Emerging China And Its Neighbors:

Emerging China and Its Neighbors Victor Ho, 2005-06-01 Author Victor Ho cannot reveal his real name because in the People's Republic of China it is dangerous to speak out on subjects the government disapproves of. The author explains it further. If one speaks the wrong thing he may land himself in a re-education camp or detention centre. His parents and his children may be also affected. More than 100 intellectuals and writers had been retained without trial recently. Victor Ho has seen a lot since his birth in 1935. However the change he would like to see most is democratization in the middle east. Thus inspired his books *Democratization In The Middle East*, *Political Reforms and Corruption in Hong Kong* and his latest book *Emerging China and its neighbors* which concerns political economic reforms and culture of China and its neighbors.

Emerging China Sudhir T. Devare, Swaran Singh, Reena Marwah, 2014-03-21 This volume seeks to examine the evolving contours of Asian multilateralism through emerging China and how it is likely to impact on the growth trajectories of Asian countries. From this perspective it explores the prospects for partnership in Asia especially in terms of China's engagement with its principal Asian neighbours especially India. A substantial part of the volume is devoted to debating China-India relations highlighting their mutual stakes through their economic and security cooperation as well as their engagement with other countries and regional forums. The book furthers the understanding of the rise of China from an Indian perspective while simultaneously locating China's rise in the economic dynamics of an emerging Asia. The volume offers illuminating viewpoints, analyses and insights from multiple perspectives mixed with academic rigour and up to date information. It will be of interest to those engaged in economics, politics, trade relations, Indo-China relations, foreign policy, area studies, public policy and strategic studies.

Hard Realities: India, Pakistan, China in an Emerging New World Dr. Amarjit Singh, 2019-12-26 *Hard Realities* presents ideology and strategies for Indian pre-eminence. Some of the interesting takeaways are: Irrefutably Pakistan's existence is not in India's interest. The time is ripe for dismantling Pakistan as India's neighbor. Thus Baluchistan, Sindh, West Punjab and Kashmir must spin out of Pakistan in different ways while the Federally Administered Tribal Areas (FATA) must be legitimately returned to Afghanistan. Consequently India has no choice but to prepare its forces with a sense of urgency for the upcoming world economic disruption in the 2020s. However India has shortcomings such as historical failures by the Indian leaders to strategize properly with respect to Pakistan and China, deficient investment in engineering disciplines and failure to boost its economy timely through indigenous defense production. Mostly India's personality is inappreciable. Moreover India's approach to China must be unambiguous that Tibet and Xinjiang are not a part of China. As such India will not share a border with China. But at present China is running circles around India and only technological development of high quality engineering talent will help India. India has a majorly tough row to hoe as a nation. Its 2.5 to 3 front war is its own creation. Though the destiny of nations is a potent force, India must not be found wanting when it comes to singly defending its military and economic independence. China's Belt And Road

Initiatives And Its Neighboring Diplomacy Jie Zhang, 2016-12-15 This book studies China's Belt and Road Initiatives and the country's neighboring diplomacy. The Belt and Road Initiatives proposed by Chinese President Xi Jinping in 2013 consist of two main components: the land-based Silk Road Economic Belt and the ocean-going Maritime Silk Road. China has implemented the initiatives by establishing the Asian Infrastructure Investment Bank and the Silk Road Fund. This book focuses on analysis of the initiatives and the responses from the major powers, neighboring countries and regions. The book consists of four parts: the Overview, The Belt and Road Initiatives and Big Powers, The Belt and Road Initiative and Regions, and The Belt and Road Initiative and Hot Issues. The Overview explicates the strategic orientations, connotations and approaches of implementation of the initiatives from a theoretical perspective. The second part analyzes the Asia-Pacific strategies of four great powers, namely the United States, Russia, Japan and India, their relations with China and responses to the initiative. The third part discusses the Belt and Road Initiatives and four regions, namely Northeast Asia, Southeast Asia, South Asia and Central Asia. It evaluates their attitudes and responses towards the Belt and Road Initiatives, strategic docking and major challenges in this regard. The fourth part touches upon the initiatives and current hot issues, including non-traditional security, the South China Sea dispute and venture analysis on investment environment renovation.

China and the World SHAO Binhong, 2013-06-20 What is China's rightful place on the world stage? Will the world remain unipolar as signs of American decline appear to be mounting? How can China maintain a harmonious relationship with its neighbors? What does China intend to do with the new power and influence that appears to be at its disposal? In light of emergent post-2008 economic realities, how should China adjust its foreign economic relations? This volume, the first of its kind, gathers a collection of translations of influential essays, talks and papers on Chinese foreign policy, national security and foreign economic relations written by Chinese elites. Many papers have also served as propositions for policy prescriptions to China's leaders, the vast majority of which have to date only been available in Chinese.

The Indo-Pacific: Trump, China, and the New Struggle for Global Mastery Richard Javad Heydarian, 2019-09-25 This book places the presidency of Donald Trump as well as the brewing Sino-American Cold War within the broader historical context of American hegemony in Asia, which traces its roots to Alfred Thayer Mahan's call for a naval build-up in the Pacific, the subsequent colonization of the Philippines and ultimately reaching its apotheosis after the defeat of Imperial Japan in the Second World War. The book, drawing on visits from Cairo to California and Perth to Pyongyang as well as interviews and exchanges with heads of state and senior officials from across the Indo-Pacific, provides an overview of the arc of American primacy in the region for scholars, journalists and concerned citizens.

