Persisting Challenges of Racism in Contemporary Society Hendricks, LaVelle, Smith, Dimitra, Stewart, Delarious, Barner, Faye, 2025-08-06 In contemporary society racism is not only an individual attitude but also embedded in systems such as education healthcare and criminal justice leading to disparities in access and outcomes The rise of social movements has highlighted these issues advocating for equity and justice while challenging ingrained prejudices Additionally the intersectionality of racism with other forms of discrimination such as sexism and classism complicates the experiences of individuals necessitating a nuanced understanding of identity and oppression Addressing racism requires collective efforts that include education policy reform and community engagement to dismantle oppressive structures and promote inclusivity As society grapples with these challenges ongoing dialogue and action are essential to foster a more equitable future Persisting Challenges of Racism in Contemporary Society critically examines the nature of racism in contemporary society despite advancements in social justice and equity It

illuminates the historical roots and systemic structures that sustain racial inequalities while amplifying the voices of those directly impacted by racism Covering topics such as economic inequality intersectionality and racial justice this book is an excellent resource for college and university administrators DEI officers faculty members graduate students policymakers researchers academicians and more Education-literature of the Profession ,1966 Comparative Methods in Psychology M. H. Bornstein,2014-01-14 First published in 1980 Psychology is today increasingly diversified sophisticated pluralistic and specialized and psychologists venture beyond the confines of their narrow subdiscipline only rarely Yet psychologists with different specialties encounter similar problems ask similar questions and share similar concerns Unfortunately there are far too few forums for the expression or exploration of what is common in psychology The series Crosscurrents in Contemporary Psychology is intended to serve as such a forum The purpose of this volume Comparative Methods in Psychology is to make available to the psychological community thoughtful essays that examine the history philosophy theory methodology and experimentation representative of major comparative methods The chapters in this collection are intended to introduce students of psychology to specialized modes of comparison from the perspectives of prominent contributors and to promote mutual discussion among comparativists of issues and concerns common to all types of comparison **Studies in Comparative Education** United States. Office of Education,1954 1955 Education in Viet Nam by D C Laverigne and Abul H K Sassani 1957 Supplement Higher education 1957 Guide for the evaluation of academic credentials from the Latin American republics by Adela R Freeburger 1965 The development of education in Nepal by Hugh Bernard Wood Critical Issues in South African Education Charl C. Wolhuter,2020-12-31 The main thesis of this book is that given that South African education faces major challenges the BRICS Brazil Russia India China and South Africa constellation of states offers thus far overlooked a valuable tertium comparationis a source of international comparative perspectives to inform the domestic scholarly discourse on education This book first investigates the national contexts and development of education in the BRICS countries arguing that this grouping represents a valuable but yet overlooked field for illuminating South African education issues with international perspectives The book consists of chapters arguing for and illustrating this thesis from a variety of angles Common to all chapters is that authors used the comparative method in education that is comparing the national education system in their education societal context interrelationships of the BRICS countries The chapters focus on a number of critical issues in South African education including the language of learning and teaching issue the alignment of the world of education with the world of work early childhood education and the development of world class universities Regarding the last for example China has been the terrain of the most intensive national projects of establishing world class universities with Project 985 Project 211 and the Double First Class University project The chapters demonstrate what South Africa in approaching her education issues can learn from the experience of the BRICS countries **Utilization, Misuse, and Development of Human Resources in the Early West Indian Colonies** M.K. Bacchus,2006-01-01 This

comprehensive study of the development of education in the West Indies between 1492 and 1854 examines the shifts which occurred within the nature of the education programs provided for the masses. Believing existing theories of educational change are too limiting, Bacchus has blended detailed analysis of such important factors as the changing role of the state, the conflicting educational objectives among the dominant groups and their differences with the missionary societies providing popular education to better understand how these changes came about. He attributes greater importance to the role of the masses who increasingly asserted their views about the type of education they wanted for their children. The book demonstrates how instructional programs developed in the West Indies not as the result of a rational curriculum development process but rather through a series of compromises made to accommodate the views of various influential groups. Education and curriculum evolved by way of a slow yet constant changing dialectical process. Such an insightful work will arouse the interest of scholars and students of educational development, particularly those studying the West Indies.

