It outlines the concepts, goals, and policies of effective educational environments and examines teaching and learning strategies for diversified groups of students. Lives on the Boundary Mike Rose, 2005-07-26 The award winning account of how America's educational system fails its students and what can be done about it. Remedial, illiterate, intellectually deficient—these are the stigmas that define America's educationally underprepared. Having grown up poor and been labeled this way, nationally acclaimed educator and author Mike Rose takes us into classrooms and communities to reveal what really lies behind the labels and test scores. With rich detail, Rose demonstrates innovative methods to initiate problem students into the world of language, literature, and written expression. This book challenges educators, policymakers, and parents to re-examine their assumptions about the capacities of a wide range of students. Already a classic, *Lives on the Boundary* offers a truly democratic vision, one that should be heeded by anyone concerned with America's future. A mirror to the many lacking perfect grammar and spelling who may see their dreams translated into reality after all. *Los Angeles Times Book Review*. Vividly written, tears apart all of society's prejudices about the academic abilities of the underprivileged. *New York Times*. Grassroots Social Action Charles V. Willie, Steven

The focus is on how people outside the traditional circuits of authority exercise power and how their actions relate to bureaucratic social action from the top down. International Perspectives on Teacher Education Donald K. Sharpes,2020-09-10 The preparation of suitably qualified teachers is vital for political social and economic growth in developing countries Some major problems have been caused by the enormous growth in primary enrolment and by the need to train more teachers without reducing standards exacerbated by the fact that in many cases the structure of teacher education is still in its formative stages However these problems can lead to innovative options and solutions Originally published in 1988 this book reports on research and practice in teacher education around the world It examines for example what happens to teacher education at times of great social change or political unrest as in South Africa or Cyprus how programmes in for example Nigeria or China approach minority education and how

teachers are prepared for the teaching of indigenous populations such as the Saskatchewan Indians in Canada These examples of international teacher education practice are presented within a specific national regional and cultural context and provide important perspectives on the traditional views of how teachers are and should be prepared and professionally maintained The book will be of interest to all involved in teacher education adult education and curriculum design as well as to students of development studies

The Limits of Law-Based School Reform Todd A. DeMitchell, Richard Fossey, 1997 A confusing and contentious debate often surrounds law based school reforms lawsuits regulations statutes and collective bargaining provisions DeMitchell and Fossey argue that law based reforms have not changed the fundamental character of the nation s schools Although hundreds of law based initiatives have been introduced most have had little effect on learning Law based reform is an important and necessary strategy but by itself it is not enough to change the way children are schooled Rational decision making which undergirds most law based reform can take us only part way to the schools our children deserve
