Capitalist Development in India's Informal Economy Elisabetta Basile,2013-06-07 This book explores the economy and society of Provincial India in the post Green Revolution period It argues that the low quality of capital development in India s villages and small towns is the joint outcome of the informal economic organisation that is strongly biased in favour of capital and of the complex stratification of the workforce along class and caste lines Focusing on the processes of growth induced by the introduction of the high yield varieties in agriculture the book demonstrates that a low road pattern of capitalist development has been emerging in provincial India firms compete over price and not over efficiency with a constant pressure to reduce costs in particular labour costs The book shows that low skilled employment prevails and low wages and poor working conditions are widespread Based on original empirical research the book makes a valuable contribution to the debate on varieties of capitalism in particular of the Global South It is of interest to academics working in the fields of Development Studies Political Economy and South Asian Studies

India's Economic Development Strategies 1951-2000 A.D. J.N. Mongia, 2012-12-06 It has been often said even by dispassionate observers that our economic policies built on ideological considerations and economic assumptions are far removed from the realities of our situation For more than three decades we have been striving to design an economic policy and a planning procedure that are distinctly Indian but the effort has often resulted in only mixing and merging borrowed ideas and experiences However whatever may have been the ideological elements influencing the thinking on economic policies in the formative period of the pre independence days the situation has changed considerably in the actual formation of economic policies since Independence and the effort has been not to be too closely identified with any ideology but to work out a policy that will draw upon all these ideological positions To what extent we have succeeded required a detailed examination Accordingly I brought out a few years ago a treatise on India's Economic Policies which continues to be extremely popular with the intellectual elite the world over In this the learned contributors dwelt at length on the different aspects of India's Economic Policies from 1947-77 and brought out the strength and weaknesses of the Indian economic scene The present work on India's Economic Development Strategies is born out of the conviction that what India needs now is a set of strategies which are a consistent set of policies and that there is an urgent need for the same in Indian Planning
