## Edge Of Maine:

The Edge of Maine Geoffrey Wolff, 2005 A sailor himself Wolff celebrates the harbors reaches and coves of a cruising ground that is among the world's finest and summons the maritime spirit of a region whose yards once dominated American shipbuilding a tradition still observed both by craftsmen who preserve the art of wooden boatbuilding and by the crews of the Bath Iron Works which outfits some of our Navy's most advanced ships He also introduces such Mainers as the canny 19th century entrepreneur whose business cutting ice from the frozen Kennebec River became a lucrative global industry

A Forgotten Landscape: How A Place Called Crockett's Corner Became The Maine Mall M.M. Drymon PhD, 2015-10-25 A place called Crockett's Corner began as a seventeenth century colonial settlement that grew into a stable and sustainable nineteenth century American agrarian landscape During the twentieth century in a rapid but staged process the landscape was changed into an edge city These changes were the direct result especially after 1938 of prevailing public policies which acted to constrain some land uses while supporting others Landscape change has had unintended consequences including local social network destruction historic building demolition and unmitigated air and non point source water pollution Raising awareness of the deep history of this place may help empower advocates for historic preservation open space environmental protection and more sustainable land use practices in the future
