focuses on the recent political and economic events in the former Yugoslavia The author presents a clear detailed and accessible breakdown of the developments in Bosnia Hercegovina Croatia the Former Yugoslav Republic of Macedonia Slovenia and the Federal Republic of Yugoslavia Serbia and Montenegro The role of the West in the mor *The New Russia* Ian Jeffries, 2013-12-19 The rapid changes in Russia since the collapse of the Soviet Union are often bewildering with many frequent highly significant changes in the different sectors of the economy and the political system There have been frequent

changes of personnel in government and economic management and many changes have been reversed and sometimes forgotten or at other times reinstated What happened when Who was responsible for what Did such a change in one sector precede or follow a particular change elsewhere These are points not easily remembered This book provides full details of the many changes and enables sense to be made of what would otherwise be a confusing situation Developments are arranged chronologically by sector and the book is unusual in extensively chronicling both economic and political developments and the crucial connections between them There is a generous introduction and overview to help the reader find his or her way around The material covers the period up to late autumn 2000 and thus offers a valuable guide to policies in the Putin era

Innovation and Structural Change in Post-Socialist Countries: A Quantitative Approach David A. Dyker, S. Radošević, 2012-12-06 This book uses a range of S T and structural indicators to analyse the transformation process in particular the transformation of science technology and industry in the former communist countries The book originates from a sense of the tremendous need for quantitative indicators for assessing trends and performance in the post socialist economies S T systems in the region have passed through the first phase of rapid deterioration or as it is called by some analysts implosion After ten years of transformation we are witnessing a process of increasing differentiation of these countries in terms of general patterns of growth and structural change as well as specific lines of restructuring in their S T systems The question of sources of growth or indeed of stagnation is an increasingly urgent one from both the policy and academic perspectives In that context there is a pressing need for in depth assessment of restructuring patterns in science technology and industry in the region as a basis for understanding how restructuring in S T is linked to industrial restructuring and to general economic and social transformation As the contributions to this volume show there is now a critical mass of quantitative data across the post socialist countries which deserves to be studied more thoroughly in a comparative manner The changes of the last ten years have produced varying patterns of adjustment which are now clearly visible in S T and structural indicators

Building Security in the New States of Eurasia: Subregional Cooperation in the Former Soviet Space Renata Dwan, Oleksandr Pavliuk, 2015-07-17 This pathbreaking study brings together international experts to consider security issues and the experience and potential for cooperation in the subregions of the former Soviet Union Appendices to the volume provide maps a guide to acronyms profiles of existing subregional organizations and a chronology of cooperative agreements signed in the region since 1991

Russia's Uncertain Economic Future John P. Hardt, Robert F. Bennett, 2015-04-15 The contributors to this volume analyze the present state of the Russian economy and its future prospects which now seem brighter than at any previous time in the country's history The Russian economy is now showing positive GDP growth and a positive balance of payments portending a trend of sustained growth The record of the Putin presidency with respect to the establishment of market friendly legal and administrative environments is substantially positive On the other side of the ledger the contributors identify the persistence of monopolies

in energy transportation and agriculture distortions resulting from corruption infrastructural inadequacies and the maldistribution of political power and decision making authority demographic decline and the erosion of human capital as manifested in the health education and welfare of the population Russia's successful development as a democratic society with a market economy is of great importance to its neighbors and to the global economy and specifically to the United States which is why the U S Congress commissioned these studies by expert analysts This edition includes a comprehensive subject index making the volume user friendly

Monetary Policy in Transition M. Nikolic, 2006-06-16 This book explores the disastrous economic consequences of pseudo lending for pseudo reforms that occurred when the IMF as a representative of the West pretended to aid the transition economy of post communist Russia through stabilization while the Russian government promised reforms

The Yo-Yo Yen B. Brown, Robert Z. Aliber, 2002-05-01 The violent fluctuations of the Japanese yen through the 1980s and 1990s have played a critical role in Japan's economic decline Brendan Brown highlights the causes of the yen's bizarre behaviour and analyses the consequences for the Japanese and global economies Through this analysis he presents an original hypothesis linking the periodic sharp upswings of the Yen to poor economic performance and offers a new view as to where the responsibility for failure of the Japanese currency market to function normally lies

The Return To Europe NA NA, 2016-04-30 The Return to Europe examines the ability of the Central and South east European economies to withstand competitive pressures on entry to the EU These economies are still experiencing major structural problems inherited from communism A major gap still exists between the income levels and economic structures of the accession states and the existing members of the EU Trade relations largely involve the exchange of labour intensive goods produced in Eastern Europe for technology intensive goods produced in the EU The export structures of

some Central European economies which have attracted foreign direct investment is improving Romania and Bulgaria have become increasingly dependent on export of labour intensive goods since the collapse of communism Will this create a permanent division of labour in an enlarged EU in which some regions of Europe fail to attract investment and become dependent on the export of low wage goods with implications for European security

International Migration and the Future of Populations and Labour in Europe Marek Kupiszewski,2013-02-11 The changes of populations are determined by fertility mortality and migration On the national level international migration is a factor of increasing demographic economic social and political importance This book addresses the debate on the impact of international migration and economic activity on population and labour force resources in future It presents a study conducted for 27 European countries looking 50 years ahead 2002 2052 An extended discussion of theories and factors underlying the assumed evolution of the components of change and economic activity is included as well as a detailed analysis of the historical trends These theoretical and empirical considerations lead to defining scenarios of future mortality fertility economic activity and international migration which have been fed into a projection model producing various future population dynamics and labour force trajectories In addition simulations have been made to estimate the size of replacement migration needed to maintain selected demographic and labour market parameters in the countries of Europe The results presented in this book allow researchers governments and policy makers to evaluate to what extent various migration and labour market policies may be instrumental in achieving the desired population and labour size and structures The secondary purpose of this volume is to reveal the methodology and argumentation lying behind a complex population forecasting and simulation exercise which is not done frequently but is critical for the assessment of the forecasts and also valuable from a purely didactic point of view

Civil Society and Global Finance Albrecht Schnabel,Jan Aart Scholte,2003-09-02 This key text brings together twenty activists officials and researchers from the five continents to discuss this burning question of today s globalization debate Providing rare authoritative analyses by those who deal with the issues first hand Civil Society and Global Finance is rich in insight and policy ideas for decision makers students and concerned citizens

World Labour Report 2000 International Labour Office,2000 Increasing globalisation and trade liberalisation are creating greater insecurity for many income earners This study examines the vital role played by social protection and health care in the event of old age incapacity for work through sickness or accident bearing and raising children and unemployment The report discusses the effects of rising unemployment and underemployment and of labour market developments which have exposed a growing number of workers to low pay and precarious conditions Factors such as changing family structures and demographic trends are considered The positive impact of social protection on the economy has often been neglected the report says and can be enhanced by better co ordination between social protection labour market and anti poverty policies

The Balkans Robert Bideleux,Ian Jeffries,2007-01-24 An excellent companion volume to the successful A History of

Eastern Europe this is a country by country treatment of the contemporary history of each of the Balkan states Albania Bulgaria Romania Croatia Serbia Bosnia and Herzegovina Macedonia Montenegro and Kosovo With a distinctive conceptual framework for explaining divergent patterns of historical change the book shifts the emphasis away from traditional cultural explanations and concentrates on the pervasive influence of strongly entrenched vertical power structures and power relations Focusing on political and economic continuities and changes since the 1980s The Balkans includes brief overviews of the history of each state prior to the 1980s to provide the background to enable all students of Eastern European history to make sense of the more recent developments
