achieve a life of balance fulfillment and meaningful relationships Step into a world of self discovery empathy and mastery with this transformative collection by Rae A Stonehouse *Decide Well:: Tools for Effective Decision Making* Amol Kindre,2023-12-19 In the intricate tapestry of life decisions are the threads that weave our unique stories But making choices can be a daunting task requiring a blend of insight analysis and clarity Decisive Tools Navigating Choices with Confidence is your indispensable guide to mastering the art of effective decision making This eBook is your passport to a world of tools and techniques designed to demystify decision making Whether you re facing dilemmas in your personal life steering through the complexities of business choices or seeking strategies for optimal problem solving this guide equips you with a diverse set of tools that transform decisions from challenges into opportunities **Tarot for the Green Witch** Ann Moura,Aoumiel,2003 From the author of the Green Witchcraft series comes a unique approach to using the Tarot as a spiritual tool for channeling energy and communicating with the Divine Utilizing themes and images from Natural Witchcraft this book takes readers step by step through the Major and Minor arcana Illustrations *Emotions, Decision-Making and Mass Atrocities* Olaoluwa Olusanya,2016-05-06 This book rehumanizes perpetrators of mass atrocities At present a victim perpetrator dichotomy appears to be the dominant paradigm perpetrators have either been mechanistically dehumanized that is perceived as unemotional hard hearted and conforming and thereby lacking the core features of human nature or alternatively they have been animalistically dehumanized In other words they are seen as immoral unintelligent lacking self control and likened to animals Within sociology and criminology the dominant view is that genocide and other mass atrocities are committed by technologically lobotomized perpetrators Somehow the process of rationalization is believed to have transformed these people from emotionally healthy people into hollow soulless shells of human beings or zombies devoid of a full range of normal emotions These people are considered bereft of any ability to reason think or feel yet ambulant and able to respond to surrounding stimuli However it is difficult to imagine crime especially those involving a group of people working together for the duration of a particular criminal activity without emotions For instance there is ample evidence suggesting that both crimes of passion and pre meditated crimes involve emotional arousal Furthermore research in fields such as evolutionary biology psychology and sociology of work and organizations suggest that emotions are essential for human progress and survival In addition emotions help us make the right call in risky and uncertain situations in other words the majority of real life situations There is therefore a need to revisit existing assumptions around the role of emotions in mass atrocities

Neuroscience and the Economics of Decision Making Alessandro Innocenti,Angela Sirigu,2013-06-19 In the last two decades there has been a flourishing research carried out jointly by economists psychologists and neuroscientists This meltdown of competences has lead towards original approaches to investigate the mental and cognitive mechanisms involved in the way the economic agent collects processes and uses information to make choices This research field involves a new kind of scientist trained in different disciplines familiar in managing experimental data and with the mathematical

foundations of decision making The ultimate goal of this research is to open the black box to understand the behavioural and neural processes through which humans set preferences and translate these behaviours into optimal choices This volume intends to bring forward new results and fresh insights into this matter
