Stiebel, 2014-12-18 Dress and fashion are powerful visual means of communicating ideology whether political social or religious From the communist values of equality simplicity and solidarity exemplified in the Mao suit to the myriad of fashion protests of feminists such as French revolutionary women s demand to wear trousers dress can symbolize ideological orthodoxy as well as revolt With contributions from a wide range of international scholars this book presents the first scholarly analysis of dress and ideology through accessible case studies Chapters are organized thematically and explore dress in relation to topics including nation identity religion politics and utopias across an impressive chronological reach from antiquity to the present day Dress Ideology will appeal to students and scholars of fashion history sociology cultural studies politics and gender studies *Political Frontiers, Ethnic Boundaries and Human Geographies in Chinese History* Nicola Di Cosmo, Don J Wyatt, 2005-08-16 The question of boundaries physical or political has become fertile ground in the analysis of Chinese history and society These essays cover the early decades of the Zhou dynasty to the early centuries after the Manchu conquest **The Making of Barbarians** Haun Saussy, 2024-12-17 A groundbreaking account of translation and identity in the Chinese literary tradition before 1850 with important ramifications for today Debates on the canon multiculturalism and world literature often take Eurocentrism as the target of their critique But literature is a universe with many centers and one of them is China The Making of Barbarians offers an account of world literature in which China as center produces its own margins Here Sinologist and comparatist Haun Saussy investigates the meanings of literary translation adaptation and appropriation on the boundaries of China long before it came into sustained contact with the West When scholars talk about comparative literature in Asia they tend to focus on translation between European languages and Chinese Korean and Japanese as practiced since about 1900 In contrast Saussy focuses on the period before 1850 when the translation of foreign works into Chinese was rare because Chinese literary tradition overshadowed those around it The Making of Barbarians looks closely at literary works that were translated into Chinese from foreign languages or resulted from contact with alien peoples The book explores why translation was such an undervalued practice in premodern China and how this vast and prestigious culture dealt with those outside it before a new group of foreigners Europeans appeared on

but in other genres as well including essays and letters drama religious writing and narrative fiction The authors have presented the selections within their respective biographical and historical contexts This comprehensive approach helps to clarify traditional Chinese ideas on the nature and function of literature as well as on the role of the woman writer

Murray, 2007-01-31 *Mirror of Morality* takes an interdisciplinary look at an important form of pictorial art produced during two millennia of Chinese imperial rule Ideas about individual morality and state ideology were based on the ancient teachings of Confucius with modifications by later interpreters and government institutions Throughout the imperial period members of the elite made sponsored and inscribed or used illustrations of themes taken from history literature and recent events to promote desired conduct among various social groups This dimension of Chinese art history has never before been broadly covered or investigated in historical context The first half of the study examines the nature of narrative illustration in China and traces the evolution of its functions conventions and rhetorical strategies from the second century BCE through the eleventh century Under the stimulus of Buddhism sophisticated techniques developed for representing stories in visual form While tracing changes in the social functions and cultural positions of narrative illustration the second half of the book argues that narrative illustration continued to play a vital role in elite visual culture **Citizens of Beauty** Louise Edwards, 2020-05-15 In the early twentieth century China s most famous commercial artists promoted new cultural and civic values through sketches of idealized modern women in journals newspapers and compendia called *One Hundred Illustrated Beauties* This genre drew upon a centuries old tradition of books featuring illustrations of women who embodied virtue desirability and Chinese cultural values and changes in it reveal the foundational value shifts that would bring forth a democratic citizenry in the post imperial era The illustrations presented ordinary readers with tantalizing visions of the modern lifestyles that were imagined to accompany Republican China s new civic consciousness *Citizens of Beauty* is the first book to explore the *One Hundred Illustrated Beauties* in order to compare social ideals during China s shift from imperial to Republican times The book contextualizes the social and political significance of the aestheticized female body in a rapidly changing genre showing how progressive commercial

