Gate of the Heart Nader Saiedi, 2010-03-31 In 1844 a charismatic young Persian merchant from Shiraz known as the Báb electrified the Shīh world by claiming to be the return of the Hidden Twelfth Imam of Islamic prophecy But contrary to traditional expectations of

apocalyptic holy war the Báb maintained that the spiritual path was not one of force and coercion but love and compassion. The movement he founded was the precursor of the Bahá'í Faith but until now the Báb's own voluminous writings have been seldom studied and often misunderstood. *Gate of the Heart* offers the first in depth introduction to the writings of the Báb. Taking an interdisciplinary approach the author examines the Báb's major works in multifaceted context explaining the unique theological system, mystical world view and interpretive principles they embody as well as the rhetorical and symbolic uses of language through which the Báb radically transforms traditional concepts. Arguing that the Báb movement went far beyond an attempt at an Islamic Reformation the author explores controversial issues and offers conclusions that will compel a re-evaluation of some prevalent assumptions about the Báb's station, claims and laws. Nader Saiedi's meticulous and insightful analysis identifies the key themes, terms and concepts that characterize each stage of the Báb's writings, unlocking the code of the Báb's mystical lexicon. *Gate of the Heart* is a subtle and profound textual study and an essential resource for anyone wishing to understand the theological foundations of the Bahá'í religion and the Báb's significance in religious history. Co-published with the Association for Bahá'í Studies. *Stages and Discharges of the Mississippi River and Tributaries in the Vicksburg District* United States Army Corps of Engineers, 1968

A Genealogy of the Verse Novel Catherine Addison, 2017-11-06 The present age has seen an explosion of verse novels in many parts of the world. Australia is a prolific producer as are the USA and the UK. Novels in verse have also appeared in Canada, New Zealand, India, South Africa, Jamaica and several other countries. A novel written in verse contradicts theories that distinguish the novel as essentially a prose genre. The boundaries of prose and verse are however somewhat fluid. This is especially evident in the case of free verse poetry and the kinds of prose used in many Modernist novels. The contemporary outburst may seem a uniquely Postmodernist flouting of generic boundaries but in fact the verse novel is not new. Its origins reach back to at least the eighteenth century. Byron's *Don Juan* in the early nineteenth century was an important influence on many later examples. Since its first surge in popularity during the Victorian era it has never died out though some fine examples, most of them from the earlier twentieth century, have been neglected or forgotten. This book investigates the status of the verse novel as a genre and traces its mainly English language history from its beginnings. The discussion will be of interest to genre theorists, prosodists, narratologists and literary historians as well as readers of verse novels wishing for some background to this apparently new literary phenomenon.

A History of Christian Conversion David W. Kling, 2020-05-05 In this first in depth and wide ranging history of Christian conversion David Kling examines the dynamic of turning to the Christian faith by individuals, families and people groups. Global in reach and engaging recent methods and theories in conversion studies the narrative progresses from early Christian beginnings in the Roman world to Christianity's expansion into Europe, the Americas, China, India and Africa. Although conversion is often associated with a particular strand of modern Christianity, evangelical and a particular type of experience, sudden, overwhelming when examined over two millennia it emerges as a phenomenon far more complex than any
