Economic Transition In Central Europe And The Commonwealth Of Independent States:

Economic Transition in Central Europe and the Commonwealth of Independent States T. Mickiewicz, 2005-11-11 Fifteen years ago twenty seven countries in Europe and Central Asia embarked on their economic transition paths For some the outcome was a considerable success Several others are still struggling to shed the inheritance of the past and to correct more recent policy mistakes Why were post Communist recessions so long in some countries and growth disappointing Why was fiscal performance so different Was democracy a factor which facilitated reforms or rather slowed them down This book discusses these questions in the context of new empirical evidence including a critical examination of the main themes in the economics of transition literature *The Commonwealth of Independent States Economies* Marcus Goncalves, Erika Cornelius Smith, 2017-09-11 The year 2016 marks the 25th anniversary of the official inauguration of the Commonwealth of Independent States CIS a free association of sovereign states comprised by Russia and 11 other republics that were formerly part of the Soviet Union Although this loose association of states may not exist as a fixed entity on the globe it is believed that this bloc of countries will continue to build upon the various separate regions in the former Soviet space in the coming decade This book provides a regional analysis and a country scan of the CIS regional block economies It examines its history since the breakup of the formal Soviet Union and the formation of the CIS bloc including creation of regional agreements such as the CIS Free Trade Area and the Eurasian Economic Union which now represents more than 180 million people As a whole our text attempts to better understand current and future prospects for economic growth in the region as well as their individual national challenges **The Successes and Failures of Economic Transition** H. Gabrisch, J. Hölscher, 2006-08-25 This book takes a macroeconomic approach to the issue of transformation from communist economies into market economies At the centre of the analysis stands the role of the state and the definition within a dramatically changing environment Particular emphasis is given to the emerging role of money and the financial sector **Growth and Change in Post-socialist Cities of Central Europe** Waldemar Cudny, Josef Kunc, 2021-12-29 This book presents multidimensional socio economic transformations taking place in the post socialist cities located in selected countries of the Central European region The analysis includes case studies from the Eastern part of Germany Chemnitz Leipzig Poland d Kielce Katowice conurbation and peripheral urban centres from Eastern Poland Slovakia Bratislava Nitra the Czech Republic Olomouc Brno and from Hungary P cs The analysed urban areas have undergone far reaching political and socio economic changes in the last 30 years These changes began with the collapse of communism and the centrally planned economy system in the region of Central Europe The beginning of this period often referred to as post socialist transformation dates back to 1989 The consequence of the aforementioned political processes was the multifaceted socio economic and demographic changes that significantly affected urban areas in Central Europe This book presents an attempt to summarize the main long term processes of changes taking place in these urban areas and to identify contemporary and future trends in

their socio economic development The book will be valuable to undergraduate and postgraduate students in human geography urban studies economy and city marketing especially with an interest in Central Europe

Economic Growth and Structural Features of Transition E. Marelli, M. Signorelli, 2010-01-20 This book examines theoretically and empirically the key aspects and differences of economic growth It provides a comprehensive investigation of the numerous features of development in transition countries covering the last two decades from the fall of the Berlin Wall in 1989 to the current financial crisis

Transition Economics Peter Luke, 2012-07-26 Celebrating twenty years of transition from socialism to capitalism this book is designed to be the core textbook for undergraduate courses in transition economics and comparative economic systems Given the passage of time Transition Economics Two Decades On reviews and accounts for the outcomes in the so called transition economies and from an academic perspective takes the reader through developments and issues in the twenty years of transition from plan to market Treating its subject matter thematically the book incorporates much of the transition economics literature and evidence that have evolved over the past two decades In particular the authors focus on the most important aspects of economic transition including The initial conditions at the outset of transition Paradigms and patterns of transition The main transition policies and economic reforms The performance of transition countries and firms The lessons from transition The textbook covers a wide range of both contemporary microeconomic and macroeconomic issues in over thirty ex socialist European and Asian countries including Russia and China Transition Economics Two Decades On is more than just a book about a particular part of the world or the transformation that was experienced at a particular time in history The authors believe that the study of the economics of transition gives the reader an insight into theories policies reforms legacies institutions processes and lessons that have application and relevance beyond the specific transition from plan to market to other parts of the world and to other times in history

Internationalisation Theory and Technological Accumulation B. Jindra, 2011-12-02 This is the first book to explain the expansion of multinational enterprises MNEs into a transition economy from a technology accumulation perspective The author provides a theoretical alternative to accepted wisdom regarding technology transfer and discusses the policy implications of this new approach for economic development

