Economía Monetarista La:

Macroeconomía Michael Parkin, Gerardo Esquivel, Mercedes Muñoz, 2007 La economía monetarista Milton Friedman, 2010-10-15 Los diversos ensayos contenidos en este volumen ofrecen la esencia de los temas y conceptos que constituyen la teoría clásica de Milton Friedman, máximo exponente de la Escuela de ciencias económicas de Chicago. Siempre político Friedman fue analista de estadísticas para el gobierno de Estados Unidos asesor económico de Richard Nixon y Ronald Reagan y colaboró con el gobierno de Margaret Thatcher. En las discusiones sobre la alternativa entre decisiones macroeconómicas de cuadro keynesiano y medidas de política monetaria el protagonismo de las teorías de Friedman fue notorio en todo el mundo occidental en las últimas décadas del pasado siglo. Monetarista de toda la vida abogó por un crecimiento moderado y constante de la masa monetaria sosteniendo que solo la estabilidad económica permite general y consolidar la estabilidad política. La fe de Friedman es la fe del gran matemático que concibe la lógica de los procesos monetarios como abstracción de la lógica social. Si bien como diría las buenas ideas triunfan en última instancia después de que hayamos experimentado las malas no cabe duda de que solo los resultados destacaos como Adam Smith y Milton Friedman han ofrecido contribuciones grandes que cambian la historia. De la Introducción de Sir Alan Walters vicepresidente y director del AIG Trading Group y ex comunista jefe asesor del Reino Unido Economía Política Edmund S. Phelps, 1986-09 Este manual ofrece la visión de un autor activamente implicado en los avances de la ciencia económica del siglo XX. No subordina el fondo de las ideas económicas al aspecto puramente formal técnico de la economía. Se centra en la economía política por entender que la vitalidad de la ciencia económica se sustenta de las cuestiones de interés político y que el desarrollo profesional de los economistas depende de su capacidad de arrojar luz sobre los problemas políticos que plantean las cuestiones políticas.

ESTADOS UNIDOS, GOLFO PERSICO Y DEPRESIÓN ECONOMICA Rafael D. Mota, 2013-04 Economía contemporánea Milton H. Spencer, 1993 La manera más efectiva e interesante de aprender economía es haciendo y es necesario conocer las bases de la economía para poder aplicarla inteligentemente. De acuerdo con esto un texto de introducción al tema deberá a mi juicio proporcionar a los estudiantes la teoría fundamental necesaria para hacer tres cosas: comprender las cuestiones de política pública, evaluar las opiniones contradictorias y llegar a conclusiones documentadas. Este libro trata de alcanzar estos objetivos de distintas formas. Aunque no se encuentra en otros textos existe abunda en artículos recientes ejemplos del mundo real, asuntos corrientes, estudio de casos y problemas prácticos. Lo más importante es que estas características se han conseguido sin sacrificar la teoría básica. **Cómo aprender economía** Santiago Zorrilla Arena, 1996 **Filosofía y economía de nuestro tiempo: orden económico y cambio social** David Anisi Alameda, 2004 Recoge los contenidos del curso de formación del profesorado Filosofía y economía de nuestro tiempo orden económico y cambio social celebrado en la Fundación General Universidad Complutense de Madrid en El Escorial en el verano de 2003.

Las siete vidas del neoliberalismo Dieter Plehwe, 2023-05-02 Tanto las crisis financieras la asi tica de 1997 y de 2008 que sacudieron el sistema econ mico mundial como los virajes pol ticos las victorias electorales de la izquierda en Latinoam rica la llamada marea rosa desde finales de los a os noventa incluso la controversial elecci n del empresario y pol tico Donald Trump como presidente de los Estados Unidos facultaron con regularidad en el discurso te rico y en la opini n p blica la pregunta por el fin de la era del neoliberalismo Ante estos hechos cundieron obituarios y promesas de transformaci n pues la muerte del neoliberalismo no se har a esperar Sin embargo en adelante los procesos hist ricos se han mostrado m s din micos que concluyentes pues el neoliberalismo no solo ha sobrevivido a las crisis sino que se ha repotenciado con ellas La cuesti n por tanto como se examina y reflexiona en Las siete vidas del neoliberalismo radica en primer lugar en abandonar la

caricatura del neoliberalismo como una simple creencia en el fundamentalismo de mercado para así abarcar críticamente en segundo lugar su composición originaria científica y económica la densidad y flexibilidad de sus redes intelectuales culturales políticas y familiares las desavenencias y matices que tuvieron lugar en sus formulaciones teóricas de base los think tanks con sus organizaciones y actividades y la previsibilidad del movimiento de la vida y la conducta humana en el marco de los flujos mercantiles. Cuándo terminar el neoliberalismo cuándo la civilización capitalista. Son preguntas que surgen una y otra vez y lidas incluso como deseo. Mientras tanto la investigación y análisis sobre el neoliberalismo como ocurre en este libro articula su ritmo menos en anuncios que en una certeza de arranque a saber que las siete vidas del neoliberalismo no son pocas pero tampoco infinitas.
