Michael Brocken,Jeff Daniels,2018-09-15 This extensively researched text concerning the life and career of Liverpool born Black jazz musician Gordon Stretton not only contributes to the important debate concerning the transoceanic pathways of jazz during the 20th century but also suggests to the jazz fan and scholar alike that such pathways reaching as they also did across the Atlantic from Europe are actually part of a largely ignored therefore partially hidden history of 20th century jazz

performance industry and influence The work also exists to contribute to a more complete picture of the significance of diaspora studies across the spectrum of popular music performance and to award to those Liverpool musicians who were not contributors to the city's musical visage post rock n roll a place in popular music history Gordon Stretton was a jazz pioneer in several senses he emerged from a poverty stricken racially marginalized upbringing in Liverpool to develop a popular music career emblematic of Black diasporan experience He was a child dancer and singer in the Lancashire Lads the troupe which was also part of a young Charlie Chaplin's development a well respected solo touring artist in the UK as The Natural Artistic Coon a chorister and musical director with the Jamaican Choral Union and having encountered syncopated music a jazz percussionist multi instrumentalist and vocalist not to mention a ground breaking bandleader All of these musical experiences took place through time on his own terms as he learnt his craft on the hoof via many different encounters with musical genres from Liverpool to London Paris Brussels Rio and Buenos Aires Gordon Stretton was truly a transoceanic jazz pioneer

A World of Popular Entertainments Gillian Arrighi, Victor Emeljanow, 2012-03-15 This groundbreaking volume of critical essays about popular entertainments brings together the work of eighteen established emerging and independent scholars with backgrounds in Archives Theatre and Performance Music and Historical Studies currently working across five continents The first of its kind to examine popular entertainments from a global and multi disciplinary perspective this collection examines a broad cross section of historical and contemporary popular entertainment forms from Australia England Japan North America and South Africa and considers their social cultural and political significance Despite the vibrant complex and ubiquitous nature of popular entertainments the field has suffered from a lack of sustained academic attention Nevertheless popular entertainments have a global reach and a transnational significance at odds with the fact that the meaning and definition of both popular and entertainment remain widely contested Since the late nineteenth century class based prejudices in Western culture have championed the superiority of art and literature over the dubious and fleeting pleasures of entertainment Similarly the term popular has carried pejorative connotations indicating something common and outside the conventional and highbrow productions of the

purpose built theatre house or concert hall Irrespective of whether popular is code for a cultural product with a folk origin or a term indicating the mass appeal of a cultural product this volume s re assessment of popular entertainments from a global perspective is timely The performance research embodied in this volume was first discussed at A World of Popular Entertainments International Conference University of Newcastle Australia 2009 in response to a multi disciplinary call for scholars to explore a variety of topics relevant to the study of popular entertainments
