Emergent Church The Future Of Christianity In A Post Bourgeois World:

Emergent Church Johann Metz, 1986-01-01 Back to the Future of the Roman Catholic Church Carmen J.

Calvanese, 2014-11-04 This book explores the notion that the Roman Catholic Church risks imploding from within as a result of its inflexibility towards movements in favor of reasonable change and modernization Attendance at Sunday Mass has dramatically decreased the loss of the youth in these churches is a case in point At the same time the lack of vocations to the priesthood and religious life is at crisis proportions as is further evidenced by the closing of parishes and the curtailing of religious services including the rising phenomenon of priest less Parishes Young men today even if they aspire to the priesthood experience both unrest and rejection at the continued demand of the Church s leadership that priests commit themselves to the lifelong discipline of celibacy Back to the Future of the Roman Catholic Church addresses the root causes of the various developments that have provoked discontent with Church policies and defections from parish life on the part of those who appear to have lost faith in their hierarchical leaders at the highest levels of Church governance Finally this book probes the ways in which the Church can emerge from its crises to become once again faithful to its origins as founded by Jesus Christ

The Architectonics of Hope Kyle Gingerich Hiebert, 2017-09-19 The Architectonics of Hope provides a critical excavation and reconstruction of the Schmittian seductions that continue to bedevil contemporary political theology Despite a veritable explosion of interest in the work of Carl Schmitt which increasingly recognizes his contemporary relevance and prescience there nevertheless remains a curious and troubling reticence within the discipline of theology to substantively engage the German jurist and sometime Nazi apologist By offering a genealogical reconstruction of the manner and extent to which recognizably Schmittian gestures are unwittingly repeated in subsequent debates that often only implicitly assume they have escaped the violent aporetics that characterize Schmitt s thought this volume illuminates hidden resonances between ostensibly opposed political theologies Using the complex relationship between violence and apocalyptic as a guide the genealogy traces the transformation of political theology through the work of a surprising collection of figures including Johann Baptist Metz John Milbank David Bentley Hart and John Howard Yoder *Liberation Theologies,*

Postmodernity and the Americas David Batstone, Eduardo Mendieta, Lois Ann Lorentzen, Dwight N. Hopkins, 2013-09-13 Simultaneously arising out of such diverse contexts as the black community in the United States grassroots religious communities in Latin America and feminist circles in North Atlantic countries theologies of liberation have emerged as a resource and inspiration for people seeking social and political freedom Over the last three decades liberation theology has irrevocably altered religious thinking and practice throughout the Americas Liberation Theologies Postmodernity and the Americas provides a meaningful and spirited debate on vital interpretive issues in religion philosophy and ethics The renowned group of scholars explore liberation theologies uses of discourses of emancipation revolution and utopia in contrast with postmodernism s suspicion of grand narratives while assessing what the postmodernism liberation debate means for

strategies of social and political transformation Guided by the experiences of those at the margins of social power liberation theologies demystify the eurocentric myths of secularization and modernity and calls for a re appraisal of religion in contemporary societies Contributors Edmund Arens David Batstone Maria Clara Bingemer Enrique Dussel Gustavo Gutierrez Jurgen Habermas Franz Hinkelammert Dwight Hopkins Lois Ann Lorentzen Eduardo Mendieta Amos Nascimento Elsa Tamez Mark McLain Taylor and Sharon Welch Robert Allen Warrior

Divine Doppelgängers Collin Cornell, 2020-03-16 The Bible says that YHWH alone is God and that there is none like him but texts and artwork from antiquity show that many gods looked very similar In this volume scholars of the Hebrew Bible and its historical contexts address the problem of YHWH s ancient look alike providing recommendations for how Jews and Christians can think theologically about this challenge Sooner or later whether in a religion class or a seminary course students bump up against the fact that God the biblical God was one among other comparable gods The ancient world was full of gods including great gods of conquering empires dynastic gods of petty kingdoms goddesses of fertility and personal spirit guardians And in various ways these gods look like the biblical God Like the God of the Bible they too controlled the fates of nations chose kings bestowed fecundity and blessing and cared for their individual human charges They spoke and acted They experienced wrath and delight They inspired praise All of this leaves Jews and Christians in a bind how can they confess that the God named YHWH was and is the true and living God in view of this God s profound similarities to all these others The essays in this volume address the theological challenge these parallels create providing reflections on how Jews and Christians can keep faith in YHWH as God while acknowledging the reality of YHWH s divine doppelg ngers It will be welcomed by undergraduates studying religion seminarians and graduate students of Bible theology and the ancient world and adult education classes

Divine Worship and Human Healing Bruce T. Morrill, 2013-03-15 Would many believers consider a wake or funeral an act of worship What does it mean to say that in anointing the sick or administering Viaticum to the dying humans are healed Such questions plumb the biblical and traditional depths of the paschal mystery Just as Jesus ministry at the social religious margins revealed the center of his faith in God s reign so also the church s ministry to sickness and death reveals much about the baptismal and Eucharistic worship so central to its entire life In Divine Worship and Human Healing Bruce Morrill turns to the rites serving the sick dying deceased and grieving to show why sacramental liturgy is so fundamental to the life of faith Readers will appreciate both his compelling narratives from actual pastoral experience and his engagement with biblical theological historical and social scientific resources Morrill invites readers to discover how the liturgical ministry of healing discloses God s merciful love amid communities of faith Jesuit Father Bruce Morrill discusses new book on Liturgical Theology from Jesuit Conference USA on Vimeo