Chinese Narrative Poetry Dore Jesse Levy, 1988 Chinese Narrative Poetry brings a new perspective to some of China's best loved and most influential poems including Ts'ai Yen's Poem of Affliction Po Chu-yi's Song of Everlasting Sorrow and Wei Chuang's recently discovered Song of the Lady of Ch'in. Composed in the shih form during the Late Han Six Dynasties and Tang periods these poems stand out as masterworks of narrative art. Yet paradoxically their narrative qualities have been little recognized or explored in either traditional Chinese or modern Western scholarship. The reason for this neglect is that Western literary traditions acknowledge their origins in epic poetry and thus take narrative for granted but the Chinese tradition is fundamentally based on lyric and does not admit of a separate category for narrative poetry. Drawing on both classical Chinese critical works and the most recent Western contributions to the theory of narrative Levy shows how narrative elements developed out of the lyrical conventions of shih. In doing so she accomplishes a double purpose guiding the modern reader to an understanding of the nature of narrative in Chinese poetry and shedding light on the ways in which Chinese poets adapted the devices of lyric to the needs of a completely different expressive mode. Students of Chinese literature will welcome this pathbreaking study but Chinese Narrative Poetry will interest other scholars as well because it addresses questions of crucial importance for literary theory and comparative literature particularly the central issue of the applicability of Western critical concepts to non-Western literature and culture

Reciting America Christopher Douglas, 2001 He explores how these novels and other texts confront national discourse and strive though with inconclusive results to open America up to new subject positions by offering alternatives to the dominant ideology. Douglas finds contemporary intellectual and political life against the backdrop of a mythology enshrined in proclamations pledges and public documents to be impoverished by the pervasive use of clichés which he identifies as figures of speech that stimulate emotion or action while shortcircuiting reflection. In its extreme clichéd form the American Dream consists of nothing more than advertising slogans and popular culture images yet these pronouncements retain a powerful hold on the will and imagination of U.S. citizens

On Telling Images of China Shane McCausland, Yin Hwang, 2013-11-01 The essays in this volume address a diverse range of issues in China's narrative art and visual culture mainly from the Ming dynasty 1368-1644 to the present. These studies attend to the complex ways in which images circulate in pictorial media and across boundaries between high art and popular culture images in paintings prints stone engravings and posters as well as in film and video art. In addition the authors examine the roles of ancient exemplary stories and textual narratives as well as their reiteration in the visual arts in early modern and modern social and political contexts. The volume is divided into three sections Representing Paradigms Interpreting Literary Themes and Narratives and the Medium and Modernity. While the essays in each section deal with

concerns in the field of China's art history an editor's introduction serves to position the topic of narrative art and to introduce definitions and genre issues which run through the book As a whole the volume invites reflection on the intrinsic nature of narratives and their pictorial lives and presents new research which challenges established views and paradigms

The Origins of the Chinese Nation Nicolas Tackett, 2017-11-30 In this major new study Nicolas Tackett proposes that the Northern Song Dynasty 960-1127 witnessed both the maturation of an East Asian inter-state system and the emergence of a new worldview and sense of Chinese identity among educated elites These developments together had sweeping repercussions for the course of Chinese history while also demonstrating that there has existed in world history a viable alternative to the modern system of nation-states Utilising a wide array of historical literary and archaeological sources chapters focus on diplomatic sociability cosmopolitan travel military strategy border demarcation ethnic consciousness and the cultural geography of Northeast Asia In this ground-breaking new approach to the history of the East Asian inter-state system Tackett argues for a concrete example of a pre-modern nationalism explores the development of this nationalism and treats modern nationalism as just one iteration of a phenomenon with a much longer history **Flowering in the Shadows** Marsha Smith Weidner, 1990-01-01 For well over a thousand years Chinese and Japanese women created commissioned collected and used paintings yet until recently this fact has scarcely been acknowledged in the study of East Asian art by Westerners
