The Emperor's Clothes Ryan Darwish,2007-02-19 There is little dispute that the economy of the United States has many difficult future challenges The astronomical budget deficits require massive and growing indebtedness to fund The loss of competitive advantage of many key industries in the United States has led to a hemorrhaging of dollars to countries such as China India and the oil producing countries An aging population poorly prepared for their retirement years with declining health will lead to increasing claims on our Federal entitlement system Corruption ethical malfeasance and engagement in an endless war

against a poorly defined enemy promises to continue draining the productive economic emotional and psychological resources of the United States At the same time the United States remains dependent for its energy supplies on countries and regions which do not look favorably upon the United States Consideration of the implications of these circumstances upon one s personal financial and investment decisions is crucial This book provides a framework and guidance for thinking about the risks and opportunities in this economic and investment climate

America's Geisha Ally Naoko Shibusawa,2010-01-01 During World War II Japan was vilified by America as our hated enemy in the East Though we distinguished good Germans from the Nazis we condemned all Japanese indiscriminately as fanatics and savages As the Cold War heated up however the U S government decided to make Japan its bulwark against communism in Asia But how was the American public made to accept an alliance with Japan so soon after the Japs had been demonized as subhuman bucktoothed apes with Coke bottle glasses In this revelatory work Naoko Shibusawa charts the remarkable reversal from hated enemy to valuable ally that occurred in the two decades after the war While General MacArthur s Occupation Forces pursued our nation s strategic goals in Japan liberal American politicians journalists and filmmakers pursued an equally essential though long unrecognized goal the dissemination of a new and palatable image of the Japanese among the American public With extensive research from Occupation memoirs to military records from court documents to Hollywood films and from charity initiatives to newspaper and magazine articles Shibusawa demonstrates how the evil enemy was rendered as a feminized submissive nation as an immature youth that needed America s benevolent hand to guide it toward democracy Interestingly Shibusawa reveals how this obsession with race gender and maturity reflected America s own anxieties about race relations and equity between the sexes in the postwar world America s Geisha Ally is an exploration of how belligerents reconcile themselves in the wake of war but also offers insight into how a new superpower adjusts to its role as the world s preeminent force

The Emperor's Mirror Russell J. Barber,Frances Berdan,1998-10 Russell J Barber and Frances F Berdan have created the ultimate guide for anyone doing cross cultural and or document driven research Presenting the essentials of primary source methodology The Emperor s Mirror includes nine chapters on paleography calendrics source and quantitative analysis and the visual interpretation of artifacts such as pictographs illustrations and maps As an introduction to ethnohistory this book clearly defines terminology and provides practical and accessible examples effectively integrating the concerns of historians and anthropologists as well as addressing the needs of anyone using primary sources for research in any academic field A leading theme throughout the book is the importance of a researcher s awareness of the inherent biases of documents while doing research on another culture Documents are the result of people interpreting reality through the filter of their own experience personality and culture

Barber and Berdan's reality mediation model shows students how to analyze documents to detect the implicit biases or subtexts inherent in primary source materials. Students and scholars working with primary sources will particularly appreciate the case studies that Barber and Berdan use to illustrate the practical implications of using each methodology. These case studies not only apply method to actual research but also are fascinating in their own right; they range from a discussion of the debate over Tupinamba cannibalism to the illustration of Nahuatl Spanish and hybrid place names of Tlaxcala, Mexico.

America's Japan Grant Kohn Goodman, 2005. This book is not only a personal chronicle of Grant Goodman's unique experience in Japan. Moving deftly between his role as an Army officer gathering essential information and as a young scholar fascinated by Japanese culture, he provides a vividly drawn portrait of daily life in occupied Tokyo. Here he looks back at signal events: Japan's responses to occupation, the writing of the new constitution, and the deification of the Emperor, the International Military Tribunal, and the issue of Japanese war crimes, reactions by ordinary Japanese to American occupiers, and much more.

America's Entangling Alliances Jason W. Davidson, 2020-11-02. America's Entangling Alliances challenges the belief that the US resists international alliances. By documenting thirty-four alliances categorized as defense pacts, military coalitions, or security partnerships, Davidson finds that the US demand for allies is best explained by looking at variance in its relative power and the threats it has faced.

Papers Relating to the Treaty of Washington [between the U.S. and Great Britain, May 8, 1871], 1872. **The American Review of Reviews** Albert Shaw, 1912. **Culture, Crisis and America's War on Terror** Stuart Croft, 2006-09-14. Since the infamous events of 9/11, the fear of terrorism and the determination to strike back against it has become a topic of enormous public debate. The war on terror discourse has developed not only through American politics but via other channels including the media, the church, music, novels, films, and television, and therefore permeates many aspects of American life. Stuart Croft suggests that the process of this production of knowledge has created a very particular form of common sense which shapes relationships, jokes, and even forms of tattoos. Understanding how a social process of crisis can be mapped out and how that process creates assumptions allows policy making in America's war on terror to be examined from new perspectives. Using IR approaches together with insights from cultural studies, this book develops a dynamic model of crisis which seeks to understand the war on terror as a cultural phenomenon.
