Hall, Ayesha Boyce, Rodney Hopson, 2023-01-01 While women have influenced the fields of program evaluation and mixed methods research their contributions are rarely acknowledged In this edited volume we recognize the contributions Jennifer C Greene made to evaluation and mixed methods focusing on how she disrupted traditional ways methods are conceptualized and implemented We aim to provide a range of perspectives on how Greene disrupted social science theory methodology and training through her commitment to the values of democracy diversity and dialogue Accordingly the volume makes explicit how Greene democratized social science inquiry and training by emphasizing inclusive culturally responsive and educative theories methods and pedagogical practices Second it clarifies how her commitment to diversity supported scholars from diverse disciplinary backgrounds and cultures within and beyond the United States and validated often ignored perspectives on phenomena or experiences And third it showcases how her commitment to dialogue opened spaces for non traditional methodological approaches that engage communicate and disseminate program evaluation and mixed methods work Taken together the first hand accounts presented in this volume offer a historical perspective and practical guidance on program evaluation and mixed methods conceptualization implementation and training Endorsements The theme of disruption in this

book is a powerful look at the breadth and significance of Jennifer C Greene s distinguished contributions both theoretical and practical in evaluation for over 30 years In essence these chapters reveal the sustaining power of her scholarship and influence today and likely in years to come Her recognition that no single method can solve the complex problems faced in evaluation is revealed in the ontological epistemological and methodological work she developed on mixed methods which led to a genre of study that recast the debate about the hegemony of quantitative over qualitative methods and vice versa She has foregrounded values the quintessential character of evaluation by recognizing the multiplicity of perspectives that guide our theories roles questions designs and perceptions of quality Jennifer Greene s generativity is exemplified in her egalitarian dialogic stance inclusion of voices and context and commitment to equity The chapters reflect the impact of her work on scholars who continue to advance evaluation for a more just society Valerie J Caracelli U S Government Accountability Office It is not possible to convey in a few words my strongest endorsement for this volume that begins scratching the surface of Jennifer C Greene s many contributions to evaluation theory methods and practice I have worked with and learned from her on many occasions over the years as I grappled with refining my understanding and practice of culturally responsive evaluation I commend the editors and authors for this first substantive collection providing a more in depth understanding and appreciation of Jennifer Greene s body of work for some while providing others the opportunity to revisit the lessons we have learned from her work spirit and commitment to make a difference Stafford Hood Center for Culturally Responsive Evaluation Assessment CREA and Professor Emeritus University of Illinois at Urbana Champaign     A Just Society for Ireland? 1964-1987 C.
