MANUAL FOR EMERGING ARCHITECTS wonderland platform for european architecture, Silvia Forlati, Anne Isopp, 2018-11-05 In den ersten fünf Jahren eines neuen Architekturbros entstehen typische Probleme die bewältigt werden müssen Basierend auf den Erfahrungsberichten junger Architekturbros die europaweit in Workshops eingeholt wurden analysiert dieses Handbuch bereinstimmend beobachtete häufig auftretende Problemfälle und bietet Ansätze zu deren Lösung Das Besondere sie wurden aus der täglichen Arbeitspraxis heraus entwickelt und sind real umsetzbar auch weil sie auf die verschiedenen Aufbauphasen ausgerichtet wurden Getting started Making mistakes Going Public Getting specialized und Making competitions Für die zweite Auflage wurden die Texte ergänzt und korrigiert Statistiken und Charts aktualisiert Das flotte Erscheinungsbild bleibt so ansprechend wie in der ersten Auflage **Constructing a Place of Critical Architecture in China** Guanghui Ding, 2016-03-09 For the past 30 years The Chinese journal Time Architecture Shidai Jianzhu has focused on publishing innovative and exploratory work by emerging architects based in private design firms who were committed to new material theoretical and pedagogical practices In doing so this book argues that the journal has engaged in the presentation and production of a particular form of critical architecture described as an intermediate criticality as a response to the particular constraints of the Chinese cultural and political context The journal's publications displayed a dual critique a resistant attitude to the dominant modes of commercial building practice characterised by rapid and large scale urban expansion and an alternative publishing practice focusing on emerging independent architectural practitioners through the active integration of theoretical debates architectural projects and criticisms This dual critique is illustrated through a careful review and analysis of the history and programme of the journal By showing how the work of emerging architects including Yung Ho Chang Wang Shu Liu Jiakun and Urbanus are situated within the context of the journal's special thematic editions on experimental architecture exhibition group design new urban space and professional system the book assesses the contribution the journal has made to the emergence of a critical architecture in China in the context of how it was articulated debated presented and perhaps even produced within the pages of the publication itself The protagonists of critical architecture have endeavoured to construct an alternative mode of form and space with strong aesthetic and socio political implications to the predominant production of architecture under the current Chinese socialist market economy To rebel against certain forms of domination and suppression by capital and power is by no means to completely reject them rather it is to use them **The Rise of Awards in Architecture** Jean-Pierre Chupin, Carmela Cucuzzella, Georges Adamczyk, 2022-09-06 This book is the first scientific study to focus on awards in architecture and the built environment investigating their exponential growth since the 1980s The celebration of excellence in architecture and related fields remains a phenomenon on which there is strangely little scientific scrutiny What is to be understood from the plethora of

award winning projects award winning buildings and awarded professional practices in the built environment year after year Glossy images partake in an intense ballet at every local regional national or international award ceremony and they are meant to embody proofs of architectural excellence However it is necessary to take a critical distance to question what awards are meant to embody symbolize and perhaps measure Each of the 10 chapters in this volume is centered on one question related to themes as varied as the comparison of Pritzker and Nobel Prizes the Prix de Rome the redefinition of quality through awards green awards and sustainability the multiplication of sustainable awards heritage awards architecture book awards the awarding of school architecture awards as mediations and awards as pedagogical devices Many fields once consolidated have featured a sharp increase in related prizes The original data compiled and summarized in 4 appendices cover more than 150 award granting organizations in some 30 countries Our inventory includes upwards of 24 000 prizes awarded at more than 3 100 events the earliest of which is the first instance of Western architecture s seminal Grand Prix de Rome in France in 1720 A history of contemporary architecture is thus written through press releases that praise the merits of the heroes as much as their works and achievements And while awards can be vehicles that propel architecture forward they can also be Trojan horses in an era that is constantly on the lookout for event driven products small and big news and brand imaging

Jugendstil Women and the Making of Modern Design Sabine

Wieber,2021-10-21 Jugendstil that is Germany's distinct engagement with the international Art Nouveau movement is now firmly engrained in histories of modern art architecture and design Recent exhibitions and publications across the world explored Jugendstil's key protagonists and artistic centres to firmly anchor their activities within the trajectories of German modernism Women however continue to be largely absent from these revisionist accounts Jugendstil Women and the Making of Modern Design argues that women in fact actively participated in the cultural and socio economic exchanges that generated German design responses to European modernity By drawing on previously unpublished archival material and a series of original case studies including Elsa Bruckmann's Munich salon the Photo Studio Elvira and the Debschitz School the book explores women's important contributions to modern German culture as collectors consumers critics designers educators and patrons This book offers a new interpretation of this vibrant period by considering diverse manifestations of historical female agency that pushed against historically entrenched conventions and gender roles The book's rigorous approach reshapes Jugendstil historiography by positing women's lived experiences against dominant ideologies that emerged at this precise moment In short the book advocates women as an integral part of the emergence dissemination and reception of Jugendstil and questions the deeply gendered histories of this key period in modern art architecture and design

