Marchington, 2005 This major new book examines the way in which employment is managed across organizational
boundaries It analyses how public private partnerships franchises agencies and other forms of inter firm contractual relations
impact on work and employment and the experiences of those working in these increasingly significant forms of organization
It draws upon research undertaken in eight separate networks comprising over 50 organizations to explore the
fragmenting effects of contemporary changes in the organization of work and employment relationships It considers the
consequences of increased reliance upon inter organizational mechanisms for producing goods and especially for delivering
services It argues that established analyses continue to rely too heavily upon a model of the single employing organization
whereas today the situation is often more complex and confused Public private partnerships are one high profile example of
this phenomenon but private enterprises are also developing new relations with their clients and customers that impinge
upon the nature of the employment relationship Established hierarchical forms are becoming disordered with consequences
for career patterns training and skills pay structures disciplinary practice worker voice and the gendered division of labor
The findings of the study raise questions about the governance of such complex organizational forms the appropriateness of
current institutions for addressing this complexity and the challenge of harnessing of employee commitment in
circumstances where human resource practices are shaped by organizations other than the legal employer Using an
analytical schema of three dimensions institutional organizational employment and four themes power risk identity trust the
authors adopt an inter disciplinary perspective to address these complex and critically important practical policy and
theoretical concerns *Fragmenting Work* will be vital reading for all those wishing to understand the contemporary realities of
work and employment **Workplace Privacy** Jonathan Remy Nash, Samuel Estreicher, 2010-01-01 Employers everywhere
