Emerging Issues In Forest Policy

John Ise

Emerging Issues In Forest Policy:

Emerging Issues in Forest Policy Peter N. Nemetz, 1992 Throughout history forests have played a central role in the development of human civilization providing everything from fuel and structural materials to a multitude of paper products. It is however becoming increasingly apparent that the forests and their wealth of resources bear directly upon many of the most pressing social, economic and environmental concerns of our time. This volume draws together forty of the foremost experts in forest policy to address the diverse range of issues which characterize the intimate relationship between forests and humankind. These include the regional and global environment, timber supply, competitiveness and international trade, social impacts, multiple and competing resource use and the Third World. Five critical questions summarize the focus of this work: To what extent is the direct utilization of forests contributing to the decline of this vital resource and how does the loss of global forests affect essential components of our ecosystem? How can we formulate and implement policies which will guarantee the continued supply of adequate forest resources for this and future generations and in particular how critical are societal concepts of ownership and tenure to the achievement of this goal? How crucial are technological change and international trade in sustaining a healthy forest sector and dependent economy? How can we remedy the negative social impacts of our forest economy and integrate the management of our forests with other resources essential to human welfare? What are the central issues that affect forest practice and utilization in the Third World? This comprehensive and timely book sheds light on many of the fundamental questions affecting one of the world's most important resources.

Forestry Policies in the Caribbean Food and Agriculture Organization of the United Nations, 1998-01-01 [Forestry Policies of Selected Countries in Africa](#) Food and Agriculture Organization of the United Nations, 1996-01-01 [Proceedings of a Regional Expert Consultation on Forestry Policies in Africa](#) Accra Ghana October 1995 Parallel texts in English French [Research in Forest Economics and Forest Policy](#) Marion Clawson, 2021-10-29 In order to fill a growing need for research into forestry issues, Resources for the Future held a symposium in 1977. Originally published in the same year, all papers in this collection were written specifically for this symposium to highlight the most important forestry issues including pricing, policy, supply and demand, and the role of the public and private forestry sector. This title will be of interest to Environmental Students and professionals.

The United States Forest Policy John Ise, 1920 Published on the foundation established in memory of William McKean Brown. Bibliography p. 378-385.

Sustainable Forestry: Emerging Challenges A.K. Kandy, 2007-05-01 Forests are critical for sustainable development, environment and also for livelihood. They provide a wealth of goods and services that are essential for people's lives, cash income and green economy. Maintaining and enhancing our planet's forest resources is essential if we are to succeed in the global efforts to alleviate poverty, address water scarcity and biodiversity loss, and mitigate climate change. Culturally and historically, the intrinsic value of forests and the spiritual and sacred use of forests have great importance to local communities and our cultural identity. This book on Sustainable Forestry Emerging

Challenges written by experienced academicians scientists and other researchers shows the present ongoing initiatives in the country to address sustainable forestry and its management An estimated 230 million people in India rely on forests for their livelihoods to some degree including some 60 million indigenous people and other forest dwelling communities While more than two billion people the developing world s population use fodder biomass fuels mainly firewood to cook food and large number of non timber forest products for their day to day needs

Insights from Participatory Prospective Analysis (PPA) workshops in Nepal Banjade, M.R.,Paudel, N.S.,Mwangi, E.,2020-01-31 Key messagesAs Nepal goes through a process of creating a new decentralized federal system of government a CIFOR ForestAction project used Participatory Prospective Analysis a foresight method for co elaborating future scenarios and developing strategies to understand emerging issues and to bring the issues and scenarios to forest policy making at the provincial and federal levels Forestry experts identified several external factors likely to impact the rights of community forest user groups under the new federal structure These factors include national legal frameworks macroeconomic policies the emergence of new sub national governments and a changing political context Experts also considered how the future of community forestry might be influenced by internal factors such as the rules of community forest user groups governance arrangements strategies plan implementation conflict management systems and relationships with local governments To strengthen the rights of community forest user groups experts recommended the following the adoption of good governance principles in community forest user groups networking and capacity building a strengthening of relationships with local government and other stakeholders the use of improved technology forest based enterprise development and poverty reduction Participatory Prospective Analysis was found to be a good methodological tool for effective planning and participants thought it could improve local environmental planning With some customization and contextual refinement it can be adopted by community forestry groups local government ward offices and municipalities to assist Nepal s forestry sector in its transition to a decentralized system

Assessing the Impacts of Climate Change on Natural Resource Systems Kenneth D. Frederick,Norman J. Rosenberg,2012-12-06 This volume characterizes the current state of natural science and socioeconomic modeling of the impacts of climate change and current climate variability on forests grasslands and water It identifies what can be done currently with impact assessments and suggests how to undertake such assessments Impediments to linking biophysical and socioeconomic models into integrated assessments for policy purposes are identified and recommendations for future research activities to improve the state of the art and remove these impediments to model integration are provided This book is for natural and social scientists with an interest in the impacts of climate change on terrestrial and aquatic ecosystems and their socioeconomic impacts and policy makers interested in understanding the status of current assessment capabilities and in identifying priority areas for future research

