Super Inequality: Theoretical Essays in Economics and Social Policy Christian Aspalter, 2023-09-16 This book bridges the disciplines of micro economics and social policy in general and in particular behavioral explanatory social policy and public choice theory plus Leibenstein's X efficiency theory Being trained as an economist and social policy scientist the author leaps out of the comfort zone of most social policy scientists and experts right into the exciting world of micro economic theory and then extending and connecting those theories to explain major social political and economic conundrums of our time In doing so the book offers a new set of theoretical and practical explanations derived from the general proposition of micro economic theory of how government officers policymakers administrators and the people themselves alike are by and large motivated in their daily as well as strategic long term decision making Using a meta analytical approach based on a number of grand theories this book also explains systemic factors behind human behavior and the thereof resulting shortcomings in lifetime outcomes health wealth and happiness of a person and at the

same time societal policy making and economic outcomes on societal level and in global comparison The outcomes thereof can be measured exactly and hence validated especially through the method of empirical comparative social science economic research Here the author also but not only introduces the new method of using Aspalter s Standardized Relative Performance SRP Index in measuring exactly complex aggregate performances of multiple governments and that at the same time also across the entire world **EBOOK: Macroeconomics** Rudiger Dornbusch, Stanley Fischer, Richard

Startz, 2014-02-16 Dornbusch Fischer and Startz has been a long standing leading intermediate macroeconomic theory text since its introduction in 1978 This revision retains most of the text s traditional features including a middle of the road approach and very current research while updating and simplifying the exposition A balanced approach explains both the potential and limitations of economic policy Macroeconomics employs a model based approach to macroeconomic analysis and demonstrates how various models are connected with the goal of giving students the capacity to analyze current economic issues in the context of an economic frame of reference The only pre requisite continues to be principles of economics **Economic Development in Rural Sector** Jody Gordon, 2019-04-19 The history of economic development of

countries show that there have been countless examples of institutional agencies that have played pivotal role in fulfilling certain developmental activities Cooperation as an institution is used in various countries as instrument of economic growth The economic performance of rural regions around the world is lagging despite efforts by governments and local leaders to address the problem Rural economic development should focus on the unique strengths of each area rather than concentrating on ameliorating generic weaknesses Rural economic development should address and harness the efficient spatial distribution of economic activity rather than attempt to replicate urban economies Rural development aims at improving rural people s livelihoods in an equitable and sustainable manner both socially and environmentally through better access to assets and services and control over productive capital that enable them to improve their livelihoods on a sustainable and equitable basis It is certain that the valuable contributions views and suggestions of the researchers will be of immense help to the future researchers policy makers administrators and social thinkers in solving the problem of poverty unemployment and to achieve economic development of the country as well as the state especially in rural sector renewing the existing employment generating programmes The objective underlying the publication of this book is therefore to attract the attention of those interested in and concerned with the growth and progress of agricultural sector in our country