Transformational Diplomacy after the Cold War Keith Hamilton, 2013-04-12 This book examines the Know How Fund Britain's bilateral technical assistance programme in post communist central and eastern Europe devised in response to the end of the Cold War The Know How Fund KHF was the technical assistance programme which Margaret Thatcher's government launched in the spring of 1989 to encourage Poland's transition from communism to democracy and free market capitalism It was subsequently extended to other countries of central and eastern Europe and might be considered a novel experiment in what the US secretary of state Condoleezza Rice would later term transformational diplomacy Drawing upon still closed records of the Cabinet Office the Department for International Development DFID and the Foreign and Commonwealth Office this book explores the political origins of the

KHF In particular the author examines its influence upon the transitional process in the lands of the former Soviet bloc its part in attenuating the potentially destabilising effects of revolutionary change in Europe the interdepartmental cooperation and rivalry to which its administration gave rise in Whitehall and the links forged between officials and the worlds of business finance and academe in project design and implementation The volume offers new insights into Britain's reactions to the collapse of communism in central Europe and the Soviet Union the role of aid in the making and conduct of British foreign policy and the significance of New Labour's establishment of DFID as a separate government department This book will be of much interest to students of British Foreign Policy Diplomacy Studies European history Post Communist Transitions and IR in general *Technology Transfer via Foreign Direct Investment in Central and Eastern Europe* J. Stephan, 2005-11-28 Foreign subsidiaries of multinational companies are suggested as one of the main channels of technology transfer to less developed economies In Central East Europe their presence proved to be a decisive factor to economic restructuring and development This volume is a unique guide to theory method of research and empirical evidence for technology transfer via foreign subsidiaries of multinational companies It combines the merits of a core text on technology transfer via FDI with up to date empirical evidence *Financial Participation of Employees in the EU-27* J. Lowitzsch, 2009-09-23 This book aims to systematically assess laws and practices close gaps that currently prevent a full profiling of financial participation provide a description of individual countries against the background of comparable scores for the EU 27 and to promote a common platform for financial participation within the European Union *Decentralization and Local Development in South East Europe* W. Bartlett, S. Malekovic, V. Monastiriotis, Sanja Malekovic, 2013-02-21 Decentralisation is changing the face of South East Europe This book provides practical analysis of the devolutionary measures reshaping post Communist economies Using case studies from Croatia the former Yugoslavia Albania and more this collection offers valuable insights into political and fiscal redistribution **Varieties of Capitalism in Post-Communist Countries** D. Lane, M. Myant, 2016-01-23 This book sets the experiences of former communist countries as they head towards capitalism against the varieties of capitalism paradigm and provides a framework for comparing transformation processes demonstrating how differing heritages of communist and pre communist pasts are leading to different kinds of capitalist economies *Applied Economics for Development: Empirical Approaches to Selected Social and Economic Issues in Transition Economies* Mahmut Zortuk, 2018-01-15 Transition economies experience transformation of their economic system Following the disintegration of the Soviet Union a number of former socialist countries underwent transitions from central planning to a market economy More generally many rapidly growing economies undergo no less profound transformations of their economic systems Contrary to common misconception the transition process cannot be simply reduced to eliminating state intervention and liberalizing the economy Economies under transition exhibit a unique set of policy challenges Unlike developed market economies missing markets or market failures abound Economic transformation takes the form of rapidly