Changing the Subject Mary McClintock Fulkerson, 2001-01-25 The author shows the many ways in which women s scriptural performances are liberating Shifting decisively from women s experience to discursive practices she offers three sample readings of emancipatory discourses from diverse social locations

that better display the variety of ways in which women are oppressed and resistant

The Emergent Church Johann Baptist Metz, 1981

An Alternative Vision Roger Haight, 2014-12-01 An Alternative Vision An Interpretation of Liberation Theology offers a complete overview of the liberation theology movement that is ideally suited for a thorough study of the major questions and important theologians that have contributed to the debate It outlines and brings together into a single unified account liberation theology's alternate vision for providing the possibility of meaningful historical existence for humans in the world today The author translates the Christian vision of liberation theologians from Latin America into more general theological and cultural categories familiar to the English speaking world then shows how that vision makes a unified interpretation of Christian doctrine First liberation theology must be seen as a response to massive human suffering witnessed throughout the world today This human agony is largely caused by human beings and the social and political structures we create and liberation theology addresses this dilemma using the tradition of Christian wisdom and direct imperatives that have universal transcultural significance The second goal is achieved by showing the connection between liberation principles and the major doctrines of Christian belief including God Jesus Christ faith grace the church sacraments ministry and spirituality

Re-Forming History Mark Sandle, William Van Arragon, 2019-05-23 Does the discipline of history need a reformation How should Christian faith shape the ways historians do their work This book written for students considers the how of doing history The authors first examine the current liturgies of the historical profession and suggest that the discipline is in crisis They argue for reformed Christian practices and methodologies for history The book asks important questions why do we do history and for whom How should

faith shape how we do our research and tell stories What do we owe the dead How should Christian historians practice dangerous memory And how can Christian historians do justice love mercy and walk humbly with God How might we rethink reform renew reimagine and re practice the study of the past Christian historians must be sentinels of hope against the world's forgetfulness the authors argue and this book offers some pathways for rethinking our practices from a Christian perspective

God and Humanity in Auschwitz Donald Dietrich, 2017-07-12 *God and Humanity in Auschwitz* synthesizes the findings of research developed over the last thirty years on the rise of anti-Semitism in our civilization Donald J Dietrich sees the Holocaust as a case study of how prejudice has been theologically enculturated He suggests how it may be controlled by reducing aggressive energy before it becomes overwhelming Dietrich studies the recent responses of Christian theologians to the Holocaust and the Jewish theological response to questions concerning God's covenant with Israel which were provoked by Auschwitz Social science has dealt with the psychosocial dynamics that have supported genocide and helps explain how ordinary persons can produce extraordinary evil Dietrich shows how this research combined with theological analyses can help reconfigure theology itself Such an approach may serve to help dissolve anti-Semitism to aid in constructing such positive values as respect for human dignity and to point the way to restricting future outbreaks of genocide *God and Humanity in Auschwitz* surveys which religious factors created a climate that permitted the Holocaust It also illuminates what social science has to tell us about developing a strategy that when institutionally implemented can channel our energies away from sanctioned murder toward a more compassionate society The book has proven to be an essential resource for theologians sociologists historians and political theorists

The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways *The Community of the Weak* presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story

Systematic Theology Francis Schussler Fiorenza, John P. Galvin, 2011-05-01 Unique among contemporary resources the landmark *Systematic Theology* and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments especially the sea change since Vatican II thought the best new historical studies of traditional doctrines and Scripture and the diverse creative impulses that come from recent philosophy and hermeneutics

culture and praxis and ecumenical contacts This new volume combines and updates both previous volumes incorporates into the framework nearly twenty years of fresh thought and bibliography in each area and adds revisions to key articles to take account of a diverse fluid and postmodern situation *New Catholic World* ,1980 **Catholic Theology** Tracey Rowland,2017-01-26 Rowland showcases here the dominant contemporary approaches to doing Catholic theology Chapter 1 offers a summary of the two International Theological Commission ITC documents on the discipline of Catholic theology These documents set out the general principles which should govern any approach to Catholic theology at least according to the ITC The subsequent chapters each focus on one of four different approaches frequently found in contemporary Catholic academies the approach of Thomists members of the *Communio* milieu members of the *Concilium* milieu and promoters of different varieties of Liberation Theology Rowland s work is pitched at the level of first time students of theology who are trying to make sense of the methodological choices which undergird the different approaches to Catholic theology Rowland concludes with four appendices a list of all Doctors of the Church a list of all encyclicals since the 19th century a list of the documents of the Second Vatican Council and a list of definitions of the various Christological heresies which were the subject of the debates of the early Church Councils These appendices will provide useful reference tables for young scholars including seminarians *A Sacramental-Prophetic Vision* Matthew T. Eggemeier,2014-04-23 The sacramental and prophetic traditions of Christian spirituality suggests Matthew Eggemeier possess critical resources for responding to the contemporary social crises of widespread ecological degradation and the innocent suffering of the crucified poor In *A Sacramental Prophetic Vision* Eggemeier maintains that the vital key for cultivating these traditions in the present is to situate these spiritualities in the context of spiritual exercises or ascetical practices that enable Christians to live more deeply in the presence of God *coram Deo* and in turn to make this presence visible in a suffering world
