democracy and sovereignty Robert F Kennedy Jr on April 1 2024 told CNN I can make the argument that President Biden is a much worse threat to democracy than Trump Again Robert on April 2 2024 told Fox News President Biden has done something no other president has done which is to order media particularly social media Facebook Instagram to censor his political opponent President Biden is a much worse threat to democracy and the reason for that is President Biden is the first candidate in history the first president in history that has used the federal agencies to censor political speech to censor his opponent And he added that Biden is a genuine threat to our democracy Keep in mind that Robert K is a liberal Democrat Former president Barack Obama and his wife Michael are using their Netflix Predictive Programming movie Leave the World Behind to reveal how he and the global gang intend to put the US government under a global dictatorship Their ploy includes A simple three stage maneuver that could topple a country s government from within That country s government is no other but the US government which will be the real target for a coup d etat and civil war The first maneuver to destroy America is Isolation By that they mean disabling the sectors of communication and transportation making the target as deaf dumb and paralyzed as possible The second maneuver consists of creating a synchronized chaos to terrorize the American people with covert attacks and misinformation overwhelming their defense capabilities and leaving their weapon system vulnerable to extremists and their own military Without a clear enemy or motive people would start turning on each other If done successfully the third stage would happen on its own The Obama Netflix civil war movie describes the globalists plot to create the right major crisis that they have envisioned to establish a global government The plot seems to include widespread use of state terrorism to attack America from within with tens of thousands of radical Muslim terrorists that are already in America The goal is to topple the US government declare martial law change the Constitution and put the country under a global tyranny I am using this book to show that Obama and Biden have been working in league with the evil global mafia to cement America s transition from democracy to dictatorship Also this book shows the globalists plot for world government and the man with the call and vision to lead it Barack H Obama the biblical Antichrist and awaited Mahdi of Islam Therefore Americans have a critical choice to make choose Obama s radicalized democrat gang and you will destroy America s democracy and sovereignty Choose Donald Trump and you will empower the man called to defeat the enemies of humanity and tyranny Trump is the man destined to vindicate God s name and restore America to its rightful place before God takes His people in the rapture

Nationalism and Imperialism in the Hither East seeks to present the history of Turkey Egypt and Arabia in the decade where the political structures created by World War I and the Peace Conferences sought consolidation and the evolution of their own life The story begins where after the immediate consequences of the War had been liquidated the civil and political administration of the several countries was established This book is intended as contribution to the endeavour to understand the historical and sociological character of nationalism and of the forces which are determining the history of our own day The social political and cultural movements in these countries the struggle between imperialism and nationalism throw light upon the processes which extend far beyond the region under consideration The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this republication This book will be of interest to students of history political science international relations and geography **Beyond America's Grasp** Stephen P. Cohen, 2009-10-27 AN

INCISIVE WHITE PAPER ON THE UNITED STATES'S STRUGGLE TO FRAME A COHERENT MIDDLE EAST POLICY In this book the Middle East expert Stephen P Cohen traces U S policy in the region back to the breakup of the Ottoman Empire when the Great Powers failed to take crucial steps to secure peace there He sees in that early diplomatic failure a pattern shaping the conflicts since then and America's role in them A century ago there emerged two dominant views regarding the uses of America's newfound power Woodrow Wilson urged America to promote national freedom and self determination through the League of Nations in stark contrast to his predecessor Theodore Roosevelt who had advocated a vigorous foreign policy based on national self interest Cohen argues that this running conflict has hobbled American dealings in the Middle East ever since In concise pointed chapters he shows how different Middle East countries have struggled to define themselves in the face of America's stated idealism and its actual realpolitik This conflict came to a head in the confused clumsy Middle East policy of George W Bush but Cohen suggests the ways a greater awareness of our history in the region might enable our present leaders to act more sensibly *Littell's Living Age*, 1883 **Invoking the Scribes of Ancient**
