Cosmopolitanism and Transatlantic Circles in Music and Literature Ryan R. Weber, 2018-10-26 Cosmopolitanism and Transatlantic Circles in Music and Literature traces the transatlantic networks that were constructed between a select group of composers including Edvard Grieg Edward MacDowell and Percy Grainger and the writers with whom they shared cosmopolitan affinities including Arne Garborg Hamlin Garland Madison Grant and Lathrop Stoddard Each overlapping case study surveys the diachronic transmission of cosmopolitanism as well as the synchronic practices that animated these modernist ideas Instead of taking a strictly chronological approach to organization each chapter offers an examination of the different layers of identity that expanded and contracted in relation to a mutual interest in Nordic culture From the burgeoning universal ambitions around 1900 to the darker racialized discourse of the 1920s this study offers a critical analysis of both the idea and practice of cosmopolitanism in order to expose its common foundations as well as the limits of its application

The Dial ,1909 **Towards a Harmonic Grammar of Grieg's Late Piano Music** Benedict Taylor,2017-04-21 The music of Edvard Grieg is justly celebrated for its harmonic richness a feature especially apparent in the piano works written in the last decades of his life Grieg was enchanted by what he styled the dreamworld of harmony a magical realm whose principles the composer felt remained a mystery even to himself and he was not alone in that the complex nature of late Romantic harmony around 1900 has proved a keen source of debate up to the present day Grieg s music forms a particularly profitable repertoire for focusing current debates about the nature of tonality and tonal harmony Departing from earlier approaches this study is not simply an inventory of Griegian harmonic traits but seeks rather to ascertain the deeper principles at work governing their meaningful conjunction how elements of Grieg s harmonic grammar are utilised in creating an extended tonal syntax Building both on historical theories and more recent developments Benedict Taylor

develops new models for understanding the complexity of late Romantic tonal practice as epitomised in Grieg's music. Such an investigation casts further valuable light on the twin issues of nature and nationalism long connected with the composer: the question of tonality as something natural or culturally constructed and larger historiographical claims concerning Grieg's apparent position on the periphery of the Austro-German tradition.
