Eidetic Imagery Erich Rudolf Jaensch,1970 **Eidetic Imagery and Typological Methods of Investigation** E.R. Jaensch,2013-07-04 This is Volume V of twenty one in the Cognitive Psychology series First published in 1930 this study looks at the most important aspect of Eidetics the theory of eidetic or perceptual images Anschauungsbilder as being its development that represents the first systematic application of typological methods of investigation The author suggests that if these methods are consistently applied they will it seems throw new light on many departments of psychology Eidetic Imagery and Typological Methods of Investigation E. R. Jaensch,1970 **Eidetic Imagery and Typological Methods of Investigation** Erich Rudolf Jaensch,1970 Eidetic Imagery and Typological Methods of Investigation Erich Rudolf Jaensch,Oscar Adolf Oeser,1930 *Eidetic Imagery and Typological Methods of Investigation* Erich Rudolf Jaensch,1930

Eidetic Imagery and Typological Methods of Investigation. Translated from the German by D.A. Oeser Erich Jaensch,1930 *Eidetic Imagery and Typological Methods of Investigation; Their Importance for the Psychology of Childhood, the Theory of Education, General Psychology, and the Psychophysiology of Human Personality, by E. R. Jaensch. Translated from the Second Edition by Oscar Oeser* Erich Jaensch, **Eidetic imagery and typological methods of investigation : their importance for the psychology of childhood, the theory of education and general psychology, and the psycho-physiology of human personality** E . R. Jaensch,2023 **Die Eidetik. Eidetic Imagery and Typological Methods of Investigation: Their Importance for the Psychology of Childhood ... Translated from the Second Edition by Oscar Oeser** Erich Rudolf JAENSCH,Oscar Adolf OESER,1930 **Hitler's Face** Claudia Schmolders,2006 In Hitler s Face Claudia Schm lders reverses the normal protocol of biography instead of using visual representations as illustrations of a life she takes visuality as her point of departure to track Adolf Hitler from his first arrival in Munich as a nattily dressed young man to his end in a Berlin bunker and beyond Perhaps never before had the image of a political leader been so carefully engineered and manipulated so broadly disseminated as was Hitler s in a new age of mechanical reproduction There are no extant photographs of him visiting a concentration camp or standing next to a corpse or even with a gun in his hand If contemporary caricatures spoke to the calamitous thoughts projects and actions of the man officially sanctioned photographs paintings sculptures and film overwhelmingly projected him as an impassioned orator or heroically isolated figure Schm lders demonstrates how the adulation of Hitler s face stands at the conjunction of one line stretching back to the eighteenth century belief that character could be read in the contours of the head and another dating back to the late nineteenth century quest to sanctify German greatness in a gallery of national heroes In Nazi ideology nationalism was conjoined to a forceful belief in the determinative power of physiognomy The mad veneration of the idealized German face in all its various aspects and the fanatical devotion to Hitler s face in particular was but one component of a project that also encouraged the ceaseless contemplation of supposedly degenerate Jewish physical traits to advance its goals

Phillips, 2017-04-07 Twentieth century architect Frederick Kiesler's innovative multidisciplinary practice responded to the ever changing needs of the body in motion anticipating the research oriented practices of contemporary art and architecture In 1960 the renowned architect Philip Johnson championed Frederick Kiesler calling him the greatest non building architect of our time Kiesler's ideas were difficult to construct but as Johnson believed enormous and profound Kiesler 1890 1965 went against the grain of the accepted modern style rejecting rectilinear glass and steel in favor of more organic forms and flexible structures that could respond to the ever changing needs of the body in motion In Elastic Architecture Stephen Phillips offers the first in depth exploration of Kiesler's innovative and multidisciplinary research and design practice Phillips argues that Kiesler established a new career trajectory for architects not as master builders but as research practitioners whose innovative means and methods could advance alternative and speculative architecture Indeed Kiesler's own career was the ultimate uncompromising model of a research based practice Exploring Kiesler's formative relationships with the European avant garde Phillips shows how Kiesler found inspiration in the plastic arts experimental theater early animation and automatons to develop and refine his spatial concept of the Endless Moving from Europe to New York in the 1920s Kiesler applied these radical Dadaist constructivist and surrealist practices to his urban display projects which included shop windows for Saks Fifth Avenue After launching his innovative Design Correlation Laboratory at Columbia and Yale Kiesler went on to invent new houses theaters and galleries that were meant to move shift and adapt to

evolutionary changes occurring within the natural and built environment As Phillips demonstrates vividly although many of Kiesler s designs remained unbuilt his ideas proved influential to later generations of architects and speculative artists internationally including Archigram Greg Lynn UNStudio and Olafur Eliasson *Speech Disorders* Sara M.

imagination in late eighteenth and early nineteenth century literature and art It uncovers the palpable and pleasing anxiety about the human body in the works of Henry Fuseli William Blake and Mary Shelley focusing on the negotiations of pleasure and pain life and death beauty and monstrosity Each of the works examined revolves in some manner around the breakdown of an idealized body in order to illuminate the transition from organic to fragmented form This approach involves reorienting conventional accounts of Romanticism around the emergence of a visual paradigm Engaging with cultures of print aesthetic discourse anatomical art as well as natural historical knowledge circulating in England at the turn of the century Dark Romanticism cultivates visual literacy and argues that literary and pictorial elements are inseparable when imagination is at work **Professional Knowledge in Music Teacher Education** Pamela Burnard,2016-03-23 The complexity of the

social emotions of fellow feeling the sense of identity love and hatred and traces their relationship to one another and to the values with which they are associated Scheler criticizes other writers from Adam Smith to Freud who have argued that the sympathetic emotions derive from self interested feelings or instincts He reviews the evaluations of love and sympathy current in different historical periods and in different social and religious environments and concludes by outlining a theory

of fellow feeling as the primary source of our knowledge of one another A prolific writer and a stimulating thinker Max Scheler ranks second only to Husserl as a leading member of the German phenomenological school Scheler's work lies mostly in the fields of ethics politics sociology and religion He looked to the emotions believing them capable in their own quality of revealing the nature of the objects and more especially the values to which they are in principle directed The Indian Partition in Literature and Films Rini Bhattacharya Mehta, Debali Mookerjee-Leonard, 2014-12-17 This book presents an examination of fictional representations in books and films of the 1947 Partition that led to the creation of the sovereign nation states of India and Pakistan While the process of representing the Partition experience through words and images began in the late 1940s it is only in the last few decades that literary critics and film scholars have begun to analyse the work The emerging critical scholarship on the Partition and its aftermath has deepened our understanding of the relationship between historical trauma collective memory and cultural processes and this book provides critical readings of literary and cinematic texts on the impact of the Partition both in the Punjab and in Bengal The collection assembles studies on Anglophone writings with those on the largely unexplored vernacular works and those which have rarely found a place in discussions on the Partition It looks at representations of women's experiences of gendered violence in the Partition riots and how literary texts have filled in the lack of the human dimension in Partition histories The book goes on to highlight how the memory of the Partition is preserved and how the creative arts relation to public memory and its place within the public sphere has changed through time Collectively the essays present a nuanced understanding of how the experience of violence displacement and trauma shaped postcolonial societies and subjectivities in the Indian subcontinent Mapping the diverse topographies of Partition related uncertainties and covering both well known and lesser known texts on the Partition this book will be a useful contribution to studies of South Asian History Asian Literature and Asian Film