evolving patterns of international trade and investment industrial structure and consumption These changes call for appropriate public policies A continuing flow of investment hinges on suitable institutions the provision of public infrastructure and other public goods Adequate regulation can be central in ensuring that environmental resources are sustainably managed And sophisticated production systems call for corresponding social institutions in terms of education health and welfare provisions In all these cases accurate empirical assessments are central to the design of effective policy This book presents a selection of pressing economic and social issues in transition economies Selected issues include the development of particular industrial sectors the drivers and consequences of foreign direct investment public finances urbanization social indicators environmental policy and energy diversification In each case an original empirical analysis is performed using a variety of advanced quantitative methods applied to recent data The book will be of interest to economists studying transition economies economic development or having a general interest in applied economics It will be of particular interest to applied economists policy analysts and policy makers in transition economies concerned with the shape and direction of appropriate economic reforms Global Perspectives on Trade Integration and Economies in Transition Erokhin, Vasily, 2016-06-16 In the era of globalization foreign trade has an immense impact upon modern economies To succeed in the global marketplace sustainable development in trade practices is an imperative goal for countries to reach Global Perspectives on Trade Integration and Economies in Transition is an authoritative reference source for the latest research on the dynamics of transitional economies and how certain obstacles can disrupt the effectiveness of the transition process Highlighting the value of trade incorporation at the national and international levels this book is ideally designed for researchers professionals government officials policy makers and upper level students interested in the intersection of globalization trade and international economics **Minerals Yearbook**, 2007 *Kazakhstan: Snow Leopard at the Crossroads* Christopher Hartwell, 2023-05-10 This volume examines the experience of Kazakhstan's transition over the past 30 years explaining the political and economic performance of the country since the collapse of the USSR through the country's institutions policy choices and external environment In an exploration of more than 1 000 years of institutional development the chapters analyse and assess the development of political arrangements and governance and economic institutions from pre Russian colonization through to the Soviet experiment and then take a magnifying glass to developments in a post Soviet independent Kazakhstan Using a broad range of sources and data across disciplines this book is the first to explicitly survey Kazakhstan's transition as a function of its history its people and its institutions Breaking new ground in institutional economics it provides readers with a comprehensive examination of the history and development of Kazakhstan and points to where it may be heading in the 21st century The subject matter is accessible to a broad academic audience to scholars in political science economics and the history of Central Asia and Russia as well as to those with an interest in general transition economics **Handbook of the Economics and Political Economy of Transition** Paul

Hare, Gerard Turley, 2013-05-02 Transition from central planning to a market economy involving large scale institutional change and reforms at all levels is often described as the greatest social science experiment in modern times. As more than two decades have passed since the fall of the Berlin Wall and the collapse of the Soviet Union, it is now an excellent time to take stock of how the transition process has turned out for the economies that have moved on from socialism and the command economy. This new handbook assembles a team of leading experts, many of whom were closely involved in the transition process as policymakers and policy advisors, to explore the major themes that have characterized the transition process. After identifying the nature of initial conditions and the strengths and weaknesses of institutions, the varying paths and reforms countries have taken are fully analyzed, from the shock therapy privatization or gradualism of the early years to the burning issues of the present, including global integration and sustainable growth. Topics covered include the socialist system, pre-transition economic reforms, institutions, the political economy of transition, performance and growth, enterprise restructuring, and people and transition. The country coverage is also extensive, from the former socialist countries of the USSR and the satellite states of Central and Eastern Europe to the Asian countries of China, Vietnam, and others. The rise of China as a key actor in the drama is chronicled, along with the emergence of a new, more confident, oil-rich Russia. The comparative prosperity of the Central European countries, such as Poland and the Czech Republic, is contrasted with the mixed fortunes of the former USSR, where some countries are stagnating while others boom. This *Handbook of the Economics and Political Economy of Transition* is the definitive guide to this new order of things in the former Communist world.

Transition, Recession and Labour Supply Paolo Verme, 2020-11-25 This title was first published in 2001. Exploring the relationship between the recession and labour supply in Kazakhstan during the 1990s, this volume develops an innovative new model of the transitional process in the context of the CIS. It departs from conventional economic models, explaining the process of transition by transferring the focus of attention from labour demand to labour supply, with a view to clarifying how the transitional recession has affected households and, in turn, how these changes modified the supply of labour. Paolo Verme examines how the dynamic of the reallocation of labour between state and private enterprises has been drastically altered by the growth of self-employment and also takes a much-needed look at the contribution of other factors, offering an original explanation of this most important economic phenomenon. *The CIS Handbook* Patrick Heenan, Monique

Lamontagne, 2013-11-26 The *Regional Handbooks of Economic Development* series provides accessible overviews of countries within their larger domestic and international contexts, focusing on the relations among regions as they meet the challenges of the twenty-first century. The series allows the non-specialist student to explore a wide range of complex factors, social and political as well as economic, that affect the growth of developing regions in Asia, Europe, and South America. Each Handbook provides an overview chapter discussing the region's economic conditions within an historical and political context, as well as 20 or more chapter-length essays written by recognized experts which analyze the key issues affecting a region's

economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index *Transition and Beyond* S. Estrin,G. Kolodko,M. Uvalic,2007-08-10 This book covers a wide variety of aspects of transition in Central and Southeast Europe and the CIS including the socialist legacy privatization and growth skills and banking reforms It also covers the evolution of the global economy beyond transition looking at complexity risk management the optimal transition path and globalization
