this period through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has more than 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about a vital period in U S history

Mendez v. Westminster Philippa Strum, 2010-04-15 While *Brown v Board of Education* remains much more famous *Mendez v Westminster School District* 1947 was actually the first case in which segregation in education was successfully challenged in federal court Finally giving *Mendez* its due Philippa Strum provides a concise and compelling account of its legal issues and legacy while retaining its essential human face that of Mexican Americans unwilling to accept second class citizenship 1945 Gonzalo and Felcitas Mendez California farmers sent their children off to the local school only to be told that the youngsters would have to attend a separate facility reserved for Mexican Americans In response the Mendezes and other aggrieved parents from nearby school districts went to federal court to challenge the segregation Uniquely they did not claim racial discrimination since Mexicans were legally considered white but rather discrimination based on ancestry and supposed language deficiency that denied their children their Fourteenth Amendment rights to equal protection under the law In 1945 Gonzalo and Felicitas Mendez California farmers sent their children off to the local school only to be told that the youngsters would have to attend a separate facility reserved for Mexican Americans In response the Mendezes and other aggrieved parents from nearby school districts went to federal court to challenge the segregation Uniquely they did not claim racial discrimination since Mexicans were legally considered white but rather discrimination based on ancestry and supposed language deficiency that denied their children their Fourteenth Amendment rights to equal protection under the law Strum tells how thanks to attorney David Marcus s carefully crafted arguments federal district court judge Paul McCormick came to support the plaintiffs on the grounds that the social psychological and pedagogical costs of segregated education were damaging to Mexican American children The school

districts claimed that federal courts had no jurisdiction over education but the Ninth Circuit upheld McCormick's decision ruling that the schools' actions violated California law. The appeal to the Ninth Circuit was supported by amicus briefs from leading civil liberties organizations including the NAACP which a few years later would adapt the arguments of Mendez in representing the plaintiffs in *Brown v. Board of Education*. Mendez effectively weaves together narrative and analysis with personality portraits to create a highly readable and accessible story allowing us to hear the voices of all the protagonists. She also presents the issues evenhandedly, effectively balancing her presentation of arguments by both the plaintiffs and the schools that sought to continue the segregation of Mexican American students. Ultimately, Mendez highlights how Mexican Americans took the lead to secure their civil rights and demonstrates how organization, courage, and persistence in the Mexican American communities could overcome the racism of the school boards. Their inspiring example is particularly timely given the current controversies over immigration and the growing national interest in Latino life.

Choreographing Identities Anthony Shay, 2014-01-10 Throughout its history, the United States has become a new home for thousands of immigrants, all of whom have brought their own traditions and expressions of ethnicity. Not least among these customs are folk dances, which over time have become visual representations of cultural identity. Naturally, however, these dances have not existed in a vacuum. They have changed in part as a response to ever-changing social identities and in part as a reaction to deliberate manipulations by those within as well as outside of a particular culture. Compiled in great part from the author's own personal dance experience, this volume looks at how various cultures use dance as a visual representation of their identity and how traditional dances change over time. It discusses several parallel layers of dance: dances performed at intra-cultural social occasions, dances used for representation or presentation, and folk dance performances. Individual chapters center on various immigrant cultures. Chiefly, the work focuses on cultural representation and how it is sometimes manipulated. Key folk dance festivals in the United States and Canada are reviewed. Interviews with dancers, teachers, and others offer a first-hand perspective. An extensive bibliography encompasses concert programs and reviews as well as broader scholarly sources.

Deconstructing Eurocentric Tourism and Heritage Narratives in Mexican American Communities Frank G. Perez, Carlos F. Ortega, 2019-09-24 This book attempts to dismantle the unfounded Eurocentric view of US-born and immigrant Mexican peoples that groups together the identities of Latinx, Chicanx, and other indigenous peoples of the Southwest into Hispanics, whose contributions to the cultural, historical, and social development of the Southwest are marginalized or made non-existent. The narrative and performative legacies that tourism and fantasy heritage produce are promulgated and consumed by both Latinx and non-Latinx peoples and cultures. This book endeavors to expose these productions through analysis of on-the-ground resistance in the service and spirit of intercultural dialogue and change. This book will offer a precise set of recommendations for breaking away from these practices and thus forming new veritable identities. With a strongly heritage-oriented discourse, this book on deconstructing Eurocentric representation of Mexican people and their culture will appeal to

academics and scholars of heritage tourism Chicano studies Southwest studies and Native American studies courses
