Toward a New Mission Statement for Canadian Fiscal Federalism Harvey Lazar, 2000 Canada State of the Federation 1999 2000 identifies and explains major threads in Canadian fiscal federalism Set against the cacophony over domineering and arrogant centralization from supporters of Quebec sovereignty session on the one hand and fears that excessive decentralization is fuelling an obsessively neo liberal agenda on the other these essays replace much of this heat with new light The authors begin with an examination of recent developments in the theoretical literature surrounding fiscal federalism They then examine some of the major issues facing the federation Is there a vertical imbalance between federal and provincial governments Does Ottawa collect more revenues than are needed relative to its spending responsibilities while the provinces are under funded How do federal provincial struggles over money and jurisdictional power affect local government or the para public sector emerging aboriginal governments and citizens Federal government actions in 1999 suggest that Ottawa has not lost all of its interest in social outcomes It is however seeking to influence the well being of citizens by transferring money to them directly rather than through transfers to provinces The authors suggest that if this trend continues the approach to the millennium will be seen as a watershed in public policy given that current trends in Canadian fiscal federalism are as much about re balancing the federation as they are about decentralization

towards a future where fairness prevails If you like this book write a review Introduction to Nowruz Gilad James, PhD, Nowruz is the Persian New Year It has been celebrated for over 3 000 years in Iran and other parts of Central Asia as well as by the Parsis in India The holiday falls on the Spring Equinox typically on March 20th or 21st Nowruz marks the beginning of the spring season as well as the beginning of a new year according to the Persian calendar The celebration of Nowruz includes a range of traditions such as the setting of a haft sin table with seven items that start with the Persian letter sin symbolic of the seven creations and the seven holy immortals in Zoroastrianism the traditional religion of Iran The holiday also involves spring cleaning the exchange of gifts and the gathering of families and friends for a festive meal Nowruz is recognized as a UNESCO Intangible Cultural Heritage of Humanity and is celebrated in many countries around the world by people of Iranian and Central Asian descent *Capitalism Creates Disparity* Amelia Scott, AI, 2025-02-26 Capitalism Creates Disparity argues that wealth inequality is not just an unfortunate side effect but a built in feature of capitalist systems The book dives into how capital accumulation market structures and government policies all contribute to this growing problem Did you know that returns on capital often outpace wage growth widening the gap between those who own assets and those who primarily rely on their labor Or that monopolies can further concentrate wealth by extracting excessive profits The book explores these dynamics across three parts It begins by defining key concepts like the Gini coefficient then examines how capital accumulation market power and policy choices concentrate wealth Finally the text proposes potential policy solutions drawing from different countries and historical periods It uses data from sources like the World Bank and OECD alongside case studies to illustrate wealth concentration and provide an accessible yet rigorous analysis of the economic forces shaping wealth distribution **The 2010 Pakistan Floods: Environmental and Economic Impact** ,2015-04-15 Pakistan is a developing country of the Monsoon Asia with dense concentration of population in the plain areas of the Indus and other rivers Due to its unique geographical setting it is prone to various natural disasters including floods There is a whole trail of death and destruction left behind by devastating floods But the 2010 floods in the country were unprecedented because of their vast areal coverage loss of thousands of lives and large scale destruction This study is an analysis of the impact of the 2010 floods on the environment and economy of Pakistan The study begins with the environmental characteristics of the study area to understand the drainage water availability and flooding patterns in different parts of the country Then a study of the flood history of Pakistan has been undertaken to identify possible causes of floods rescue and management operations and preparedness for the future The immediate damage and losses to the environment and economy have been separately studied followed by the impact of the floods resulting from widespread damages to the different sectors of the economy and environment The study reveals that the floods had a severe impact on the habitat ecology and lives of thousands of animals in the country The actual impact on the environment was so vast and far reaching that it is difficult to comprehend and express it in numerical terms Therefore in the study it has also been argued that loss of buildings infrastructure and agriculture is

actually a loss of environment All sectors of the economy were affected by the floods but agriculture housing and transport and communication sectors were severely hit and had brought the whole country to a standstill Rescue and rehabilitation efforts carried out with the help of international cooperation achieved some degree of success But for the future Pakistan has to take many physical organisational and technological measures to deal effectively with natural disasters including floods There are many lessons to be learnt from the disastrous 2010 floods and hopefully this study will be useful in that direction