Textbook of Forest Science Asim Kumar Mandal,Abel Nicodemus,2025-02-14 This textbook presents the latest knowledge on various disciplines of forestry science presented in 39

chapters Each chapter presents a reappraisal of theory and practice applications and future scope of subject area It is a single point reference for updated information on both traditional and contemporary areas of forestry Some of the disciplines covered in the book are biotechnology remote sensing forest certification forest management forest hydrology climate change plantation and urban forestry biodiversity and genetic resources conservation wildfire science seed science and quality seed production and ecosystem services The book primarily serves as an advanced textbook of forest science for students of forestry at all levels The science of forestry is receiving much more attention of the researchers policy makers and public than ever before because of growing awareness of vital importance of forests in amelioration of world environment This book is a comprehensive collection of existing and new methods including outcome and future possibilities of forest science This book benefits undergraduate and postgraduate students professional researchers teachers practicing foresters and policy planners The book also encourages the public to understand the relevance of forest science to overcome the contemporary economic and environmental challenges

Power Dynamics in African Forests Symphorien

Ongolo,Max Krott,2023-12-15 This book addresses historical perspectives and contemporary challenges of the politics of forestland governance and the related sustainability crisis in Africa It focusses on the power dynamics between key actors involved in the governance of forest related resources either for their exploitation or with regards to biodiversity conservation policies promoted at international arenas The book provides conceptual and empirical contributions on what happens when global sustainability agendas and the related policy instruments meet the realities of domestic politics in Africa It reveals that several actors in forest rich countries especially those with limited sovereignty have often employed complex informal strategies as the weapon of the weak to resist the domination of the most powerful actors of global environmental politics The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Sustainable Forest Management

John L. Innes,Anna V. Tikina,2016-12-19 Sustainable Forest Management provides the necessary material to educate students about forestry and the contemporary role of forests in ecosystems and society This comprehensive textbook on the concept and practice of sustainable forest management sets the standard for practice worldwide Early chapters concentrate on conceptual aspects relating sustainable forestry management to international policy In particular they consider the concept of criteria and indicators and how this has determined the practice of forest management taken here to be the management of forested lands and of all ecosystems present on such lands Later chapters are more practical in focus concentrating on the management of the many values associated with forests Overall the book provides a major new synthesis which will serve as a textbook for undergraduates of forestry as well as those from related disciplines such as ecology or geography who are taking a course in forests or natural resource management

General Technical Report

NC. ,1981 **China's Forests** William F. Hyde,Brian Belcher,Jintao Xu,2015-09-16 Forestry and Forest Policy are key

issues for the protection of China's natural environment and for its continued economic development Originally published in 2003 the contributors to this title review the successes of China's forest policies and the growth of its forests over the past quarter century and examine the challenges facing China's forests and rural environment China's Forests Global Lessons from Market Reforms is a valuable resource for students interested in environmental studies international forest policy and the modern development of China Rules, Rules, Rules, Rules G. Bruce Doern, Robert Johnson, 2006-01-01 Rules Rules Rules Rules considers various sectors where rule making spans all or most of the four levels of jurisdiction international federal provincial and city or local in areas such as food safety investment and trade forestry drinking water oil and gas and emergency management *The World Bank Forest Strategy*, 2000-01-01 This report assesses progress since the World Bank first issued its comprehensive Forest Strategy in 1991 It finds that the effectiveness of the strategy has been modest and the sustainability of its impact is uncertain The Report identifies seven factors that would make the World Bank forest strategy more pertinent to current circumstances as well as strengthening its ability to achieve its strategic objectives in the forest sector It recommends that the World Bank use its global reach to address mechanisms for mobilisation of concessional international resources outside its normal lending activities It also advises the World Bank to be proactive in establishing partnerships with all relevant stakeholders governments the private sector and civil society to meet both its country and global roles The focus on primary tropical moist forests should be broadened to include all types of natural forests of national and global value The report suggests that illegal logging needs to be reduced through the promotion of improved governance and enforcement Other recommendations are to give consideration to forest issues in all relevant sector activity and macroeconomic work address the employment needs of all poor people while continuing to protect the rights of indigenous people and to realign the World Bank resources with their objectives in the forest sector *Australian Forestry*, 2004

Forestry and the New Institutional Economics Sen Wang, G. Cornelis van Kooten, 2018-02-06 This title was first published in 2001 Using a case study from British Columbia this book addresses the economies of institutions institutional change and transactions costs and develops the theory of the New Institutional Economics in the context of forestry institutions This approach to economic analysis of forestry investment problems will emphasize the understanding of the linkages between the biological as well as institutional attributes of forestry activities **The 1988 Symposium on Systems Analysis in Forest Resources**, 1988 Case Studies on Access and Benefit-sharing, **Environmental Policy, Governance and Politics** Prakash Chand Kandpal, 2024-07-26 This book traces the development environment discourse in India and examines the multi-layered interaction between society and nature in the light of the role of the state judiciary and the civil society Through an array of perspectives the volume challenges the conventional approach to understanding the environmental politics in South Asia without considering the role of the civil society and other informal actors which has radically altered the conventional articulation of the phenomenon The volume underlines distinct structural characteristics of developmental politics in India

and the social concerns and challenges which come in the way of environmental policy and governance in India It is a meaningful intervention in unearthing significant socio political and economic processes which are critical to the environmental governance in India The book will not only be helpful in studying the state of policy administration and politics of environmental discourse in India but also guide the policymakers to explore the sustainable ways of environmental governance in South Asia Insightful and lucid this book will be useful to the students researchers and faculty working in the field of political science public administration public policy political sociology political economy and governance studies It will also be an invaluable and interesting reading for those interested in South Asian studies
