Educating For Democracy Case Method Teaching And Learning:

Educating for Democracy Robert F. McNergney, Edward R. Ducharme, Mary K. Ducharme, 1999-04 Use of case methods to promote democratic teaching learning Part I suggests how why teacher educators can use case methods at preservice inservice levels Part II presents 6 cases designed to stimulate consideration of democratic teaching learn **Leading For Democracy** Patrick M. Jenlink, Lee Stewart, Sandra Stewart, 2012-06-28 At a time when America s schools face many of the most difficult challenges ever the authors of *Leading for Democracy A Case Based Approach to Principal Preparation* return the reader to an agenda for democratic leadership for schools Emphasizing the need for leadership preparation programs to reexamine existing and more traditional approaches to principal preparation this comprehensive book draws to the foreground the need for a case based approach that reflects the real world problems and challenges faced by principals in schools today In particular *Leading for Democracy* emphasizes both a case based pedagogy for principal preparation and the democratic ideals that provide the foundation for democratic schools bringing into specific relief the work ahead for professors of educational leaders in preparing principals ground in democratic practice Equally important *Leading for Democracy* provides practical insight to the challenges of today s principal offering a set of pedagogical tools for professors to guide students of leadership in learning and understanding the difficult work required of leading democratically set against the backdrop of a changing America Case Studies and Activities in Adult Education and Human Resource Development Steven W. Schmidt, Kathleen P. King, 2010-09-01 Case studies have become a widely used instructional tool in many educational environments The use of case studies began in the 1950s at Harvard Business School Today they may be used as part of a course of study or as the main focus of a course to which other material is added While the use of case studies is prevalent in schools of business and medicine they are not often used in adult education or human resource development This may be because there are no current major publications that deal with the use of case studies in these disciplines nor are there any major databases of adult education or human resource development case studies for instructors to use Good case studies can bring reality into the classroom They can provide frameworks for discussion based on issues that must be faced in real life Complex case issues can be broken down and examined for greater understanding then pulled together again for resolution Case studies can be used successfully in adult education I propose a book based on the use of case based learning in adult education and human resource development HRD The book could be positioned as a supplement to course textbooks for courses in adult education and HRD I would write the cases and develop the exercises but could also get others to contribute a case study or exercise to the book Cases would each be a half page to maybe 2 3 pages at the long end and would include questions for students readers Supplementary information possibly in the form of a DVD could be put together for instructors This information would include case study focal points and examples of possible responses for each study exercise **Using Cases in Higher Education** James P. Honan, Cheryl Sternman Rule, 2002-10-01 Using Cases in

Higher Education A Guide for Faculty and Administrators is an essential resource created for faculty and administrators who utilize case studies to analyze assess and respond to the complex and difficult issues facing higher education leaders While this volume will prove useful with any case study it is specifically designed to complement the series of casebooks and teaching notes starting with Casebook I Faculty Employment Policies and Teaching Notes to Casebook I Faculty Employment Policies

Legal Issues in Special Education Kevin Brady, Charles Russo, Cynthia Dieterich, Allan Osborne, Jr, 2019-10-28 Legal Issues in Special Education provides teachers and school administrators with a clearly written well organized and understandable guide from the perspective of the practitioner without formal legal training Even though over 50 percent of students with disabilities are now educated in general education classes most teachers are not required to complete coursework in special education law and can unwittingly expose themselves and their schools to liability for violating the rights of students with disabilities This practitioner s guide explicitly addresses the major issues and legal complexities educators inevitably face when dealing with special education legal and policy issues Using case based learning to synthesize important legal concepts and principles from leading special education legal cases this text guides educators administrators and parents alike toward a thorough understanding of and the ability to navigate many of the current and pressing legal concerns in special education

