader set of outcomes This shift requires a rethink of how effectiveness and improvement have been understood by the field and a reconstruction by policy makers and practitioners Attention must be given to promoting equity as well as effectiveness so that one school or student's gain no longer means another's loss The field must develop new methodologies if inequities are to be challenged and a broader set of outcome measures are to be developed The two questions guiding this book are How can educational effectiveness and improvement research and practice support the development of a more equitable education service What are the key indicators of educational effectiveness and improvement and what are the new methodologies required to facilitate a shift from school effectiveness and improvement to educational effectiveness and improvement This book uses lenses of research policy and practice to explore these key questions and articulate what such a repositioning may look like and how it may be achieved It will prove invaluable for teachers school leaders and anyone involved in policy and educational research
