**The Master Prints** Sheila Metzner, Edward S. Curtis, 2001 In Sheila Metzner's photographs beauty is truly more than skin deep She is known for creating rich and refined images for the fashion and television industries and her textural surfaces and attention to aesthetics have made her work popular since the 1970s with clients as diverse as Fendi Ralph Lauren Chanel and Victoria's Secret Recasting history for her own demands Metzner hovers between the pictorialist aesthetic of Alfred Stieglitz or Edward Steichen and the modernist edge of such photographers as Man Ray and Charles Sheeler The end results while paying homage are uniquely Metzner's own and have left a major impression on the history of photography Form and Fashion presents a generous commingling of Metzner's fashion work with her sensual and erotic nudes and formalist still lifes created between 1980 and 2000 The effect of this retrospective juxtaposition suggests a heady romanticism balanced by her precisionist style and sense of detail Form and Fashion presents the singularity of a creative mind showcasing for the very first time images that resound on their own terms with elegance and distinction BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Edward S. Curtis** Christopher Cardozo, 2015-05-12 Introduction the artistry of Edward Curtis Christopher Cardozo A path of beauty heart and soul Christopher Cardozo Enriching the world one photograph at a time A D Coleman Plates Curtis and pictorialism Christopher Cardozo A collective act of stewardship Eric J Jolly Intensity of regard Louise Erdrich Edward S Curtis and America's environmental social justice movement Michael Charles Tobias A guide to the photographs Chronology Afterword The Gift of the Face Shamoan Zamir, 2014-08-14 Edward S Curtis's The North American Indian is the most ambitious photographic and ethnographic record of Native American cultures ever produced Published between 1907 and 1930 as a series of twenty volumes and portfolios the work contains more than two thousand photographs intended to document the traditional culture of every Native American tribe west of the Mississippi Many critics have claimed that Curtis's images present Native peoples as a vanishing race hiding both their engagement with modernity and the history of colonial violence But in this major reappraisal of Curtis's work Shamoan Zamir argues instead that Curtis's photography engages meaningfully with the crisis of culture and selfhood brought on by the dramatic transformations of Native societies This crisis is captured profoundly and with remarkable empathy in Curtis's images of the human face Zamir also contends that we can fully understand this achievement only if we think of Curtis's Native subjects as coauthors of his project This radical reassessment is presented as a series of close readings that explore the relationship of aesthetics and ethics in photography Zamir's richly illustrated study resituates Curtis's work in Native American studies and in the histories of photography and visual anthropology *The Grove Encyclopedia of American Art* Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **The Master Prints** Edward Sheriff Curtis, 2001 **American Photo**, 2001-09 **Edward S. Curtis and the North American Indian**,

**Incorporated** Mick Gidley,2000-02-13 A study of the literary influence of Edward Curtis s multi volume collections of Native American photographs      North American Indians in the Great War Susan Applegate Krouse,2007-01-01 More than twelve thousand American Indians served in the United States military in World War I even though many were not U S citizens and did not enjoy the benefits of enfranchisement Using the words of the veterans themselves as collected by Joseph K Dixon 1856 1926 *North American Indians in the Great War* presents the experiences of American Indian veterans during World War I and after their return home Dixon a photographer author and Indian rights advocate had hoped that documenting American Indian service in the military would aid the Indian struggle to obtain general U S citizenship Dixon managed to document nearly a quarter of the Indians who had served but was unable to complete his work and his records languished unexamined until now Unlike other sources of information on Indian military service collected by government officials Dixon s records come primarily from the veterans themselves Their comments reveal pride in upholding an Indian tradition of military service as well as frustration with the U S government Particularly in its immediacy and individuality Dixon s documentation of American Indian veterans of World War I adds greatly to our understanding of the experiences of American Indians in the U S military      *Through a Native Lens* Nicole Strathman,2020-03-19 What is American Indian photography At the turn of the twentieth century Edward Curtis began creating romantic images of American Indians and his works along with pictures by other non Native photographers came to define the field Yet beginning in the second half of the nineteenth century American Indians themselves started using cameras to record their daily activities and to memorialize tribal members *Through a Native Lens* offers a refreshing new perspective by highlighting the active contributions of North American Indians both as patrons who commissioned portraits and as photographers who created collections In this richly illustrated volume Nicole Dawn Strathman explores how indigenous peoples throughout the United States and Canada appropriated the art of photography and integrated it into their lifeways The photographs she analyzes date to the first one hundred years of the medium between 1840 and 1940 To account for Native activity both in front of and behind the camera the author divides her survey into two parts Part I focuses on Native participants including such public figures as Sarah Winnemucca and Red Cloud who fashioned themselves in deliberate ways for their portraits Part II examines Native professional semiprofessional and amateur photographers Drawing from tribal and state archives libraries museums and individual collections *Through a Native Lens* features photographs including some never before published that range from formal portraits to casual snapshots The images represent multiple tribal communities across Native North America including the Inland Tlingit Northern Paiute and Kiowa Moving beyond studies of Native Americans as photographic subjects this groundbreaking book demonstrates how indigenous peoples took control of their own images and distinguished themselves as pioneers of photography      *New Approaches to Old Stones* Yorke M. Rowan,Jennie R. Ebeling,2016-04-08 Ground stone artefacts were widely used in food production in prehistory However the archaeological community has widely neglected the dataset of

ground stone artefacts until now *New Approaches to Old Stones* offers a theoretical and methodological analysis of the archaeological data pertaining to ground stone tools The essays draw on a range of case studies from the Levant Egypt Crete Anatolia Mexico and North America to examine ground stone technologies From medieval Islamic stone cooking vessels and late Minoan stone vases to the use of stone in ritual and as a symbol of luxury *New Approaches to Old Stones* offers a radical reassessment of the impact of ground stone artefacts on technological change production and exchange

*The Modern West* Emily Ballew Neff, Barry Holstun Lopez, 2006-01-01 A fascinating and novel exploration of the transformative role played by the American West in the development of modernism in the United States Drawing extensively from various disciplines including ethnology geography geology and environmental studies this groundbreaking book addresses shifting concepts of time history and landscape in relation to the work of pioneering American artists during the first half of the 20th century Paintings watercolors and photographs by renowned artists such as Frederic Remington Georgia O'Keeffe Ansel Adams Thomas Hart Benton Dorothea Lange and Jackson Pollock are considered alongside American Indian ledger drawings tempuras and Dineh sandpaintings Taken together these works document the quest to create a specifically American art in the decades prior to World War II *The Modern West* begins with a captivating meditation on the relationship between human culture and the physical landscape by Barry Lopez who traveled the West in the artists footsteps Emily Ballew Neff then describes the evolving importance of the West for American artists working out a radically new aesthetic response to space and place from artist explorers on the turn of the century frontier to visionaries of a Californian arcadia to desert luminaries who found in its stark topography a natural equivalent to abstraction Beautifully illustrated and handsomely designed this book is essential to anyone interested in the West and the history of modernism in American art