China's Rise and Regional Integration in East Asia Yong Wook Lee, Key-young Son, 2014-03-05 With featuring far-reaching diversities and disparities among the regional states in their political, economic and social systems and cultural and religious orientations, East Asia is a microcosm of international society at large. Nevertheless, there are unique dynamics unfolding in East Asia at the turn of the twenty-first century, namely the rise of China as a contender for regional and global hegemony and a set of

collective initiatives to integrate the region into a harmonious community This book provides new arguments on China's rise and the transformation of East Asia and analyzes the foreign policy behavior of the regional states and relations among them In doing so the contributors show why and how China is rising and how China's rise shapes the emerging regional structures and institutions in East Asia Furthermore given the East Asian context where the world's second and third largest economies coexist with much smaller states and with China's ascendancy likely to continue this book challenges the pervasive dichotomy of hegemony and community This allows for a fuller and more nuanced account of China's role and the shifting regional policies in East Asia in which hegemonic cooperation does not necessarily lead to a hegemonic form of regional order Presenting strategic political economic and historical perspectives on China's changing role in the region and the development of regionalism China's Rise and Regional Integration in East Asia will be of great interest to students and scholars of Chinese politics Asian politics international relations and regionalism *China* Aoyama Rumi, 2010-11-01 Based on research financed by the Ford Foundation this book brings together the work of scholars and experts from China and adjacent countries providing an insight into China's regional relations from different angles and perspectives *Afghanistan and Its Neighbors after the NATO Withdrawal* Kirill Nourzhanov, Amin Saikal, 2016-03-04 The planned reductions in NATO troop numbers in Afghanistan through 2015 and a final withdrawal at the end of 2016 brings up numerous pressing questions about the security and national interests of not just Afghanistan but of the broader region itself The problem of a chaotic Afghanistan or of an outright Taliban victory is of great concern to not only immediate neighbors such as Iran Pakistan and the former Soviet Central Asian republics to the north but also to those countries in the region with Afghanistan related security or economic concerns such as China and India Further abroad Russian American and European interests and plans for dealing with the fallout from Afghanistan must also be taken into account as these major powers have enduring interests in Afghanistan and the region This volume puts the prospects for short and mid term security dynamics at the core of the analysis with each case being placed in its proper contemporary historical economic and political context The book will offer a truly comprehensive nuanced and timely account of the security situation in and around Afghanistan *China's International Relations* Yunling Zhang, Binhong Shao, 2021-10-23 This book provides scholars in the English speaking world with a window to understand China's perspectives on diplomatic theories and policies This book is a study of China's diplomatic theories and Chinese foreign practice analysis Along with the recent diplomatic strategy adjustments diplomatic practices and changes it discusses China's international relations with its neighbors the USA Japan India the Middle East and SAARC as well as the One Road and One Belt initiative *Regional Leadership in Post-Soviet Eurasia* Irina Busygina, Svetlana Krivokhizh, 2023-05-22 This book explores power in international relations in a world characterized by the growing competition of major powers for smaller nations Focusing on the major powers and smaller countries of Eurasia it argues that power in international relations is different from coercion and is rather a social contract between a leader state

and follower states where reciprocity is key and where leadership relationships cannot be adequately explained by focusing solely on the leader. It challenges the perception that genuine regional leadership is quite common, contending instead that it is rare that much more often major powers make claims for leadership and that regional leadership does not indicate the status of a particular state but rather the social role of the leader which is recognized by its followers, a role which is always relative and based on communication and constant interaction with followers. The book highlights the important role followers play in recognizing regional power, the importance for a state's regional leadership strategy in creating and holding a valuable position attractive for followers and delivering greater value to followers compared to other potential leaders.

Rising China and World Order Yunling Zhang, 2010. Contains the author's writings on China's perspective and policy with regard to its foreign relations and engagement of regional and global affairs. This book covers issues ranging from the post Cold War world order, China-US relations, the North Korean nuclear crisis, and China's policy and China's relations with its neighbors in a fresh context.

China and the Global Politics of Regionalization Emilian Kavalski, 2016-05-23. This volume examines the prominent role of China in global politics and the relevance of the new regionalism paradigm to China's international outreach. It provides a comprehensive and critical assessment of China's impact on the global politics of regionalization, offers a novel application of analytical models, investigates the aspects of the Chinese practice of regionalization that set it apart and demonstrates China's transformative potential in international life. Addressing the need to re-orient the research and policy agenda of international relations, this comprehensive study demonstrates both the lack of language to engage with existing norms and standards and the difficulty of applying them to an evaluation of the global politics of China's non-Western international agency.

Examining the Effects and Consequences of an Emerging China
United States Congress, Senate, Committee on Foreign Relations, Subcommittee on East Asian and Pacific Affairs, 2003.

The Security Environment in the Asia-Pacific Hung-Mao Tien, Ten-jen Cheng, 2016-09-16. Multilateral security forums in the Asia Pacific region have evolved but bilateral defence alliances continue to form the principle pillars of national security for most nations in the region. This text presents a survey of issues confronting the Asia Pacific region as it enters year 2000.

China's Ascent Robert S. Ross, Zhu Feng, 2008. Assessments of China's importance on the world stage usually focus on a single dimension of China's increasing power rather than on the multiple sources of China's rise including its economic might and the continuing modernization of its military. This book offers multiple analytical perspectives: constructivist, liberal, neorealist, on the significance of the many dimensions of China's regional and global influence. Distinguished authors consider the likelihood of conflict and peaceful accommodation as China grows ever stronger. They look at the changing position of China from the inside. How do Chinese policymakers evaluate the contemporary international order and what are the regional and global implications of that worldview? The authors also address the implications of China's increasing power for Chinese policymaking and for the foreign policies of Korea, Japan and the United States.
