*Unpacking the Kists* Brad Patterson, Tom Brooking, Jim McAloon, 2013-11-01 Historians have suggested that Scottish

influences are more pervasive in New Zealand than in any other country outside Scotland yet curiously New Zealand's Scots migrants have previously attracted only limited attention. A thorough and interdisciplinary work, *Unpacking the Kists* is the first in-depth study of New Zealand's Scots migrants and their impact on an evolving settler society. The authors establish the dimensions of Scottish migration to New Zealand, the principal source areas, the migrants' demographic characteristics, and where they settled in the new land. Drawing from extended case studies, they examine how migrants adapted to their new environment and the extent of longevity in diverse areas, including the economy, religion, politics, education, and folkways. They also look at the private worlds of family, neighbourhood, community, customs of everyday life, and leisure pursuits, and expressions of both high and low forms of transplanted culture. Adding to international scholarship on migrations and cultural adaptations, *Unpacking the Kists* demonstrates the historic contributions Scots made to New Zealand culture by retaining their ethnic connections and at the same time interacting with other ethnic groups.

*The Empress of Art* Susan Jaques, 2016-04-15. A German princess who married a decadent and lazy Russian prince, Catherine mobilized support amongst the Russian nobles, playing off of her husband's increasing corruption and abuse of power. She then staged a coup that ended with him being strangled with his own scarf in the halls of the palace, and herself crowned the Empress of Russia. Intelligent and determined, Catherine modeled herself off of her grandfather-in-law, Peter the Great, and sought to further modernize and westernize Russia. She believed that the best way to do this was through a ravenous acquisition of art, which Catherine often used as a form of diplomacy with other powers throughout Europe. She was a self-proclaimed glutton for art, and she would be responsible for the creation of the Hermitage, one of the largest museums in the world, second only to the Louvre. Catherine also spearheaded the further expansion of St. Petersburg, and the magnificent architectural wonder the city became is largely her doing. There are few women in history more fascinating than Catherine the Great, and for the first time, Susan Jaques brings her to life through the prism of art.

**Consumption and Advertising in Eastern Europe and Russia in the Twentieth Century** Magdalena Eriksroed-Burger, Heidi Hein-Kircher, Julia Malitska, 2023-02-27. This book explores Eastern European consumer cultures in the twentieth century, taking a comparative perspective and conceptualizing the peculiarities of consumption in the region. Contributions cover lifestyles and marketing strategies in imperial contexts in the late nineteenth and early twentieth centuries, urban consumer cultures in the Interwar Period, and consumer and advertising cultures in the Soviet Union and its satellite republics. It traces the development of marketing throughout the century and the changes in society brought about by democratization and the Americanization of consumption. Taken together, the essays gathered here make a valuable contribution to our understanding of consumption and advertising in the region.
