**Empire, Enslavement, and Freedom in the Caribbean** Michael Craton, 1997 Selecting training and managing the scientists engineers and technologists who develop new products and apply new technologies is a critical challenge for managers and policymakers worldwide Nine analysts from universities and research centers in four major industrialized nations find that while companies maintain distinctive approaches to managing their R D workers the pressures of technological change and global competition are forcing them to rethink the entire operation To be taken into consideration now are such factors as group dynamics intra and intercompany linkages research authority and flexibility research sources career paths reward systems and personal and team development all of which are covered here An unusual comparative study for top management and their human resource and planning staffs and for academics concerned with all aspects of organizational behavior training and development The scientists engineers and technologists who develop new products and apply new technologies collectively the R D workers are vital in today s competitive and technologically demanding business environment Of critical importance is how these R D workers are selected trained and managed and how their activities are linked to other aspects of production Using a variety of methods eight analysts from the International Research Group on R D Management a unique interdisciplinary group of researchers from universities and research centers in four major industrialized nations examine the organization and management of R D workers in and between their respective countries Drawing on data provided by more than 1 800 engineers and scientists in 23 companies the authors find that while companies maintain distinctive approaches to managing their R D workers the pressures of technological change and global competition are forcing them to rethink their R D methods To be taken into consideration now are such factors as the underlying technical skills of the workers group dynamics intra and intercompany linkages research authority and flexibility research resources career paths reward systems and personal and team development all of which are covered here succinctly and readably The result is a useful comparative study for top management and their human resource and planning staffs R D policymakers and those concerned with all aspects of organizational behavior training and development *Troubling Freedom* Natasha Lightfoot, 2015-11-19 In 1834 Antigua became the only British colony in the Caribbean to move directly from slavery to full emancipation Immediate freedom however did not live up to its promise as it did not guarantee any level of stability or autonomy and the implementation of new forms of coercion and control made it in many ways indistinguishable from slavery In *Troubling Freedom* Natasha Lightfoot tells the story of how Antigua s newly freed black working people struggled to realize freedom in their everyday lives prior to and in the decades following emancipation She presents freedpeople s efforts to form an efficient workforce acquire property secure housing worship and build independent communities in response to elite prescriptions for acceptable behavior and oppression Despite its continued efforts Antigua s black population failed to convince whites that its members were worthy of full economic and political inclusion By

highlighting the diverse ways freedpeople defined and created freedom through quotidian acts of survival and occasional uprisings Lightfoot complicates conceptions of freedom and the general narrative that landlessness was the primary constraint for newly emancipated slaves in the Caribbean

**Lucky Valley** Catherine Hall,2024-02-22 Why does Edward Long's History of Jamaica matter Written in 1774 Long's History that most civilised of documents attempted to define White and Black as essentially different and unequal Long deployed natural history and social theory carefully mapping the island and drawing on poetry and engravings in his efforts to establish a clear and fixed racialized hierarchy His White family sat at the heart of Jamaican planter society and the West India trade in sugar which provided the economic bedrock of this eighteenth century system of racial capitalism Catherine Hall tells the story behind the History of a slave owning family that prospered across generations together with the destruction of such possibilities for enslaved people She unpicks the many contradictions in Long's thinking exposing the insidious myths and stereotypes that have poisoned social relations over generations and allowed reconfigured forms of racial difference and racial capitalism to live on in contemporary societies

Rodriguez, 2015-03-26 The struggle to abolish slavery is one of the grandest quests and central themes of modern history These movements for freedom have taken many forms from individual escapes violent rebellions and official proclamations to mass organizations decisive social actions and major wars Every emancipation movement whether in Europe Africa or the Americas has profoundly transformed the country and society in which it existed This unique A Z encyclopedia examines every effort to end slavery in the United States and the transatlantic world It focuses on massive broad based movements as well as specific incidents events and developments and pulls together in one place information previously available only in a wide variety of sources While it centers on the United States the set also includes authoritative accounts of emancipation and abolition in Europe Africa the Caribbean and Latin America The Encyclopedia of Emancipation and Abolition provides definitive coverage of one of the most significant experiences in human history It features primary source documents maps illustrations cross references a comprehensive chronology and bibliography and specialized indexes in each volume and covers a wide range of individuals and the major themes and ideas that motivated them to confront and abolish slavery **Hirelings** Jennifer Hull Dorsey, 2011-04-15 In *Hirelings* Jennifer Dorsey recreates the social and economic milieu of Maryland's Eastern Shore at a time when black slavery and black freedom existed side by side She follows a generation of manumitted African Americans and their freeborn children and grandchildren through the process of inventing new identities associations and communities in the early nineteenth century Free Africans and their descendants had lived in Maryland since the seventeenth century but before the American Revolution they were always few in number

and lacking in economic resources or political leverage By contrast manumitted and freeborn African Americans in the early republic refashioned the Eastern Shore s economy and society earning their livings as wage laborers while establishing thriving African American communities As free workers in a slave society these African Americans contested the legitimacy of the slave system even while they remained dependent laborers They limited white planters authority over their time and labor by reuniting their families in autonomous households settling into free black neighborhoods negotiating labor contracts that suited the needs of their households and worshipping in the African Methodist Episcopal Church Some moved to the cities but many others migrated between employers as a strategy for meeting their needs and thwarting employers control They demonstrated that independent and free African American communities could thrive on their own terms In all of these actions the free black workers of the Eastern Shore played a pivotal role in ongoing debates about the merits of a free labor system
