Economic Growth And Employment In China:

Economic Growth and Employment in China Thomas G. Rawski, 1979 Investigating the relation between growth and employment in China this report shows that over the past two decades the world's largest developing nation made significant strides towards the goal of full employment of its labor force by the ability of the agricultural sector to absorb the unemployed

Employment and Economic Growth in Urban China 1949-1957 Christopher Howe, 1971-07-02 A study of China's urban employment problems between 1949 and 1957 Its main objectives are to analyse the size and determinants of urban employment change and to trace the evolution both of Chinese thinking about employment and the institutions of labour control that reflected this thinking in day to day administration

China's Labor Market Performance and Challenges Mr. Ray Brooks, Tao Ran, 2003-11-01 A more market oriented labor market has emerged in China in the past twenty years with growing importance of the urban private sector as state owned enterprises have downsized Despite the progress on reforms a sizable surplus of labor still exists in the rural sector and state owned enterprises The main challenge facing China's labor market in coming years is to absorb the surplus labor into quality jobs while adjusting to World Trade Organization WTO accession This paper estimates that if annual GDP growth averages 7 percent and the employment elasticity is one half urban unemployment could double to about 10 percent over the next three to four years These pressures would be limited by stronger economic growth especially in the private sector and more labor intensive service industries which have generated the most jobs in recent years Therefore policy should focus on encouraging private sector development while reducing barriers to labor mobility improving worker skills upgrading job search services and strengthening the social safety net

The Turning Point in China's Economic Development Ross Garnaut, Ligang Song, 2006-08-01 Focuses on China's long term pattern of growth and employment demographic shifts and rural urban migration its agricultural trade and local elections China's banking sector reform and its fiscal sustainability its environmental concerns and much more

also appeal to business analysts Demographic Perspective of China's Economic Development Fang Cai, 2020-05-17 China is historically famous for its high demographic dividend and its huge working population and this has driven tremendous economic growth over the past few decades. However, that population has begun to shrink and the Lewis turning point, whereby surplus rural population has been absorbed into manufacturing, is also approaching, leading to great change in the Chinese labor market. Will this negatively affect China's economic growth? Can the Middle Income Trap be avoided? What reforms should be made on the labor supply side? This book tackles these key questions. This book is a collection of 14 papers presenting the author's observations, analysis, and opinions of China's long-term economic development from the demographic perspective while analysing real economic problems from the past and including policy recommendations. It provides a critical reference for scholars and students interested in Chinese economic development and demographic perspectives on economic development.

China and the Challenge of Economic Globalization Hung-Gay Fung, Pei Changhong, Kevin H. Zhang, 2017-07-28 First Published in 2006 *Economic Growth and Employment in Vietnam* David Lim, 2014-03-21 Vietnam has enjoyed significant economic success since the implementation of its doi moi reforms, including rapid growth in GDP, exports, and foreign and domestic investment, and a shedding of poorly performing state-owned enterprises. Despite this, however, the economic situation for many ordinary people in Vietnam is fragile, with income only just above the poverty line and high unemployment, especially among the young. In addition, inflation is high and the state-owned sector is still large, much of it still performing badly. This book provides a comprehensive overview of the current economic situation in Vietnam. It outlines the state of the economy, paying special attention to employment, discusses government policies including on trade and integration with the global economy, and concludes by assessing the key challenges facing Vietnam's economy going forward.

China's Economic Growth: Towards Sustainable Economic Development and Social Justice John Joshua, 2017-01-09 This two-volume book addresses the economic transformation occurring in China at present. The author investigates China's domestic and international policies, the impact of these policies on economic growth, and their effect on the quality of life for the people of China. In the first volume, the author distinguishes between economic growth and sustainable economic development and discusses China's current and past economic policies towards growth. Chapters also explore the structural transformation of China's economy and its increasingly consumer-oriented nature. The second volume looks more specifically at the result of domestic policies on the quality of life for people living in China. The author examines the distribution of income, the alleviation of poverty, the Chinese education system, and the environmental cost of economic growth. These volumes will be of particular interest to researchers and scholars concerned with China's emerging economic power.

China's New Urbanization Strategy China Development Research Foundation, 2013 Urbanization is one of the major challenges facing China. Of China's 1.3 billion people, around half still live in rural areas. There has been huge migration from rural areas to cities in recent years, a trend that is likely to continue strong for some

time The strains that this vast migration puts on China's cities are enormous This book makes available for the English speaking reader the results of a large group of research projects undertaken by CDRF one of China's leading think tanks into the details of rural urban migration the resulting urban growth and the problems associated with all this The book goes on to put forward a new strategy which aims to ensure that China's urbanization proceeds in an orderly manner and that people and their needs are put at the centre of the strategy Key parts of the strategy include that city clusters should become the main form of urbanization that these should be arranged geographically in a pattern of two horizontal lines and three vertical lines that industrial and employment structures should highlight regional features and diversity that urban public services should be more equitably distributed that there should be new forms of urbanization management and city governance to accelerate urbanization and ensure harmonious social development and that the whole process should be conducted in an ecological green way
