Bureau for Technical Assistance, 1976 Government Policy and Food Imports Grant MacDonald Scobie, 1981 Research report on food policy and wheat imports in Egypt examines the historical background to and recent trends in wheat policy describes an econometric model of wheat imports discusses economic implications for food policy Bibliography graphs statistical tables Foreign Trade Regimes and Economic Development , 1974 **Foreign Trade Regimes and Economic Development - Colombia** Carlos Federico Díaz Alejandro, 1976 **The Middle East** Barry Rubin, 2015-03-17 The Middle East is an area of great importance globally yet misperceptions abound Events have made it a region of special interest to the West and so the search for understanding gains momentum This publication is intended to clarify the region s complex history and issues In developing this project the contributors set out to explore seven significant themes that are usually not found in other sources While many books focus on political history and conflicts this two volume work deals specifically with culture religion women economics governance and media as well as the role that the region s modern history has played in shaping its society and worldview *The Political Economy of Reforms in Egypt* Khalid Ikram, 2018 Drawing on Khalid Ikram s extensive knowledge of economic policymaking at the highest levels *The Political Economy of Reforms in Egypt* lays out the enduring features of the Egyptian economy and its performance since 1952 before presenting an account of policy making growth and structural change under the country s successive presidents to the present day *Cases in Economic Development* Michael Roemer, Joseph J. Stern, 2014-05-20 *Cases in Economic Development* Projects Policies and Strategies presents cases on project analysis sectoral planning and macroeconomic policies The cases are set in an imaginary country called Beracia in order to simulate actual planning experience Beracia has been designed with a greater than normal range of problems so that it can encompass the features of mineral rich countries such as Zambia and Peru agrarian economies such as the Philippines and Ivory Coast and aspiring exporters of manufactures such as Colombia and Pakistan This text has 11 cases divided into five sections After providing an overview of development planning development goals and strategies and planning theory and practice the book introduces the fictional country in the next section which presents four reports similar to World Bank economic reports on developing countries economic and political developments income and employment trade and payments and fiscal and financial developments Sufficient data are elaborated to explain the economy

s salient features The third section focuses on assumptions and controversies surrounding project analysis while the section on sectorial planning introduces the reader to input output analysis efficiency indicators education planning and industrial strategy The section on macroeconomic planning covers macroeconomic forecasts balance of payments crisis fiscal planning and reform and income inequality and poverty The cases span many sectors from mining and agriculture to manufacturing transport education and health This book is written primarily for students professional economists and experienced policy analysts *State, Private Enterprise and Economic Change in Egypt, 1918-1952* Robert L. Tignor, 2017-03-14 This study of Egyptian efforts to diversify the country's economy between the end of World War 1 and the Nasser coup d'etat of 1952 focuses on the nascent bourgeoisie and the relationships of its segments to one another Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Harvests of Liberation** Ahmad Shokr, 2025-05-20 In the first half of the twentieth century a major change occurred in Egyptian nationalist understandings of imperialism and economic sovereignty Where once the volatilities of foreign markets and capital were seen as the main threat over time large landowners and their imperial allies were targeted as the principal obstacles to the country's industrial progress The perceived locus of imperial domination shifted from the realm of circulation to the realm of production *Harvests of Liberation* situates this transformation in the midcentury dynamics of agrarian capitalism in Egypt Ahmad Shokr tells a story of decolonization through the lens of cotton Egypt's prized export He follows a range of actors colonial advisors nationalist leaders agrarian reformers merchant financiers landowners and rural workers whose interactions moved the levers of the cotton trade from institutions that facilitated accumulation on an imperial scale to new sites of control within the nation state Amidst depression and war the transformation of Egypt's cotton economy prompted nationalists to embrace policies of land reform and industrialization and adopt a new conception of history Ultimately Shokr argues these efforts set the stage for the construction of a postcolonial republic under Gamal Abdel Nasser where national liberation became equated with national development *A.I.D. Research and Development Abstracts*, 1977 *Locked Out of Development* Steffen Hertog, 2023-01-19 This Element argues that the low dynamism of low to mid income Arab economies is explained with a set of inter connected factors constituting a segmented market economy These include an over committed and interventionist state with limited fiscal and institutional resources deep insider outsider divides among firms and workers that result from and reinforce wide ranging state intervention and an equilibrium of low skills and low productivity that results from and reinforces insider outsider divides These mutually reinforcing features undermine encompassing cooperation between state business and labor While some of

these features are generic to developing countries others are regionally specific including the relative importance and historical ambition of the state in the economy and closely related the relative size and rigidity of the insider coalitions created through government intervention Insiders and outsiders exist everywhere but the divisions are particularly stark immovable and consequential in the Arab world The Next Arab Decade Hisham Sharabi,2019-07-11 This book is concerned with defining the nature of the crisis of the Arab world with tracing its possible development and with charting the conditions of its possible outcomes addressing the next decade from the vantage of 1986 rather than that of 1985 **The Egyptian Economy, 1952-2000** Khalid Ikram,2007-04-11 Interviews with former Prime Ministers and Cabinet Ministers along with previously unpublished analysis by the World Bank IMF and USAID provide entertaining and interesting insights into Egypt s economic development policy during 1952 to 2000 Areas addressed include the performance of the Egyptian economy since 1950s the factors that have facilitated or retarded economic performance the Egyptian authorities approach to economic issues and policy making the chief questions that policy makers will have to deal with in the next twenty years Set apart by Khalid Ikram s intimate knowledge of the Egyptian policy makers this book presents a unique account of economic development and policy making in Egypt during 1952 to 2000 **Foreign Publications Accessions List** United States.