Towards a Transformative Pedagogy for Early Childhood Care and Education Naseema Shaik, Trevor Moodley, 2024-07-12 This book addresses the priorities and possibilities towards developing transformative pedagogies in post apartheid South Africa To this end the book has assembled a group of researchers who interrogated and engaged with a variety of dimensions that warrant pedagogical change in early childhood in South Africa The book focuses on young children practitioners and leaders with intersecting discussions about envisaged systemic changes to promote transformative pedagogies The collection highlights the importance of beliefs ways of knowing and ways of being as framings that impact on pedagogical approaches The book discusses the challenges that interplay between priorities and possibilities that practitioners face in a diverse and multi cultural society like South Africa The work uses a variety of examples to show priorities One example is about how practitioners have limited knowledge about how music as a culturally responsive tool can be used to transform pedagogy in Early Childhood Care and Education The book opens up dimensions as priorities that lead to thinking about possibilities that recast adults and young children as transformative agents in a dimension for transformative pedagogies

Teaching and the Case Method Louis B. Barnes, Carl Roland Christensen, Abby J. Hansen, 1994 This third edition of Teaching and the Case Method is a further response to increased national and international interest in teaching teachers and learning as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings Like its predecessors this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience It is based on the belief that teaching is not purely a matter of inborn talent On the contrary the knowledge skills and attitudes

that make for excellence in teaching can be analyzed abstracted and learned One key premise of Teaching and the Case Method is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases **World Yearbook of Education 2004** Andrew Brown,Niki Davis,2013-04-15 A real revolution is taking place in the way in which we conceptualise and practise education and learning This book sets out to explore the immense impact which digital technology is having on education around the world and the ways in which it is used by a wide range of individuals and communities Contributors analyse changes in technology such as e mail the Internet digital video and other media but also the effect of this new technology on the way people live and learn around the world Cultural changes taking place range from the blurring of boundaries between formal and informal learning to the development of new virtual communities which revolve around particular social or cultural interests and which serve as a crucial tool and source of identity for spatially displaced communities such as refugees Digital technology is changing the way we all live and this book is an authoritative study of these changes in all their diversity Teaching for Student Learning Dick Arends,Ann Kilcher,2010-02-25 Teaching for Student Learning shows teachers how to integrate research and the wisdom of practice into their teaching emphasizing how accomplished teachers acquire and apply evidence based practices in support of student learning **Case Method and Pluralist Economics** Kavous Ardalan,2017-12-09 This book discusses the relationship between pluralist economics and the case study method of teaching advocating the complimentary use of both to advance economics education Using a multi paradigmatic philosophical frame of analysis the book discusses the philosophical methodological and practical aspects of the case study method while drawing comparisons with those of the more commonly used lecture method The book also discusses pluralist economics through the exposition of the philosophical foundations of the extant economics schools of thought which is the focal point of the attention and admiration of pluralist economics More specifically the book discusses the major extant schools of thought in economics Neo Classical Economics New Institutional Economics Behavioral Economics Austrian Economics Post Keynesian Economics Institutional Economics Radical Economics and Marxist Economics and emphasizes that these schools of thought in economics are equally scientific and informative that they look at economic phenomena from their certain paradigmatic viewpoint and that together they provide a more balanced understanding of the economic phenomenon under consideration Emphasizing paradigmatic diversity as the cornerstone of both the case method and pluralist economics the book draws the two together and makes an effective case for their combined use A rigorous multi faceted analysis of the philosophy methodology and practice of economics education this book is important for academicians and students interested in heterodox economics philosophy and education **Teacher Education for Critical Consumption of Mass Media and Popular Culture** Stephanie A. Flores-Koulis,2020-10-28 The study develops a baseline of knowledge to encourage the inclusion of media literacy education in teacher education Citizenship Education Anne Sliwka, For students citizenship education means more than merely

learning about citizenship and democracy Citizenship education means learning through practicing citizenship inside and outside the school One model for that is service learning which combines service and learning by linking community service and reflection about it in class *Resources in Education* ,2001-04 Education and Industry Henry Charles Link,1923