Knowledge Hierarchies in Transnational Education Jing Qi, 2015-04-24. Transnational education seeks equivalence in standards and/or relevance of outcomes through the transfer of Western theories, concepts, and methods. Utilising a critique/interpretative approach, Jing Qi argues that equivalence/relevance-oriented approaches to transnational education assume the legitimacy of the global knowledge hierarchy. Euro-American educational theories are imposed as defaults in non-Western educational communities of imagined consensus. Grounded in a study of a five-year transnational teacher education and community capacity building program in Northern Chile, the book investigates the relationships between theoretical knowledge, knowledge hierarchies, and critique. Transnational education communities are recognised as sites of critiques where conflictual and conceptual dissensus disrupts global and local knowledge hierarchies. Critique is deployed by educational actors in their everyday engagement in transnational education to stage dissensus which constantly re-draws the lines of possibility for knowledge co-construction. A matrix mapping system is designed to chart and theorise the Chilean educational actors' critiques along the trail of concept translation, learning application, and innovation of knowledge hierarchies which operate at and across global, transnational, local, and the newly created local/global levels. This book examines how these critiques modulate the ascendancy of knowledge hierarchies to enfranchise non-Western educational actors for theoretical knowledge production that addresses local needs. *Knowledge Hierarchies in Transnational Education* will be of key value to researchers, academics, and postgraduate students in the fields of international education, teacher education, and globalisation. **Bulletin**, 1965. *The Christian in Contemporary Nigerian Society* Musa Adziba Mambula, 2016-12-21. This book exposes the overwhelming arrays of challenges that Christians face in the 21st century Nigeria. The purpose of this book is to consider these challenges and suggest means of meeting them. In this book, Christians are charged with living in such a manner as to contribute to the health and strength of their society. The book examines the extent to which the family depends upon the Church and its ministry for guidance and support in creating a healthy and

moral atmosphere in the home This book explains how the theological training of Pastors plays a significant role in society Together families and Pastors leaders from every facet of life could be joined together in the mission to create a healthy society The book sees religious violence in Nigeria with emphasis on conflict resolution The church has a responsibility to lead the nation in presenting peaceful resolutions to all forms of violence whether in the home the community or nationally Following closely on the issue of religious violence is that of corruption at all levels from personal to political Lastly the physical health of the individual and community is of vital interest to all This book considers and examines the role of the Christian in Contemporary Nigerian Society with a view to taking responsibility in meeting the challenges and contributing to the solutions This book reminds the Christian that he or she is not alone he or she is but one part in the overall picture of a nation struggling to take its place in the 21st century world

Education and society: New approaches for new challenges Genaro Zavala,Jorge Membrillo-Hernández,Andres Eduardo Gutierrez Rodriguez,2023-11-02 Special Religious Education in Australia and its Value to Contemporary Society Zehavit Gross,Suzanne D. Rutland,2021-02-22 This book explores the advantages of and challenges concerning Special Religious Education SRE in multicultural Australia and argues for the need for General Religious Education GRE as well Through the lens of the most recent scholarship and drawing on an in depth qualitative study and specific case studies the book examines the current debate on the role of religious education within government schools It addresses key concepts of values education spirituality health and wellbeing and cultural and religious identity It analyses why it is important to retain SRE together with GRE as government policy It explores highly relevant controversial and contested issues regarding SRE including the 30% of Australia s population who declare themselves as having no religion and brings fresh insights to the table While secularization has increased in both the national and international spheres there has also been an increase in fundamentalism within religious beliefs Events such as the September 11 terror attacks and the more recent mass shootings by white supremacists and eco fascists in Christchurch New Zealand and Pittsburgh and San Diego in the USA are reminders that religion is still a major actor in the twenty first century This poses new challenges for the relationship between church and state and demonstrates the need to revisit the role of religious education within government schools While the importance of GRE is generally acknowledged SRE has increasingly come under attack by some researchers and teacher and parent bodies as being inappropriate and contradictory to the values of the postmodern world On the other hand the key stakeholders from all the faith traditions in Australia wish to retain the SRE classes in government schools The book addresses this burning issue and shows that it is relevant not only for Australia but also globally

Social Justice Education Kathleen Skubikowski,Catharine Wright,Roman Graf,2023-07-14 This book addresses the combination of pedagogical curricular and institutional commitments necessary to create and sustain diversity on campus Its premise is that the socially just classroom flourishes in the context of a socially just institution and it invites faculty and administrators to create such classrooms and institutions This book grew out of a project involving

deans and directors of teaching centers and diversity offices from six institutions to instigate discussions among teachers and administrators about implementing socially just practices in their classrooms departments and offices The purpose was to explore how best to foster such conversations across departments and functions within an institution as well as between institutions This book presents the theoretical framework used and many of the successful projects to which it gave rise Recognizing that many faculty have little preparation for teaching students whose backgrounds culture and educational socialization differ from theirs the opening foundational section asks teachers to attend closely to their and their students relative power and positionality in the classroom and to the impact of the materials resources and pedagogical approaches employed Further chapters offer analytical tools to promote inquiry and change The concluding sections of the book demonstrate how intra and inter institutional collaborations inspired teachers to rise to the challenge of their campuses commitments to diversity Among the examples presented is an initiative involving the faculty development coordinator and faculty from a wide range of domains at DePauw University who built upon an existing ethics initiative to embed social justice across the curriculum In another professors of mathematics from three institutions describe how they collaborated to create socially just classrooms that both serve mathematical learning and support service learning or community based learning activities The final essay by a student from the Maldives describing how she navigated the chasm between life in an American college and her family circumstances will reinforce the reader s commitment to establishing social justice in the academy This book provides individual faculty faculty developers and diversity officers with the concepts reflective tools and collaborative models as well as a wealth of examples to confidently embark on the path to transforming educational practice