Architecture's Evil Empire? Miles Glendinning, 2010-10-15 From Chicago to Toronto to Shanghai cities around the world have sprouted iconic buildings by celebrity architects like Frank Gehry and Daniel Libeskind that compete for attention both on the skyline and in the media But in recent years criticism of these extreme gestural structures known for their often exaggerated forms has been growing Miles Glendinning's impassioned polemic Architecture's Evil Empire looks at how today's trademark architectural individualism stretches beyond the well known works and ultimately extends to the entire built environment Glendinning examines how the global empire of the current modernism emerged particularly in relation to the excesses of global capitalism and explains its key organizational and architectural features placing its most influential theorists and designers in a broader context of history and artistic movements Arguing against the excesses of iconic architecture Glendinning advocates a vision of modern renewal that seeks to remedy the shattered and alienated look he sees in contemporary architecture Mingling scholarship with wry humor and a genuine concern for the state of architecture Architecture's Evil Empire will raise many heated debates and appeal to a wide range of readers from architects to historians interested in the built environment

Kotsioris, Anna-Maria Meister,2022-05-31 Experiments in architectural education in the post World War II era that challenged and transformed architectural discourse and practice In the decades after World War II new forms of learning transformed architectural education These radical experiments sought to upend disciplinary foundations and conventional assumptions about the nature of architecture as much as they challenged modernist and colonial norms decentered building imagined new roles for the architect and envisioned participatory forms of practice Although many of the experimental programs were subsequently abandoned terminated or assimilated they nevertheless helped shape and in some sense define architectural discourse and practice This book explores and documents these radical pedagogies and efforts to defy architecture s status quo The experiments include the adaptation of Bauhaus pedagogy as a means of unlearning under the conditions of decolonization in Africa a movement to design for every body including the disabled by architecture students and faculty at the University of California Berkeley the founding of a support network for women interested in the built environment regardless of their academic backgrounds and a design studio in the USSR that offered an alternative to the widespread functionalist approach in Soviet design Viewed through their dissolution and afterlife as well as through their founding stories these projects from the last century raise provocative questions about architecture s role in the new century

Madam C. J. Walker Erica L. Ball,2021-01-29 An exhaustively detailed account of the life of Madam C J Walker Booklist Starred Review Madam C J Walker reputed to be America s first self made woman millionaire has long been celebrated for her rags to riches story Born to former slaves in the Louisiana Delta in the aftermath of the Civil War married at fourteen and widowed at twenty Walker spent the first decades of her life as a laundress laboring in conditions that paralleled the lives of

countless poor and working class African American women By the time of her death in 1919 however Walker had refashioned herself into one of the most famous African American figures in the nation the owner and president of a hair care empire and a philanthropist wealthy enough to own a country estate near the Rockefellers in the prestigious New York town of Irvington on Hudson In this biography Erica Ball places this remarkable and largely forgotten life story in the context of Walker s times Ball analyzes Walker s remarkable acts of self fashioning and explores the ways that Walker and the Walker brand enabled a new generation of African Americans to bridge the gap between a nineteenth century agrarian past and a twentieth century future as urban dwelling consumers

Confessions of a Country Architect Don Metz,2007 Reminiscent of James Herriot s All Creatures Great and Small Don Metz s Confessions describe the life of a domestic country architect with warm wry humor and often slapstick pathos This book will delight all those who have built a house forearm those summoning up the courage to do so and calm those who realize their talents might be better confined to an armchair with a view Readers will be seduced by the author s adventures as he confronts the awkward intractable and hilariously messy job of building dreams

The Architecture of Paul Rudolph Timothy M. Rohan,2014-07-10 Equally admired and maligned for his remarkable Brutalist buildings Paul Rudolph 1918 1997 shaped both late modernist architecture and a generation of architects while chairing Yale s department of architecture from 1958 to 1965 Based on extensive archival research and unpublished materials The Architecture of Paul Rudolph is the first in depth study of the architect neglected since his postwar zenith Author Timothy M Rohan unearths the ideas that informed Rudolph s architecture from his Florida beach houses of the 1940s to his concrete buildings of the 1960s to his lesser known East Asian skyscrapers of the 1990s Situating Rudolph within the architectural discourse of his day Rohan shows how Rudolph countered the perceived monotony of mid century modernism with a dramatically expressive architecture for postwar America exemplified by his Yale Art and Architecture Building of 1963 famously clad in corrugated concrete The fascinating story of Rudolph s spectacular rise and fall considerably deepens longstanding conceptions about postwar architecture Rudolph emerges as a pivotal figure who anticipated new directions for architecture ranging from postmodernism to sustainability
