#### **Latecomer Development** Banji

Oyelaran-Oyeyinka, Padmashree Gehl Sampath, 2009-12-16 The most important issue for development centres on the debate about the centrality of knowledge technology and innovation to the process of economic development While this much is broadly agreed what is at issue is the precise mechanics of overcoming economic development challenges in different contexts At the heart of it all is about how economies at different levels deploy the unending streams of information and knowledge to developmental ends In time the notion of income convergence between the poorer South and the wealthy North has proved a mirage while a new economic divide has in fact occurred within the South itself and as well between regions and within regions The debate relating to latecomers is thus framed in discussions about regions and countries that arrive late to mastering industrialization in achieving economic prosperity through the use of knowledge In other words a new divide has emerged among the latecomers themselves and with it greater conceptual complexity in the ways of our understanding of the divergent ways of economic development We have thus separated fast followers and new late comers This book enters this debate acutely aware of the complexity of this process The authors argue that economic development is largely driven by innovation concentrating on the dynamics of process product and organizational changes and how they are embedded within specific and varied contextual institutions

#### **Korea, Transition to Maturity** Danny M. Leipziger, 1988

Korea s remarkable industrial progress has been virtually unparalleled in the developing world Through painstaking effort and prudent management the economy has been transformed from that of a poor agricultural society to a major economic power in Asia In the process standards of living have increased dramatically however with democratization have come even higher economic expectations Korea now stands poised to shortly join the ranks of the developed nations on the basis of its export success but it must also meet the new demands of its people This volume cuts across a broad spectrum of issues and highlights some of the remaining challenges to Korea s development By including scholars from Korea as well U S academics and experts who deal directly with Korean economic policy the book brings to bear a judicious blend of views on the hurdles to be overcome by Korean policy makers in this final and arguably most difficult step in Korea s transition to maturity

*Is Ghana making progress in agro-processing?* Andam, Kwaw, Al-Hassan, Ramatu M., Asante, Seth Boamah, Diao,

Xinshen, 2015-12-25 One likely outcome of Ghana s rising household incomes and increasing urbanization is a higher demand for processed foods The question remains whether this expected higher demand will generate opportunities for growth in domestic agro processing This study assesses the performance of the agro processing sector in Ghana through an inventory of processed and packaged food items in retail shops around Accra The inventory shows 1 The agro processing subsector

offers opportunities for domestic firms with Ghanaian brands accounting for 27 percent of the items identified 2 In addition to forming nearly a third of products identified locally processed products have penetrated diverse market segments with sales across a variety of retail outlets 3 Regional imports of processed and packaged food items are low Excluding South African brands which accounted for 7 8 percent of imports only 4 3 percent of the items were imported from other African countries 4 Domestic agro processors provided the highest share of products among processed starches and cereals while imports dominate processed dairy fruits vegetables and meat products *China & Asia (exclusive of Near East)* United States.
