The Journal of Education Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1929 **Why Education Is Useless** Daniel Cottom, 2013-04-09 Education is useless because it destroys our common sense because it isolates us from the rest of humanity because it hardens our hearts and swells our heads Bookish persons have long been subjects of suspicion and contempt and nowhere more so perhaps than in the United States during the past twenty years Critics of education point to the Nazism of Martin Heidegger for example to assert the inhumanity of highly learned people they contend that an oppressive form of identity politics has taken over the academy and complain that the art world has been overrun by culturally privileged elitists There are always it seems far more reasons to disparage the ivory tower than to honor it The uselessness of education particularly in the humanities is a pervasive theme in Western cultural history With wit and precision *Why Education Is Useless* engages those who attack learning by focusing on topics such as the nature of humanity love beauty and identity as well as academic scandals identity politics multiculturalism and the corporatization of academe Asserting that hostility toward education cannot be dismissed as the reaction of barbarians fools and nihilists Daniel Cottom brings a fresh perspective to all these topics while still making the debates about them comprehensible to those who are not academic insiders A brilliant and

provocative work of cultural argument and analysis *Why Education Is Useless* brings in materials from literature philosophy art film and other fields and proceeds from the assumption that hostility to education is an extremely complex phenomenon both historically and in contemporary American life According to Cottom we must understand the perdurable appeal of this antagonism if we are to have any chance of recognizing its manifestations and countering them Ranging in reference from Montaigne to George Bush from Sappho to Timothy McVeigh *Why Education Is Useless* is a lively investigation of a notion that has persisted from antiquity through the Renaissance and into the modern era when the debate over the relative advantages of a liberal and a useful education first arose Facing head on the conception of utility articulated in the nineteenth century by John Stuart Mill and directly opposing the hostile conceptions of inutility that have been popularized in recent decades by such ideologues as Allan Bloom Harold Bloom and John Ellis Cottom contends that education must indeed be useless if it is to be worthy of its name **Education** ,1917 **Youth, its education, regimen, and hygiene** Granville Stanley Hall,1920 **The Journal of Education** ,1885 **Eastern Love: The book of women, of Fazil-Bey. The education of wives, from the Persian** ,1927 **American Journal of Religious Psychology and Education** Granville Stanley Hall,Alexander Francis Chamberlain,1905 Includes section Book reviews **The American Journal of Religious Psychology and Education** ,1905 *The Education of the Feelings* Charles Bray,1872 *Journal of Education* ,1901 **The Renaissance.
